-with the 2006 Avondale Range!

Welcome to Avondale's 2006 collection.

As we celebrate our 35th year of designing and building award-winning caravans we are pleased to present our completely new Argente range.

This builds on last year's highly successful launch of the new Avondale and Land-Ranger models, while exciting new features for the popular light-weight, low cost Dart range include an AKS stabiliser, alloy wheels, loose fit carpets, a new upholstery scheme and eye catching 'SE' graphics.

Whichever tourer you choose from the Avondale 2006 range, you will benefit from our standard key features:

- five year factory backed weatherseal warranty
- side mounted gas locker for ease of use with good weight distribution
- spare wheel located securely inside under the floor.

All Avondale tourers are designed and manufactured to meet the European Design Standard EN-1645-1 and produced within a quality system which complies to the international ISO9001:BS5750 to ensure your comfort and safety.

Our distributor network is one of the largest in the country and your local centre will be pleased to arrange a full demonstration of the models that interest you and also to discuss the comprehensive after-sales service that is available. All new Avondale owners receive our 'Feedback' questionnaire shortly after taking delivery of their new tourer. Feedback is an essential part of our customer care package, helping to assure our future customers' satisfaction. Please take a few moments to complete it as many of our developments come from customers' comments.

This is why Avondale is truly
