LIVE LIFE...

LOVE AUTO-TRAIL

Owners of Auto-Trail luxury motorhomes frequently comment that they haven't just bought one of our leisure vehicles, but have also invested in a lifestyle. Living your dream is easy with Auto-Trail. For all it's a mobile residence as owners are 'at home' wherever they are. In addition, it's a comfortable and safe method of transport to take themselves, plus their families and friends, wherever they want to go and at whatever pace they wish to travel. From pootling along country lanes in our green and pleasant land to being whisked away at motorway speeds to far-away European resorts.

An Auto-Trail motorhome is indispensable when it becomes a support system for activities such as rambling, cycling, bird watching, landscape painting, geocaching, researching family genealogy, motor sports and attending cultural events such as music and arts festivals, or even visiting archaeological sites and heritage buildings. The list of possible activities is as long as your imagination is broad. Apologies to Shakespeare, but among Auto-Trail owners this phenomenon is known as 'A van for all reasons'.

Weekends away and holidaying by motorhome are responsible ways of touring making only a minimal impact on the country's eco system, but contributing so much to the local economy by supporting rural businesses such as farm shops. Serious travellers and explorers buy motorhomes, tourists need not apply!

For more than 30 years Auto-Trail motorhomes have been designed and built by our highly-skilled and enthusiastic team in North Lincolnshire. Our recently extended state-of-the-art manufacturing facility is located in Europarc, a name which flags up our European links. As part of the Trigano Group we enjoy the financial stability and a level of investment only possible by being a partner in one of the largest and most successful pan-European leisure vehicle manufacturers.

Tracker, Apache and Frontier all have identifiably different layouts and specifications and offer genuine choice at different price-points. Whatever your leisure vehicle needs are, we have the widest

selection of models and variants, thus ensuring that at least one will be a perfect fit for you.

We never launch multiples of new models just for the sake of it; any addition has to earn its place in our line-up. Thus there is just one new model for 2013 and it is an elite model for the Tracker range. Tracker EKS & RS continue to be the motorcaravan of choice for those get-away folk desiring a compact leisure vehicle, but we've been listening to both our existing and potential customers. Following the strong sales of the recently launched FB, the first ever fixed-bed Tracker, we've decided to offer an additional fixed-bed model, the RB. In the RB the fixed bed is a walk-around island for easy access and egress.

Significantly, our range includes an industry-leading choice of overcab shapes. We are unique among manufacturers in offering all three, Hi-Line, Lo-Line and Super Lo-Line within our model range. Our designers have been working hard to improve all three, to make the best even better. Increased sculpting to the moulded curves has further softened what were already fluid, attractive and fuel-efficient shapes. In addition they've added the new larger 'Skyline' panoramic rooflight to all variants, thereby offering an unrivalled light and airy ambience to those equipped with the Hi-Line overcab. Perfect for those relaxing in the forward lounge or star-gazing in the overcab bed.

A new easy-to-operate recessed awning graces the nearside. Extend it to provide welcome shade and extra living space.

Entry is via a re-designed glazed entrance door featuring an improved flyscreen, remote central locking, waste bin and dedicated storage for what has become an iconic fashion accessory, the Auto-Trail umbrella.

Not visible from the exterior but of equal importance is the decision to fit the 'twin-element' version of the efficient dual fuel Combi heating system, resulting in much reduced warm up times – plus of course the option for 'on-the-move' heating.

All have refreshed graphics adding a simple elegance to the crisp high-gloss white exterior coachwork. Our highly talented design team

is responsible for the addition of the optional Sport-Line pack. If specified, the exterior gains a purposeful new look with a stunning metallic Carbon Black cab, co-ordinated graphics and low-level LED running lights to the front spoiler.

In fact LED lighting features heavily in our 'across-the-board' specification enhancements for 2013. Lounge lighting has been upgraded and all models now feature downlighters, task lighting, more reading spot lights and improved adjustable mood lighting, helping to create the perfect evening ambience.

The Ducato's driving environment was recently treated to a face-lift and for 2013, all cabs gain a new improved design of ergonomically correct and superbly comfortable Captain's seats complete with two armrests and swivel mountings.

We think they are ahead of the rest in offering all the advantages of a commanding seating position with an engaging car-like drive, plus class-leading low emissions and good fuel efficiency. 'Fiat Comfortmatic' transmission is a favoured option. It's a two-pedal drive via a robotised gearbox. All the advantages of a traditional automatic gearbox but with no fuel penalties.

As always, although the default choice in lounge seating is two inward-facing settees, Auto-Trail is unique in offering the option of replacing the offside settee with an extra two forward-facing travel seats, either as a half-dinette or as an 'L'-shaped settee.

Finally, every year readers of Practical Motorhome are encouraged to fill out questionnaires for the magazine's Owner Satisfaction Awards. We are proud that we are so highly thought-of by the most important people of all...our customers. We have consistently been awarded a Gold Award (the highest) for both new and pre-owned Auto-Trail motorhomes...

TRACKER

Trend-setting Tracker for top touring

Our Tracker range continues to delight purchasers looking for a design-led touring vehicle. This year there's a new model (Tracker RB) which we are really excited about, primarily because its layout has never previously featured in our line-up. It has been designed and built in response to customers' requests for an easy-access fixed bed model in a manageable overall length of motorcaravan.

The 7.6m (24ft 11in) Tracker RB features a generously-sized and permanent island double-bed situated transversely at the rear. The forward lounge is equipped with a pair of swivelling captain's armchairs ahead of two inward-facing settees. The well-equipped kitchen and wardrobe is central on the nearside and opposite is the large washroom with separate walk-in shower compartment. Tracker RB will offer a choice of lounge seating layouts including those featuring two extra travel seats. Favourable initial response from the specialist press, our owners' club and the dealer network indicated that this will be a hugely popular addition to the Tracker range.

Other recent additions to the Tracker line-up include the short-n-sweet Tracker RS with full-width rear washroom including a separate walk-in shower – all in a highly-maneuvrable

6.1m (20ft). Stretching the tape to 7.09m (23ft 3in) is the FB, the other recent addition. FB was the first Tracker to feature a permanent double bed – in this case it's a low-level rear corner one.

The original Ducato-based Tracker, the EKS, offers what has become an evergreen layout principally because it provides an amazing feeling of space in such a modestly sized motorhome.

For 2013 all Trackers will benefit from some desirable and useful equipment upgrades including a new model of stainless-steel microwave, additional LED lighting in the lounge areas, and a change to the highly regarded Omnistor 4900 series awning.

The Tracker range offers a choice of Lo-Line roof, Super Lo-Line and Hi-Line roof profiles; these can be specified at the time of ordering as a no-cost option. They all feature the new 'Skyline' panoramic rooflight, plus the Hi-Line adds a fold-away full size transverse double-bed.

Whether it's long trans-continental journeys, or exploring the rural byways of Britain and Ireland, the Tracker range is comprehensively-equipped with everything you need in a motorhome for wherever the road might take you.

“Step inside a Tracker for the first time and you will be amazed by its clever design, which maximise the interior space within a compact practical package.”

AUTO-TRAIL TRACKER RS

Introduced last year to plaudits from the specialist press and prospective purchasers alike, the RS re-defines the term 'compact motorhome'. The full-width rear washroom and changing area with separate walk-in shower cubicle illustrates Auto-Trail's determination to offer purchasers a level of luxury more usually associated with much longer models. The optional half-dinette features two extra forward-facing travel seats and allows many RS owners to use their motorhome as a family car, thus removing the need for an extra vehicle.

A powerful but frugal low-emission 130bhp Euro 5 engine drives the front wheels via a slick six-speed manual gearbox.

Cost options include 150bhp and 180bhp engine upgrades, plus 'Fiat Comfortmatic' automatic transmission is available with any engine.

SPECIFICATION AT A GLANCE

Length:	6.10m (20'0")
Width (mirrors folded):	2.35m (7'8")
Max Gross Weight:	3500/3650kg

Details on layout and seating options available for this model on page: 64

FLOOR PLAN

AUTO-TRAIL TRACKER EKS

The socially-inclusive lounge in the EKS features two swivelling cab seats ahead of a pair of 1.52m (5ft) long inward-facing settees, that at bedtime offer the choice of two single beds or a king-sized all-over double. The rear kitchen is equipped with everything for the keen chef, while the rear corner washroom offers home-from-home facilities including an electric-flush toilet, vanity basin and a separate shower.

A powerful but frugal low-emission 130bhp Euro 5 engine drives the front wheels via a slick six-speed manual gearbox.

Cost options include 150bhp and 180bhp engine upgrades, plus 'Fiat Comfortmatic' automatic transmission is available with any engine.

SPECIFICATION AT A GLANCE

Length:	6.34m (21'0")
Width (mirrors folded):	2.35m (7'8")
Max Gross Weight:	3500kg

Details on layout and seating options available for this model on page: 64

FLOOR PLAN

AUTO TRAIL TRACKER FB

The Tracker FB just tips 7 metres yet still compact to accommodate a permanent low-level double bed. Alongside this increasingly popular feature is a longitudinal washroom with separate showering area. The comfortable forward lounge is ahead of the superbly equipped 'L' shaped kitchen.

A powerful but frugal low-emission 130bhp Euro 5 engine drives the front wheels via a slick six-speed manual gearbox.

Cost options include 150bhp and 180bhp engine upgrades, plus 'Fiat Comfortmatic' automatic transmission is available with any engine.

SPECIFICATION AT A GLANCE

Length:	7.09m (23'3")
Width (mirrors folded):	2.35m (7'8")
Max Gross Weight:	3500/3650kg

Details on layout and seating options available for this model on page: 64

FLOOR PLAN

AUTO TRAIL TRACKER RB

The all-new Tracker RB sets even higher standards in space and luxury. It is unique among Auto-Trail motorhomes in that it is the only one to feature a queen-sized bed located transversely towards the rear. The island bed offers full walk-around capability enabling easy access for both partners, plus the high quality mattress will help ensure a comfortable night's sleep.

A powerful but frugal low-emission 130bhp Euro 5 engine drives the front wheels via a slick six-speed manual gearbox.

Cost options include 150bhp and 180bhp engine upgrades, plus 'Fiat Comfortmatic' automatic transmission is available with any engine.

SPECIFICATION AT A GLANCE

Length:	7.60m (24'11")
Width (mirrors folded):	2.35m (7'8")
Max Gross Weight:	4250kg

Details on layout and seating options available for this model on page: 65

FLOOR PLAN

APACHE

With every-day practicality embrace a new life style

Apache models are strong sellers to both families and couples looking for the ultimate in value-for-money but without sacrificing comfort or equipment levels. The Apache range is every inch an Auto-Trail, boasting many of the same features as our flagship Frontier range. Featuring the integral spare wheel under a moulded cover, electrically adjusted and heated exterior mirrors, cab air-conditioning, cruise control, domestic-style kitchen with a dual fuel cooker, microwave and refrigerator, plus a fully equipped washroom with a walk-in shower cubicle. Don't forget the sumptuous soft furnishings and the very latest in water, electrical and heating systems. Range upgrades for 2013 include a new entrance door, sharper graphics, plus a choice of three new body shapes each equipped with the Skylight panoramic rooflight. (634 available as Hi-Line only)

All Apaches are medium-sized coachbuilt motorhomes offering what many feel is the best balance between being compact enough for good on-the-road manoeuvrability, but big enough on-site to accommodate a family comfortably.

The range commences with the sub-7m (23ft) 632 which is the only Apache to offer a permanent transverse double-bed over a full-width G-style exterior access storage compartment.

Next is the slightly longer 634 which has the UK's favourite two-berth layout featuring a palatial rear 'U'-shaped lounge which converts to two easy access longitudinal single beds or a huge double bed.

Topping the range is the 7.5m Apache 700. Arriving with four sleeping berths and four travel seats as standard, the 700 is the family favourite and can be specified with an extra double bed over the cab (Hi-Line). There's a huge amount of underseat and high-level locker storage and the standard heavier-duty 4,250kg chassis ensures a generous payload enabling all those trip 'essentials' to be safely and legally carried.

"The Apache range is beautifully crafted, practical and delivers a high level of specification to suit the modern motorhomer."

MODEL FEATURED APACHE 700 HI-LINE

AUTO TRAIL

APACHE

632

The Apache 632 appears to defy the laws of applied physics. It is such a clever design that it feels far bigger on the inside than its modest 6.95m (22ft 9in) exterior length would suggest. A permanent transverse double-bed across the rear offers plenty of space for the tallest occupants to stretch out on, plus it is over a full-width G-style storage compartment with a door either end to facilitate quick retrieval of all those trip 'essentials' that make the outdoor life such fun. An additional double-bed can be made in a jiffy from the lounge settees.

A powerful but frugal low-emission 130bhp Euro 5 engine drives the front wheels via a slick six-speed manual gearbox.

Cost options include 150bhp and 180bhp engine upgrades, plus 'Fiat Comfortmatic' automatic transmission is available with any engine.

SPECIFICATION AT A GLANCE

Length:	6.95m (22'9")
Width (mirrors folded):	2.35m (7'8")
Max Gross Weight:	3500/3650kg

Details on layout and seating options available for this model on page: 66

FLOOR PLAN

APACHE 632

AUTO-TRAIL

APACHE

634

Auto-Trail has been building motorhomes in Britain using skilled British craftsmen and women for over three decades. Throughout this period the 634's layout has been a strong seller to experienced motorhomers, and it's easy to see why. The rear 'U' shaped lounge provides comfortable seating while the triple aspect windows enable an unrivalled panoramic view. Available only as a Hi-Line, it allows the customer to choose their accommodation sleeping style and either keep the downstairs as a lounge, or perhaps invite guests over for the weekend.

A powerful but frugal low-emission 130bhp Euro 5 engine drives the front wheels via a slick six-speed manual gearbox.

Cost options include 150bhp and 180bhp engine upgrades, plus 'Fiat Comfortmatic' automatic transmission is available with any engine.

FLOOR PLAN

AUTO TRAIL

APACHE

700

The 700 is the ultimate Apache, offering up to six sleeping berths and four travelling seats as standard. Travelling seats for two extra people can also be specified (See page 66). The seating/dining areas at each end of the vehicle, ensures the 700 is the natural choice for stress-free family holidays or even for couples who just want space to spread out. The centre of the vehicle is home to an always-available large washroom, toilet and separate shower. The 700 is built on the heavier-duty Ducato so offers plenty of payload for safe transportation of those toys for kids of all ages!

A powerful but frugal low-emission 130bhp Euro 5 engine drives the front wheels via a slick six-speed manual gearbox.

Cost options include 150bhp and 180bhp engine upgrades, plus 'Fiat Comfortmatic' automatic transmission is available with any engine.

APACHE 700

FRONTIER

Magnificent Motorhomes built without compromise

Frontier is the choice of the discerning seasoned traveller, whose spirit of adventure requires a perfect synergy of cutting-edge design, contemporary finishes and innovation. Designed to incorporate the very latest technology and specified with high-end fixtures and fittings, the Frontier range is built to satisfy the demands of both long distance touring and trips of extended duration. Truly a motorhome range built without compromise and one which offers a range of lengths and a variety of layouts to suit all purchasers.

The starting point of Frontier ownership is the Navajo; a classic two-berth front lounge design – uncluttered and with plenty of open floor space for easy living, plus a choice of single beds or a large all-over double-bed.

Next is a quartet of models – Cherokee, Mohawk, Savannah and Dakota – all built on the longer wheelbase heavier-duty Fiat chassis-cab and featuring permanent rear beds. Mohawk has a mid-level transverse double bed, mounted above an easy accessible full width storage area, whereas the Cherokee opts for a rear corner double with washroom alongside. Savannah and Dakota are slightly longer overall. The former provides a choice of twin single beds or a transverse double.

The Dakota features a rear corner double sited forward of an award-winning full-width washroom.

The final two models built on the Fiat wide-track chassis-cab are the 7.9m (25ft 11in) Delaware and Scout, using the 4300mm wheelbase chassis. Delaware boasts a permanent rear island double-bed and the Scout is an extended version of the Apache 700 layout.

The longest Frontiers all have a Fiat cab mated to an Al-Ko Kober fully-galvanised chassis with independently-sprung tandem rear wheels for the ultimate in stability and road holding. Six wheels allow a class-leading payload on a palatial 8.7m (28ft 7in) body length. Comanche is an extended version of the Delaware layout - offering the same island rear bed but with a larger lounge. Arapaho can sleep six in comfort and Chieftain features a high or low-level transverse bed above a full-width G-style exterior-access storage compartment.

FRONTIER RANGE

“Auto-Trail’s Frontier range represents the ultimate in luxury travel – whatever the distance or duration.”

MODEL FEATURED COMANCHE SUPER LO-LINE

WWW.AUTO-TRAIL.CO.UK | 23

AUTO TRAIL FRONTIER NAVAJO

Sumptuous living in a relatively compact vehicle ensures that the Navajo is the motorhome of choice for those looking for the ultimate luxury compact vehicle. Featuring sophisticated equipment and elegant soft furnishings, this classic British layout continues to be still one of the most popular in our range.

A powerful but frugal low-emission 130bhp Euro 5 engine drives the front wheels via a slick six-speed manual gearbox.

Cost options include 150bhp and 180bhp engine upgrades, plus 'Fiat Comfortmatic' automatic transmission is available with any engine.

SPECIFICATION AT A GLANCE

Length:	6.81m (22'4")
Width (mirrors folded):	2.35m (7'8")
Max Gross Weight:	3500/3650kg

Details on layout and seating options available for this model on page: 67

FLOOR PLAN

AUTO TRAIL FRONTIER CHEROKEE

An inclusive and accommodating forward lounge is ahead of an offside 'L' shaped kitchen with a huge two-door fridge-freezer across the central aisle. The rear section of the Cherokee is home to a comfortable low-level permanent rear corner bed with a spacious longitudinal washroom running alongside. Cherokee is built on the heavier duty version of the Ducato and has plenty of available payload to accommodate extra passengers and their luggage, if the cost option of a half-dinette with two travel seats is specified.

A powerful but frugal low-emission 130bhp Euro 5 engine drives the front wheels via a slick six-speed manual gearbox.

Cost options include 150bhp and 180bhp engine upgrades, plus 'Fiat Comfortmatic' automatic transmission is available with any engine.

SPECIFICATION AT A GLANCE

Length:	7.50m (24'7")
Width (mirrors folded):	2.35m (7'8")

FRONTIER CHEROKEE

AUTO TRAIL FRONTIER MOHAWK

A raised permanent transverse double-bed above a large transverse storage area ensures that the Mohawk is right at the top of the short list of those wanting a luxury motorhome with the ability to safely and securely transport long and valuable loads. These include cycles, motorbikes, scooters, mobility buggies, water sports equipment, or even competition fishing rods! Mohawk also offers a completely separate shower compartment as well as a washroom with toilet.

A powerful but frugal low-emission 130bhp Euro 5 engine drives the front wheels via a slick six-speed manual gearbox.

Cost options include 150bhp and 180bhp engine upgrades, plus 'Fiat Comfortmatic' automatic transmission is available with any engine.

SPECIFICATION AT A GLANCE

Max Gross Weight:	4250kg

Details on layout and seating options available for this model on page: 67

FLOOR PLAN

AUTO TRAIL FRONTIER SAVANNAH

For those who wish to sleep as singles, Savannah has two luxury single beds, however, this can also be converted into a large double if required. The rear bedroom area, washroom and shower can be divided off from the rest of the interior to create a bedroom with en-suite facilities. As well as including the swivelled cab seats, the forward lounge has two inward-facing settees which are long enough for relaxing!

A powerful but frugal low-emission 130bhp Euro 5 engine drives the front wheels via a slick six-speed manual gearbox.

Cost options include 150bhp and 180bhp engine upgrades, plus 'Fiat Comfortmatic' automatic transmission is available with any engine.

SPECIFICATION AT A GLANCE

Length:	7.60m (24'11")
Width (mirrors folded):	2.35m (7'8")
Max Gross Weight:	4250kg

Details on layout and seating options available for this model on page: 68

FLOOR PLAN

AUTO TRAIL FRONTIER DAKOTA

Based on popular designs that feature a permanent rear corner bed, the Dakota takes the concept a stage further, by moving the bed forward slightly to allow the en-suite facilities to spread across the whole of the vehicle's width and thus create the biggest separate walk-in shower compartment in its class. A comfortable forward lounge and well-equipped central kitchen complete the Dakota's inventory.

A powerful but frugal low-emission 130bhp Euro 5 engine drives the front wheels via a slick six-speed manual gearbox.

Cost options include 150bhp and 180bhp engine upgrades, plus 'Fiat Comfortmatic' automatic transmission is available with any engine.

FLOOR PLAN

FRONTIER DAKOTA

AUTO-TRAIL FRONTIER DELAWARE

Delaware shamelessly copies the layout of the flagship Auto-Trail Comanche, but by slightly reducing the size of the lounge, Auto-Trail has fitted it onto a shorter Fiat Ducato wide-track chassis. Amazingly, the spacious front lounge still seats seven comfortably and the fully fitted kitchen packs in all the white goods discerning chefs demand.

A powerful but frugal low-emission 130bhp Euro 5 engine drives the front wheels via a slick six-speed manual gearbox.

Cost options include 150bhp and 180bhp engine upgrades, plus 'Fiat Comfortmatic' automatic transmission is available with any engine.

FRONTIER DELAWARE

AUTO TRAIL FRONTIER SCOUT

"Be prepared" with the Scout. As a Hi-Line it benefits from six sleeping-berths, two seating dining areas, as well as having copious amounts of storage. Unexpected guests and their luggage can easily be accommodated. The Scout is particularly popular with purchasers who frequently take along friends and family who are used to five-star holiday accommodation. Although similar in concept to the Apache 700, the Scout's larger rear lounge enables it to be easily converted into two longitudinal single beds or a giant 'all-over' double.

A powerful but frugal low-emission 130bhp Euro 5 engine drives the front wheels via a slick six-speed manual gearbox.

Cost options include 150bhp and 180bhp engine upgrades, plus 'Fiat Comfortmatic' automatic transmission is available with any engine.

FLOOR PLAN

AUTO TRAIL FRONTIER COMANCHE

Moving up to the rarefied atmosphere occupied by Auto-Trail's aspirational tandem-axle six wheel range. Comanche is a relative newcomer to the Frontier range but one which has quickly gained the sobriquet of being the ultimate motorhome. Stylish soft furnishings, beautifully crafted furniture, comprehensive equipment levels with a layout aimed at the serious motorhomer. A luxurious rear bedroom featuring a permanent island bed with 'en-suite' facilities is complimented by a central kitchen and palatial forward lounge. As with all the six wheelers, Comanche is built on the class leading Al-Ko Kober fully-galvanised chassis, offering the comfort of fully independent torsion suspension together with surefooted roadholding and reassuring braking efficiency.

The very latest Fiat common-rail low-emission 180bhp Euro 5 engine drives the front wheels via a slick six-speed manual gearbox.

Cost options include 'Fiat Comfortmatic' automatic transmission.

SPECIFICATION AT A GLANCE

Length:	8.73m (28'7")
Width (mirrors folded):	2.35m (7'8")
Max Gross Weight:	5000kg

Details on layout and seating options available for this model on page: 69

FLOOR PLAN

Cost optional 'Livingston' leather upholstery fitted to this vehicle

AUTO TRAIL FRONTIER ARAPAHO

Not so much a house on wheels, more of a mobile stately home. Arapaho offers elegance and flexibility on a grand scale. The only one of the largest Frontier motorhomes not to feature a permanent bed means that it is perfect for couples, families and friends entertaining. If the Hi-Line option is selected it can sleep six, and seat many more. As with all the six wheelers, Arapaho is built on the class leading Al-Ko Kober fully-galvanised chassis offering the comfort of fully independent torsion springing together with surefooted roadholding and reassuring braking efficiency.

The very latest Fiat common-rail low-emission 180bhp Euro 5 engine drives the front wheels via a slick six-speed manual gearbox.

Cost options include 'Fiat Comfortmatic' automatic transmission.

AUTO TRAIL SEAT-BELT OPTIONS

“Protect your loved ones... and your investment”

In the Beginning

Seatbelts have been fitted to the front seats of motorhomes since legislation was first introduced making their use mandatory, these must be worn when the vehicle is in motion.

The Law

The law relating to the use of seatbelts in the back of motorhomes is more complicated, but the trend is towards the introduction and use of designated forward-facing travel seats with three-point seatbelts. Optional rear-facing seats with belts also meet the latest legislation.

Further Changes

Further changes to the law look likely in the future, when travelling in the rear of motorhomes without designated travel seats may become illegal.

SEAT BELT GUIDELINES

Situation	Front Seat	Rear Seat	Responsibility
Driver.	Seat belt must be worn if fitted.	-	Driver.
Child under 3 years of age.	Correct child restraint must be used.	Correct child restraint must be used.	Driver.

Adult passengers.	Seat belt must be worn if fitted.	Seat belt must be worn if fitted.	Passenger.

Our Changes

Auto-Trail has introduced a number of alternative layouts to most of its models, which comply with these regulations giving reassurance to you and your family.

Our Seat-Belt Logo

Look for the logo to establish whether this option is available on your preferred model.

This logo indicates that this particular model is available with an optional layout incorporating three-point inertia reel seatbelts allowing at least two extra designated travelling seats. In some cases, you may specify two belts to rear facing seating (with fully padded back and neck restraints) allowing up to six people (including the driver) to travel in comfort, safely and within the law.

Look for the label

Designated travelling seats should be clearly marked with a label indicating that they are travel seats which must be used when the motorhome is in motion.

European Directive 2005/39/EC states that it is unsafe to travel in a side facing travelling seat and therefore these are no longer offered.

“A choice of factory fitted layouts and seat belt variations for your comfort and safety”

OPTION
A

Half Dinette (HD)

A double forward-facing seat fitted with two three-point seat belts which easily converts into a transverse double bed by joining together the near side bench seat and the travelling seat.

Available on:

- ✓ Tracker RS (3650kg only)
- ✓ Tracker FB (3650kg only)
- ✓ Tracker RB
- ✓ Apache 632 (3650kg only)
- ✓ Mohawk
- ✓ Cherokee
- ✓ Savannah
- ✓ Dakota
- ✓ Delaware

OPTION
B

Double Dinette (DD)

A double forward-facing and rear facing seat can be fitted. The forward facing seat is fitted with two three-point seat belts. The rear facing seat can be specified with 2 x rear facing belts as a cost option.

Available on:

- ✓ Comanche
- ✓ Chieftain
- ✓ Arapaho

Fitted as standard on:

- ✓ Apache 700
- ✓ Scout

Please note:

- All seat belt variations are available as a cost option. Please refer to the Technical Specification pages for further information and compatibility.
 - When adding seatbelt variations the vehicles payload will be reduced.
- For more information please visit the website: www.auto-trail.co.uk

OPTION
C

Lounge Dinette (LD)

During the day this layout offers a full L-shaped lounge dinette which quickly converts into a travelling seat fitted with two three-point seat belts by removing the centre cushion.

Available on:

- ✓ Apache 700
- ✓ Scout
- ✓ Comanche
- ✓ Chieftain

Fitted as standard on:

- ✓ Arapaho

BEFORE YOU CHOOSE YOUR NEXT MOTORHOME THINK....

Think – Choice

- ✓ **17 popular layouts**
Ranging from 6.10 metres to 8.73 metres in length.
- ✓ **Three distinct exterior profiles each featuring 'Skyline'**
Hi-Line – providing an overcab double bed, Lo-Line – a lower exterior profile with storage areas above the cab and Super Lo-Line – sleek stylish roof line all incorporating a large panoramic sunroof.
(Super Lo-Line and Lo-Line not available on Apache 634).
- ✓ **Euro 5 engines**
Choose from the very latest fuel efficient, cleaner and environmentally friendly Euro 5 engines, 130bhp, 150bhp and 180bhp – manual gearbox is standard, Fiat 'Comfortmatic' 6 speed auto available on all three engines.
- ✓ **Selection of layouts**
Choose from a selection of lounge layouts for the majority of vehicles available with alternate lounge arrangements which incorporate three point seat belts.

Think – Style

- ✓ **Factory fitted 'lifestyle' packs**
Compliment your new vehicle by having a factory fitted 'lifestyle' pack, check out the amazing optional Sport Line, Media and Media Plus packs. Pack specifications include Carbon Black Metallic cabs, touch screen double din radio/DVD, integrated western European satellite navigation system, Bluetooth connectivity, SD card reader and MP3 input, colour infra red reversing camera, fitted TV monitor and remotely controlled 'Dome' satellite TV system.
- ✓ **Soft furnishing options**
Personalise your new motorhome by choosing optional soft furnishing colour schemes, plus the ultimate in luxury - leather covered settees and cab seats available on a selection of models.
- ✓ **3.5 Tonne weight limits**
6 motorhomes available at 3.5 tonne
16 motorhomes available over 3.5 tonne

Think – Reputation

- ✓ **Members of the Trigano Group**
Auto-Trail are members of the famous Trigano Group of Companies, regarded by many as Europe's leading leisure company.
- ✓ **Luxury leisure vehicles**
For over 30 years, Auto-Trail has been designing, developing and producing luxury leisure vehicles which provide the very highest levels of comfort and convenience.
- ✓ **Previously owned motorhomes**
Previously owned Auto-Trail Motorhomes are renowned for being highly desirable and for retaining high residual values.
- ✓ **Award winners**
Throughout the years our motorhomes have received much praise and admiration and as a company we have regularly been winners of many top industry awards, not only recognising achievements in the designs of kitchens, washrooms, electronics etc, but Auto-Trail is also proud to have been winners of the overall 'Motorhome of the Year' Award.
- ✓ **ISO 9001 registered company**
- ✓ **Factory backed Insurance NCC Approved accident repair centre**

Think – Safety

- ✓ **European Standards/Directives**
All our motorhomes comply with EC Whole Vehicle Type Approval and comply to all relevant European Standards.
- ✓ **All vehicles are fitted with fire retardant upholstery fabrics**
- ✓ **All vehicles are supplied and fitted with an approved fire extinguisher**
- ✓ **All vehicles are fitted with a smoke detector**
- ✓ **All vehicles are fitted with a carbon monoxide detector**
- ✓ **All vehicles have driver and passenger airbags**
- ✓ **All vehicles have ABS braking systems**
- ✓ **Flame failure facility**
All gas appliances have isolation taps and flame failure facility (FFD) should the gas extinguish, the gas supply is automatically cut off.

Think – Special features

- ✓ **Damage resistant exterior side walls and roofs**
High gloss, damage resistant GRP exterior side walls and roofs for long lasting appearance, strength and durability.
- ✓ **Laminated under floor vinyl protective barrier**
- ✓ **Features as standard**
Cab Air Conditioning, Cruise Control, Driver and Passenger Air Bags, day time running lights (low level on Sportline) are all standard features with all 2013 models.
- ✓ **All the internal furniture is designed using proven construction techniques**
- ✓ **Weather shelter**
Integrated wind out awning perfect for providing shade on those sunny days, but equally ideal for sheltering should it rain.
- ✓ **Luxury facilities**
Fully equipped en-suite facilities with large luxury LED illuminated mirrors and fully enclosed shower cubicles.
- ✓ **Warranty & Guarantee**
A 10 year Body Integrity Warranty, in addition to a comprehensive 3 year guarantee.

Think – Comfort & Convenience

- ✓ **Thermal Insulation and Heating Grade 3 classification**
Enjoy using your new Motorhome during all seasons, Spring, Summer, Autumn & Winter, all 2013 models meet the EN 1645-1 Thermal Insulation and Heating Grade 3 classification.
- ✓ **Large fresh and waste water tank capacities**
- ✓ **Insulation**
Fully insulated with high density wall, floor and roof insulation – warm in winter, cool in summer.
- ✓ **'Heavy Domestic' removable carpets**
- ✓ **Dimmer switch controlled low energy LED mood lighting**
- ✓ **Large gas bottle storage compartments**

AUTO-TRAIL AFTER-SALES SUPPORT

“Quality customer service”

AUTO-TRAIL ACCIDENT REPAIR CENTRE

Your Auto-Trail motorhome was built by technicians to the highest standards.

Our dedicated accident repair centre and NCC approved workshop is fully equipped to deal with any major repairs or technical issues with the interior or exterior of your vehicle.

Highly-skilled and experienced, our team of Auto-Trail technicians are ready to get your vehicle back on the road.

Remember, it is important your motorhome has an habitation service every year to ensure everything is being maintained in accordance with the manufacturer's recommendations and that all warranty conditions are being adhered to.

This service inspects the vehicle's fixtures and fittings, with particular attention being paid to your gas appliances and electrical systems.

- ✓ Annual habitation service
- ✓ Major accident damage and repair work
- ✓ Fibreglass damage repairs and full panel replacement
- ✓ Approved by all leading motorhome insurance companies

Contact us to arrange a time for your vehicle to be attended to. Call now on 01472 571000
Monday to Thursday 8.15am - 5pm Friday 8am - 1pm

OWNERS' CLUB 12 MONTHS' FREE...

Purchasers of a new Auto-Trail motorhome can enjoy up to 12 months' free membership of ATOC. Simply visit www.auto-trail.co.uk and download the application form and enrol now.

The Auto-Trail Owners' Club has been in existence since 1993 and some members have been with ATOC from the beginning.

All Auto-Trail owners can apply for membership of the club. Whether your motorhome is brand new or a much-loved elderly model, you will be assured of a friendly welcome.

This year ATOC are holding over 60 rallies, including the very popular Auto-Trail Factory Rally, which was attended last year by over 170 motorhomes. It is an excellent chance to pick up accessories, see how the motorhomes are made and enjoy the hospitality, which usually includes entertainment, a tombola and a superb hog roast.

The club also rallies at most of the shows run by Stone Leisure (MHM) and the Warners Group (MMM).

If you have never rallied with an Owners Club before, why not come along to one and see for yourself what a marvellous time we have? ATOC members have made many long-lasting friendships over the years.

ATOC BENEFITS

- ✓ Purchasers of brand new Auto-Trail motorhomes are sent an invitation to take advantage of up to 12 months' free membership, subsidised by Auto-Trail, until the end of the calendar year. (Offer not applicable to existing ATOC members).
- ✓ Owners of not-so-new Auto-Trails can download an application form from our website - www.atoc.info (click on Membership) and return it to the Secretary with the appropriate payment. Please visit 'www.atoc.info' for fees and further information.
- ✓ All new members receive membership cards, a Rally Programme booklet, a windscreen sticker and the latest issue of the magazine.
- ✓ Members can obtain discounted motorhome insurance from several dedicated motorhome insurers and discounts on accessories from many authorised Auto-Trail dealers and other suppliers.

“ For more information on ATOC visit www.atoc.info ”

AUTO-TRAIL QUALITY DETAILING

“It’s the small details which make a big difference”

A

Warm as toast

All Auto-Trail motorhomes have 40mm of insulation in the sidewalls and 45mm of insulation in the roof and floor for superb thermal performance in winter and summer. (grade 3)

B

Designer fabrics

Stylish alternative fabrics can be specified including leather on certain models.

Industry leading floor and wall insulation

Cushioned vinyl flooring

All road facing floor areas incorporate a vinyl protected surface

C

Create the mood

Our energy-efficient LED lighting is also dimmable – perfect for cosy evenings in front of a classic movie.

D

Light fantastic

Energy-efficient LED lighting is standard throughout all ranges and can be easily used with a solar panel for increased self-sufficiency.

E

Quality materials

Carpets, curtains, upholstery and flooring are of the highest quality.

F

Culinary masterpiece

Stylish granite effect work surfaces and domestic-quality appliances make on-board dining a pure pleasure.

G

Stylish Furniture

Our cabinetry has a luxury feel and is finished to the highest standards.

H

Exterior BBQ point exterior shower point

Standard features within all 2013 models.

I

Spare Wheel

All Auto-Trail models come with a spare wheel conveniently housed on the distinctive rear panel.

AUTO TRAIL

FIAT DUCATO

CHASSIS

Fiat Ducato Chassis

The chassis was specially developed to meet the exacting needs of motorhome manufacturers with a number of special features engineered in following extensive consultations with Europe's biggest converters.

The result of this collaboration is a dedicated 'Camper' chassis which has a wider track and lower ground clearance with additional stiffness and a special suspension set-up.

On the road, this translates into reassuringly sure-footed handling, a refined ride, and an extremely car-like driving experience.

MULTIJET AT A GLANCE

The 130 Multijet has been specifically designed for exclusive use on motorhomes. As well as the standard 6-speed manual transmissions, the Multijet 160 engine is also available with Fiat's 'Comfortmatic' automatic gearbox.

DETAILS	MULTIJET 130	MULTIJET 150	MULTIJET 180
Engine Size:	2287cc	2287cc	2999cc
Max Power Output:	130 bhp @ 3600rpm	148 bhp @ 3600rpm	177 bhp @ 3500rpm
Peak Torque:	320 Nm @ 1800rpm	350 Nm @ 1500rpm	400 Nm @ 1400rpm
Gearbox:	6-speed	6-speed	6-speed
Euro 5:	Compliant	Compliant	Compliant
'Comfortmatic' Auto Gearbox:	Cost Option (see price list for details)	Cost Option (see price list for details)	Cost Option (see price list for details)

Chassis shown is for illustration purposes only.

Variable geometry turbocharger, available on 150 Multijet and 180 Multijet Power engines.

Fitted with twin Fiat type-approved pivoting seat bases.

A choice of three clean, smooth and frugal multijet engines: 130, 148 and 177 bhp.

Wider track and lower ground clearance improves ride, handling and stability.

AUTO-TRAIL BODYSTYLE PROFILES

“Choose the best bodystyle to suit your needs - at no extra cost.”

Our aim is to offer a full range of luxury motorhomes, which perfectly cater for everyone's needs, requirements and lifestyles. For 2013, the Tracker, Apache and Frontier models can be ordered in one of three distinctive bodystyles – Hi-Line, Lo-Line or Super Lo-Line; each featuring the new 'Skyline' sunroof as standard. Which of these three variants will best suit your lifestyle? Choose from our industry leading designs - the choice is yours.

Super Lo-Line

The Super Lo-Line is an outstanding example of modern motorhome design with sleek exterior styling providing an aerodynamic shape and incorporates a large panoramic 'Skyline' sunroof. Inside, the living area obtains maximum benefit from the extra natural light. (Not available on Apache 634).

Lo-Line

Ideal for customers who prefer additional storage facilities, in lieu of an overcab sleeping area. Externally, the roof shape incorporates the same sweeping lines as the Super Lo-Line. However mounting the roof slightly further forward, has allowed our design team to incorporate a series of integrated storage areas on the interior. (Not available on Apache 634).

Hi-Line

The Hi-Line variant also features the new 'Skyline' sunroof, which has become a trademark of Auto-Trail. The overcab area has been designed to accommodate a large double bed. Every area of space has been fully utilised to provide a large and comfortable sleeping area. During the day, this sleeping area can be left undisturbed, or the large double bed can quickly slide away, enabling you to take full advantage of all the space.

SOFT FURNISHINGS

Tilford, Abbeywell and Farnworth are the standard upholstery schemes for 2013.
As a cost option the Livingston leather scheme below can be chosen for any fixed bed model.

LIVINGSTON LEATHER

Cost option for fixed bed models only.

ALL MODELS

Fitted with bound edge loose laid carpets and hardwearing vinyl cushioned flooring.

TRACKER Tilford Upholstery Range (Standard)

APACHE Abbeywell Upholstery Range (Standard)

FRONTIER Farnworth Upholstery Range (Standard)

MOTORHOME WEIGHTS EXPLAINED

“Helping you understand how weights are calculated...”

It is particularly important that all motorhome customers understand how weights are calculated and how certain weight allowances can change, whilst other weights are fixed.

A. Maximum Authorised Weight

The Maximum Authorised Weight (MAW) is exactly what it says, this weight is fixed and is a total weight of the vehicle when fully loaded, it is a weight which should not be exceeded. The vehicle is designed to operate perfectly safely at the MAW, however exceeding this weight may lead to prosecution and your insurance cover being void.

B. Mass in Running Order

The mass in running order (MRO) is the unladen weight of a standard vehicle, but this advertised weight includes 75kg for a driver and the weight for the diesel assuming the tank is 90% full and also the weight of the fresh water in the fresh water tank assuming it is 90% full, it also includes a weight for two gas bottles and the weight of the gas should it be 90% full.

The difference between A and B...

The difference between A and B is the weight available to you, for the carrying of passengers, personal belongings and the fitting off any optional extras.

Only by consciously reducing the amount of water, fuel and gas carried, can you reduce the MRO and therefore have more load allowance available to carry extra personal belongings or choose to have additional optional equipment fitted.

(The weight guide of liquids – 1 litre of liquid = 1 kg)

Estimate your weights with our on-line weight calculator, visit www.auto-trail.co.uk

Mass in running order (MRO)

Your MRO can be reduced if you choose to drive with reduced volumes of diesel, fresh water or gas. 1 litre of fluid = 1kg

Advice - To double check that you do not accidentally exceed the MAW, why not visit a public weighbridge.

SPECIFICATION AND UPGRADES

Designed with you in mind

Our Technical Specification has been carefully designed to assist you the customer to compare features and benefits of the 'next generation' of Auto-Trail motorhomes. The following pages contain everything that a modern day motorhome purchaser requires to make an informed decision when buying.

Apache 632, Mohawk and Chieftain Storage Area Dimensions

Apache 632 Storage Area Size

Length: 2170mm, Width (max): 950mm, Height: 870mm
Door Apertures: Nearside Width: 750mm, Height: 600mm
Offside Width: 450mm, Height 750mm

Mohawk Storage Area Size

Length: 2170mm, Width (max): 1380mm, Height: 939mm
Door Apertures: Width: 750mm, Height: 850mm

Chieftain Storage Area Size

Length: 2170mm, Width (max): 1380mm, Height: 939mm
Door Apertures: Width: 750mm, Height: 850mm

Maximum Available Weights in Storage Area

Apache 632: 100kg, Mohawk: 150kg, Chieftain: 250kg.

Cost option: Raised rear bed with 2 x large G doors, 1 nearside, 1 offside. Only nearside door changes on 632 model.

(Please refer to options list at www.auto-trail.co.uk/index.php/downloads)

Note: Internal storage height increases by 250mm on Mohawk and Chieftain. Apache 632 internal storage height increases by 310mm. Large garage door clear opening width: 750mm, Height: 1100mm.

Note on Measurements and Lengths:

All dimensions and masses are calculated to the Masses and Directive 91/22 EEC

Note on Mass in Running Order: The mass in running order is the mass of the unladen vehicle with a 75kg allowance for a driver, 90% of the fuel and fresh water capacity and gas cylinders. OPTIONS: Some options may be limited depending on the engine selected. For more information use the Auto-Trail on-line weight calculator, visit www.auto-trail.co.uk click on your desired motorhome and click on weight calculator.

Important:

When using your vehicle or adding extra equipment, it is important that individual axle loading weights or the Maximum Authorised Weight is not exceeded. This would not only automatically invalidate any warranties, but it could also affect your safety and the handling of the vehicle. An overloaded vehicle could lead to prosecution. If you are unclear or need any further guidance as to any of the technical aspects in the operation and driving of your new Auto-Trail motorhome, please consult your supplying dealer prior to driving your vehicle on the public highway.

Fiat Camper Assistance

Dedicated call centre for motorhome owners

Fiat has established a dedicated call centre just for motorhome owners. Just call **00800 3428 1111** from a landline or **0800 3428 1111** from a mobile and a knowledgeable English-speaking operator will give you extensive information on the products and the services offered, and will transfer your call to a specialist technician or to Fiat Camper Assistance, the on-road support team specially set up to help drivers of Fiat-based motorhomes.

Fiat has a European network of more than 6,500 Fiat Ducato service centres, where you will find fully equipped workshops, specialist personnel and all the parts you could need for your motorhome.

Fiat has also established more than 1,700 specialist centres where motorhome drivers are always welcome: Fiat Camper Assistance workshops all have the capacity, lifts and parking areas suitable for your vehicle.

Alternatively dial: **00 39 02 4441 2160** from any European country, seven days a week, 24 hours a day, to get immediate help. Specialists will assist you in the event of an accident, a breakdown, running out of fuel, loss of keys, theft, etc.

While your motorhome is repaired, you can benefit from a replacement vehicle of suitable size and hotel accommodation. To enable you to resume your journey as soon as possible, the Fiat Camper Assistance call centre remains in direct contact with you and the workshop that is repairing your vehicle. Fiat will also help them order the part needed to ensure your vehicle is repaired as quickly as possible so you can resume your trip as soon as possible.

If you are calling from a UK mobile in UK you must delete the first 0 - ie dial **0800 3428 1111**

If you are calling from a UK landline in UK then you must dial **00800 3428 1111**

If you are calling from a UK mobile in Europe then dial **00800 3428 1111**
