

Sterling 2000.

**The Hallmark of
Excellence.**

**Europa, Eccles and Eccles Elite -
three exclusive ranges from Sterling.**

A history of innovation. A world of luxury

The selection of a new tourer is important. This brochure will provide you with an insight into the Sterling Tourer range and, with the help of your dealer, enable you to select the right tourer; with complete confidence.

Sterling Caravans is the name behind a range of tourers whose history can be traced back over 80 years to the earliest days of British caravanning.

All Sterling tourers are the result of innovation and a careful blend of advanced technology and traditional build skills. This has resulted in an enviable collection of design awards. To take you into the next millennium, Sterling brings you a choice of 3 ranges that provides you with a wide range of individual styles.

Europa, offering outstanding choice and value for a modern family on the move; Eccles, the celebrated tourer with 80 years of history; and Eccles Elite, the expanding range of definitive twin axle tourers.

Safety is an important issue. Sterling guarantees it through an ultra modern manufacturing plant that incorporates rigorous quality systems. These have gained the company ISO 9001 and ensure that all models comply with European standards. Before even the first prototype is built, state-of-the-art computer-aided design allows three-dimensional models to be checked for optimum weight distribution and aerodynamics, which are crucial for safe towing.

Quality is assured, with most components manufactured in our own factory, including the Glass Reinforced Plastic used for the tough and stylish front and rear panels. This affords Sterling high levels of quality control that is the envy of the competition.

Buying a Sterling gives you more than just a tourer; it also provides you with a market leading Supercare aftersales service and 3 year SuperSure warranty, that are designed to make the ownership of your tourer enjoyable and trouble-free.
