Winner 2005 Caravan Industry Award for advancement in Motorhome Security

Britain's most popular range of luxury motorhomes

By combining an outstanding design department, quality materials and advanced technology with traditional craftsmanship developed over 24 years of motorhome production, the result is a range of motorhomes which provides customers with the very best in modern design, comfort and value for money.

It is clear to see that Auto-Trail is a company that listens hard to its customers, knowing customer feedback is the most important ingredient of any successful business. Therefore, from the initial design and planning, to the final touches, we always keep in mind the practical priorities of the people who enjoy using our luxury leisure homes.

In recent years, Auto-Trail has achieved an unrivalled track record of sensational growth and enjoys an ever increasing share of the UK motorhome market. This has been created by continuing to innovate and constantly focusing on new concepts and trends.

Whilst our design and engineering team work to expand the expectations of our customers, the important issue of safety is also addressed. Each and every Auto-Trail Luxury Leisure vehicle is fully compliant with Quality Standard ISO 9002 and the latest European standards governing motorhome construction and use.

We believe in building motorhomes which 'mirror' many of the 'domestic' comforts, features and fittings found in your own home.

- **Heavy duty construction with all-round cavity wall, floor and roof insulation (e.g.: total wall thickness 40mm).**
- **Luxury upholstery schemes with additional scatter cushions and wall to wall fitted carpets.**
- **Full Central Heating systems powered by gas or electric.**
- **Fully equipped en-suite washrooms with electric flush toilets and shower facilities/cubicles.**
- **Hot & Cold water systems, most of which are powered by gas or electric.**
- **Double glazed windows and large panoramic roof lights with night blinds and integral flyscreens.**
- **Internal 'aircraft style' lighting systems, many with additional dimmer controlled mains electric lighting.**
- **Fully equipped kitchens with full cookers, gas/electric hobs and refrigerators with freezer compartments.**
- **Multi directional TV aerials.**
- **Exterior gas BBQ points and hot & cold showers.**

Our expertise is simply motorhome vehicle design and manufacturing, we do not have a caravan division. Therefore all our resources and passion are energised in designing and producing an exclusive range of luxury homes. To achieve this task, where possible, our design team constantly source 'domestic' items and therefore are not tempted to use lighter weight alternative components which are commonly found in budget motorhomes or caravans.

Luxury and comfort becomes standard features with all our models

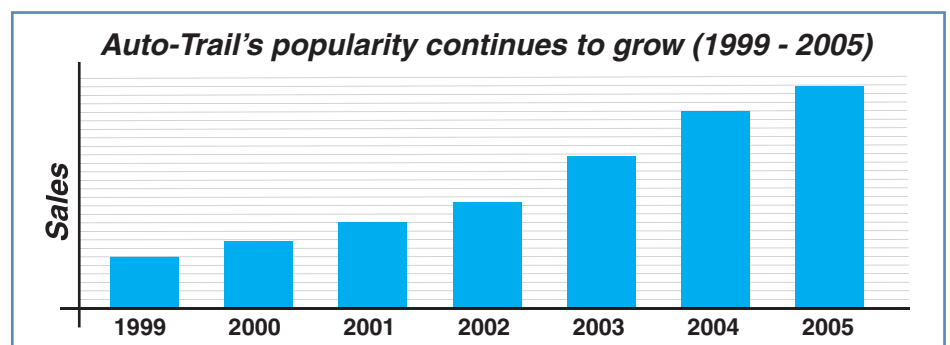

This brochure is intended to give you an insight into the world of Auto-Trail. Take time to compare the comprehensive specifications, features and layouts on pages 34 to 39. However this information is no substitute for visiting one of our approved regional stockists who will be pleased to explain and demonstrate why Auto-Trail is regarded as 1st for choice and sets benchmark values in the UK.

- **1st to offer the now industry famous 'SE' packs, which provides thousands of pounds worth of extra features from as little as £799. All the latest 'SE' packs now include smartnav, the intelligent satellite navigation, full details of this, plus the Trafficmaster and RAC Trackstar services, are available on page 4&5.**
- **Leaders by designing new ground-breaking layout solutions, (copied by many, but not always perfected!)**

- **1st to offer factory fitted awnings, recessed within the side of vehicles.**
- **Leaders by offering a choice of vehicles with 'fixed beds'.**
- **1st to offer a choice of 'G' models with large integrated storage areas.**
- **Leaders by offering many models with a series of multiple chassis/ engine choices from the popular Fiat and world famous Mercedes-Benz brands.**
- **1st to offer customers a choice of high line or low line model variations at no extra cost.**
- **Leaders by offering integrated technology, with the combination DVD player/Cd player/Colour TV/infra red reversing camera and 'Freeview' multi-channel TV/Radio receiver.**
- **1st to offer award winning high security entrance doors.**
- **Leading manufacturer of a range of 'twin axle' models.**

Today's Auto-Trail ranges provide the most highly specified leisure homes in every class.

"Only with Auto-Trail can you travel up to 365 days a year and never leave the comfort of your own home"

The new 2006

Auto-Trail SE Pack

has been further enhanced

The SE Pack

- Smart Nav Satellite Navigation 5.
- Flat Screen built in colour T.V. monitor 2.
- Colour infra-red reversing camera 1.
- DVD / MP3 Player 3.
- CD/Radio player 3.
- Multi channel TV/Radio receiver 3.
- Recessed Awning 4.
- Distinctive "SE" decals
- Special edition "Auto-Trail" umbrella 6.

The full 'SE' Pack is only

£799
inc. VAT

(£949 for all twin axle models)

Smartnav satellite navigation is installed as standard equipment within all 2006 Auto-Trail SE Packs. Owners are offered a choice of services and support to help make every journey as quick, easy and safe as possible.

The route is downloaded digitally to the fitted smartnav unit, which provides you with safe, clear, turn by turn, spoken instructions.

It's just like having your very own navigator - but without the arguments!

smartnav

More than just a navigation system

Factory tours

Have you ever wondered just what makes Auto-Trail motorhomes so special?

Now is your chance to visit the new Auto-Trail motorhome production plant. The two hour tour will enable you to see for yourself exactly how today's modern motorhome is produced. The production facility is situated just off the A180, at Europarc, a prestigious new business park on the outskirts of Grimsby, North East Lincolnshire. (DN37 9TU for route planning or satellite navigation users)

Tours take place monthly and numbers are limited, bookings are allocated on a first come first served basis. Sorry, but only visitors who have pre-booked will be eligible to tour the factory. Please also remember that these are manufacturing premises and therefore we have no additional display area where a selection of completed vehicles can be viewed. In an attempt to be fair to all concerned, one person will be allocated a maximum of 2 places per booking.

1. The tour will consist of seeing all aspects of our motorhome production methods. Starting with all the preparation work involving the Fiat or Mercedes-Benz chassis cab, you will then visit the department involved in manufacturing the floors and side walls, and tour the cabinet shop where all the furniture is produced.

2. Then you will see the area where the actual body conversions are pre-assembled in a most unique manner. The bodies are lifted by crane and carefully lowered onto an earlier pre-prepared chassis cab. Once this process is complete, you will follow the route of the free flow

production line and see the vehicles having rooves and back panels added and at this stage they become instantly more recognisable.

3. Finally, as you approach the end of the production line you will see all vehicles being involved in a series of inspections. These are carried out prior to the vehicle being shipped to a final area, where further pre-despatch checks are made. It is only when we are satisfied that all vehicles have completed the final checks, that they can be released and transported to our network of appointed dealers.

The Auto-Trail Owners Club

A special welcome to our 1000th visitors in 2005

Should you wish to attend one of these tours, simply telephone Auto-Trail, 01472 571000, and our operators will advise you if your preferred date is available. The phone lines for bookings will be open from January 3rd 2006. You will be asked your name and address and a contact phone number and issued with a confirmation number. Your phone number will only be used should we have to contact you due to unforeseen circumstances which have caused the tour to be cancelled.

Tracker

Your perfect travelling companion

If you have ever envied the new get-up-and-go freedom that the growing number of motor homers enjoy but have been constrained by space and budget, then the Tracker is the perfect answer.

You can park it almost anywhere and for many, it will even double as your

second vehicle for everyday use. Compact it may be, but from the moment you step inside you will be amazed by its most spacious and luxurious accommodation with its new 'Oxford' soft furnishing scheme and its hardwood surround Acer furniture doors.

Auto  **Trail**

WINNER

Best Coachbuilt Motorhome - Tracker EKS

Also Winner of 2005

Advance in Motorhome Security Award

Equally at home touring the UK or the continent, take it to the shops or a day at the races - the Tracker EKS fits all requirements.

This MMM award winning compact motorhome now comes with a choice of modern high output diesel engines and comes fully equipped with all the appointments of a luxury touring home, all this in only a little over 19' in length.

The new 2006 Tracker EKS is for those who like the space to stretch

out, two long settees provide a flexible choice between single beds or a king size double. The washroom is fully equipped and comes with a separate shower cubicle, whilst the kitchen is a chef's delight with its full cooker and a large refrigerator. Other luxury features include dimmer controlled mains lighting and a large overhead heki skylight. The Tracker EKS is the ultimate Multi-Purpose Vehicle, in the size and price of a camper.

Apache

Breaking new ground in value

640 Lo Line

670G

600

All four Apache models are built on the latest Fiat Ducato chassis for long life and predictable road holding. Powered by the new generation of 2.3 and 2.8 ltr high torque common rail diesel engines, the Ducato has car-like features which make driving a real pleasure.

Style is a special feature of this range, its stunning lines with aerodynamic curves and integrated roof bars puts the Apache range out in front and within reach of a new wave of motorhomers.

Innovation and practicality for today's lifestyle

These clean lines and the exciting continental influence provide an interior which is right at the heart of contemporary fashion; 'Regent' soft furnishings are complemented with concealed designer lighting, low level individual reading lights, fully fitted kitchens with flush fitting stainless steel sinks and drainers. En-suite toilet and

shower areas and curvaceous post formed furniture gives the Apache its distinctive identity.

In the Apache range of innovative layouts, you will discover all the high levels of comfort you would expect in 2006.

700

700

Auto  **Trail**

WINNER

2005 Caravan Industry
Award for advancement
in Motorhome Security

Apache 600. Gives space loving couple's two full length settees which at night convert easily into a choice of a king size double bed or two single beds. There's also another large double bed above the cab. The kitchen at the rear comes fully equipped and the latest washroom design features shower screens to make showering easy.

Apache 640. This acclaimed user-friendly design provides separate areas for relaxing and cooking plus a complete en-suite across the rear and for 2006 is now available in two

versions. The 640 hi-line provides a sleeping zone above the cab, whilst the 640 lo-line stays low, out of the wind, due to its lower style chassis. Each version has a separate shower, a superbly laid out kitchen, high level refrigerator and a dedicated TV locker with aerial. All in all, the 640 is truly self-contained touring – at a brilliant, down-to-earth price.

Apache 670G lo-line with its Maxi chassis (3850kg) is tailor-made for people who travel fully equipped. Storage is superb; under the permanent bed at the rear is a large

integral storage compartment ideal for cycles or a scooter, golf clubs, fishing rods or outdoor odds and ends, all of which may complement your motorhome lifestyle. Throughout all the Apache range are generous sized storage lockers and within the fully equipped kitchen of the 670G is a slide-out larder unit which also provides an additional working surface. A gem of a washroom includes a separate shower compartment. Up front is the spacious lounge, yet this new stylish 670G model measures, just 6.8 metres from bumper to bumper.

Apache 700 is one of Britain's most popular models. This 'family classic' features a dining area up front and at the rear a comfortable lounge with wrap-round seating. The well-lit centre washroom includes a separate shower compartment. With the double beds at both the front and rear, plus the roomy overcab bed, the 700 with its Maxi chassis (3850kg) sleeps up to six, so the kids can invite friends. The Apache 700 offers the very best in deluxe family touring at a very modest price.

Cheyenne

The leading edge in motorhome design

634U

660

Over recent years the award winning Cheyenne '6 series' has surged in popularity as shrewd buyers fully appreciate the vast choice of styles and layouts. With a choice of Fiat front wheel drive or Mercedes-Benz rear wheel drive base vehicles, all of which perfectly reflect the priorities and needs of today's motorhomers.

All Cheyenne models are available in hi-line (sleeping areas above the cab) or as lo-line, where the body shape of the vehicle is slightly lower and the range of hardwood furniture doors conceal additional storage facilities.

Style, comfort and convenience, realise your highest expectations

It's not only customers who are admirers of the Cheyenne range. Within a few weeks of its launch, a panel of leading motorhome and leisure journalists voted the new Cheyenne 8 series 'Motorhome of the Year-2005'. To receive this award was an honour because this is regarded by many, as the industry's most coveted and prestigious trophy.

A popular feature of all 9 Cheyenne layouts is that the lounge areas are very inviting and now with the introduction of 'Victoria' soft furnishing schemes and the use of bolster and scatter cushions; they are more comfortable than ever before. Additional comfort levels are achieved by specifying that all 2006 Auto-Trail upholstery schemes features Reflex foam. It's no wonder that our lounges become a truly wonderful space to relax and unwind, giving you that 'Ah, its great to be home' feeling.

Auto  **Trail**

WINNER
2005 "Motorhome of the Year"
Caravan Industry Award
Cheyenne 840

696G

696

Cheyenne 630LB the classic award winning 'end kitchen' design that gives owners space for entertaining and long settees that provide a choice of two singles or a king size double bed.

Cheyenne 632 is the rear fixed bed model that keeps ferry costs down. Measuring just 6.5 metres in length, the 632 still provides a full-sized double bed with a separate shower to complete the washroom.

Cheyenne 634L the expanse of the rear L-shaped lounge allows legs to stretch at ease. The washroom

design includes a walk-in shower compartment.

Cheyenne 634U, sister to the 634L, but with a wrap-around rear lounge that is great for entertaining - and long enough for use as single beds or a king size double. A practical split kitchen enhances the open feel and lasting appeal of this popular design.

Cheyenne 635 brilliant for couples who travel self-contained. The 635 provides distinct areas for lounging, cooking and showering, with a full en-suite showering and dressing area across the rear. High spec

storage also includes an outside 'ski' locker for larger items.

Cheyenne 660 our no-compromise fixed bed model leads the pack. Generous forward seating creates a luxurious forward lounge and there is a fully - equipped designer kitchen with a high level refrigerator and lots of storage, in addition to a master bedroom to revel in.

Cheyenne 696G a brilliant family vehicle which comes with a permanent rear bed over a large integral storage area which will keep

632

Auto Trail

635

all your personal leisure equipment stored away out of site and safe and sound. The forward lounge is ideal for entertaining yet quickly converts to a double bed when needed. In the centre area of the motorhome is the fully fitted washroom, again with the all important separate shower cubicle.

New Cheyenne 696 a much request new layout has been introduced for the 2006 season, identical to the G version in many ways, but the rear

permanent double bed is much lower and therefore naturally storage space below is reduced.

Cheyenne 840 a relatively new addition to the Cheyenne range and becomes the first Cheyenne with an Alko twin-axle chassis. As a lo-line version it provides sleeping for four, whilst the hi-line variant provides a further large double bed above the cab area. Around the centre of the motorhome is the kitchen area with a high level refrigerator whilst towards

the rear of the 840, twin deluxe single beds complement another star feature, the fully fitted en-suite washroom.

This imposing long-distance touring apartment is truly a home from home.

632

660

Frontier

Grand touring luxury with
engineering excellence

Chieftain Lo Line

Arapaho Hi Line

When you can choose a motorhome without compromise, discover the Frontier models from Auto-Trail. Here you will find the luxury motorhome to fulfil your highest aspirations - a unique range of chassis and bodywork styling continues to give you more choice than any other manufacturer. Few motorhomes have the presence on the highway of these exclusive models - or invoke the same admiration on the rally field.

Distinctive and beautifully engineered Frontier motorhomes lift luxury to a completely new level

Internally, luxury is also matched by practicality at every turn. Joiner-made cabinet work with hardwood surround furniture doors complement the 'Grosvenor' soft furnishings to create an atmosphere with a tangible air of exclusivity.

When you've earned the right to choose the ultimate in modern motorhomes, you will find the model of your dreams within the Frontier range.

We strongly believe that few, if any, rival motorhomes can claim the stature in the eyes of the motorhome public of the Auto-Trail Frontier models. None combine the level of grand-touring luxury with engineering excellence that are the hallmark of this premium range.

Auto Trail

Mercedes Benz Driving Area

Chieftain

Mohican

Mohican

Dakota luxury cruiser with a beautifully appointed master bedroom to the rear and up front is a friendly, sociable lounge behind the cab formed by inward-facing seats. The permanent double bed is ever-ready alongside a fully fitted washroom with a separate shower cubicle.

Mohican this award winning end washroom design, by which others are judged, the Mohican's layout of spacious rear dressing room, the large fully equipped central kitchen with a high level refrigerator and

roomy forward lounge makes it an enduring favourite.

Scout with its forward dining room next to the kitchen and with the wrap-round rear lounge, the every popular Scout is a true classic and can sleep up to six. Its appeal is equal for family groups or couples who like to spread themselves.

Arapaho six-wheeled elegance and appointments of the highest quality make this bigger version of the Scout layout a family grand tourer. There is greater space all round, and for

2005, deep storage access at the rear means that you never have to leave things behind.

Chieftain is the largest of our permanent bed models. The Chieftain includes a private master bedroom across the rear while retaining a lounge large enough for entertaining. You will never run out of space or storage in this majestic motorhome.

Chieftain G shares its principal features with the standard Chieftain. The 'G' version features the benefit of

Wind up panoramic roof light with pleated night blind

Arapaho

Scout

Scout

a capacious integral storage area. Situated under the main permanent rear double bed, this space is perfect for the storage of all the leisure items which complement your lifestyle. Whether it be cycles or a scooter, fishing rods, golf clubs, windbreaks, sun lounger or surfboards all are kept clean, dry, safe, secure and away from prying eyes.

Motorhomes jargon...explained!

When choosing your new Auto-Trail motorhome, it should be a very exciting and pleasurable experience. It is also important that you are familiar with a selection of technical descriptions or facilities which are featured within motorhomes. Listed below is a glossary of terms, which may prove of assistance when selecting your new Auto-Trail Luxury Motorhome.

ABS Braking

ABS braking is a standard feature on all Auto-Trail twin axle models and is available as an optional cost extra on Mercedes-Benz vehicles.

A. Class

The name of a type of motorhome where both the cab and habitation area are integrated.

Al-ko

All Auto-Trail motorhomes which incorporate the Alko conversion are designed to provide more utilisation of under floor storage areas. This galvanised chassis has been developed especially for motorhomes and provides a lower than normal centre of gravity, maximum width track and with a longer than normal wheel base.

Alarm (security)

Alarms are supplied and fitted by our dealership or regional specialists.

Alarm (fire)

Smoke alarms are supplied and fitted as standard.

'Aircraft' Type Lighting

This type of 12v lighting is virtually hidden above a selection of the top cupboards and illuminates the ceiling to give an effect similar to that within a modern aircraft.

Awning (recessed)

All our factory fitted awnings are recessed into the nearside wall of the motorhome. Some customers complement the awning by purchasing a safari room from their supplying dealer. A safari room provides front and sidewalls, which are attached to the awning, to give a fully enclosed 'conservatory'. Note: due to design limitations, occasionally safari rooms may inhibit the opening of certain exterior lockers and windows.

Awning Light

A 12v exterior light operated from a switch inside the motorhome.

Axle Loading

The maximum weight permitted on the front or rear axles.

Base Vehicle

The base vehicle is the light commercial vehicle which is purchased by Auto-Trail; it is the 'foundations' of your new motorhome.

Bike (Cycle) Racks

Cycle racks can be fitted to all our vehicles.

Cassette Toilet

A modern toilet designed for leisure vehicles which incorporates an electric flushing system and removable cassette to dispose of waste.

Camping Car Suspension

Is a specific addition to the normal vehicles suspension. This includes uprated tyres and springs,

Coachbuilt

A coachbuilt vehicle is where the original manufacturer's base vehicle, Fiat and/or Mercedes cab is used and a habitation area is added.

Combi Heater/Boiler

Is a combined unit which provides hot water and is the basis of the blown air central heating.

Converter

The converter is the motorhome manufacturer.

Corner Steadies

Wind-down legs which are fitted to the rear of the larger motorhomes providing additional stability when on site.

Double Floor Areas

The design allows water tanks, plumbing etc, to be fitted between the floor areas. Double floors also provide through storage areas.

Dual Fuel Appliances

This is where more than one power/energy source is provided for an appliance. e.g 230v and gas.

Essential Habitation

Items and fluids required for the safe operation of the habitation equipment inside the vehicle.

Fresh Water Tank

Tank for the storage of fresh water. Remember water weighs approx 1 kg per litre or 4.5 kg per gallon.

Front Wheel Drive - Fiat

A front wheel drive vehicle has the power from the engine transmitted direct to the front wheels.

'G' Models

These models incorporate a large integral storage area suitable for large leisure items. Max carrying capacity Cheyenne 696=125kg, Chieftain=200kg. 'G' door aperture w=745mm h=1094mm

Gas Cylinders

A portable, pressurised container for the storage of LPG (Liquid Petroleum Gas)

Gas Cylinder Locker

The area where your gas cylinders are stored.

GRP

Glass Reinforced Plastic. This material is used to create some of the streamline shapes on our latest vehicles.

Habitation Area

Simply the living area of the motorhome.

Hi-line

A hi-line is a vehicle where the internal overcab area is designed to incorporate a double bed.

Hook Up Cable

A mains electric cable which allows you to connect your motorhome to a designated mains electric supply.

Immobiliser

A security device which is built into our base vehicles. It is not to be confused with an alarm.

Leisure Battery

A 12v battery, which provides power to the 12v, lights, pumps etc within the motorhome.

Lo-line

A lo-line version of our motorhomes has cupboards fitted in the area above the cab.

Luton Area

The sleeping area above a cab found in all hi-line versions.

Maxi Chassis

A Maxi chassis is a heavy duty chassis. It will have a higher than normal Gross Vehicle Weight and be fitted with higher rated tyres and/or springs.

Maximum Authorised Weight (M.A.W)

This may also be referred to as the Gross Vehicle Weight. M.A.W is the total maximum permitted weight of your motorhome.

Maximum Payload

The weight difference between the MAW and the Mass in Running Order. If you choose to add optional equipment to the standard vehicle, the weight of this optional equipment needs to be taken off the published Maximum Payload.

Mass in Running Order (MRO)

The weight of the vehicle in 'running order'. This figure includes engine coolant, oils, spare wheel, tool kit, 90% fuel, and a 75 kg allowance for a driver.

Motorcycle/Scooter

It is important to ensure that when fitting these items you do not overload the rear axle weight limits.

Optional Equipment

All optional extra equipment is to be fitted in accordance with the manufacturer's recommendations and approval. It is important not to invalidate any warranty.

Polyplastic

This is the brand of window which is fitted to the Tracker, Apache & Cheyenne ranges.

RCD unit

Residual Current Device. This safety device protects you against any potential 230v electric shock.

Rear Overhang

The rear overhang is the distance from the centre of the rear wheel (or in the case of tag axle models the centre of the two rear wheels) to the rear of the vehicle.

Rear Wheel Drive - Mercedes Benz

This is where the power from the engine is driving the rear wheels of the base vehicle.

Regulator

Regulators are fitted to all gas bottle storage areas. The regulator controls the pressure of the gas from the cylinders to the gas appliances.

Reversing Cameras

Allows an image from the rear of the vehicle to be displayed on the flip down monitor within the cab.

Safari Room

See Awning

Seitz

This is the brand of windows fitted to the Frontier models.

Seat-belts

When seat-belts are described within our literature we refer to fully approved 3-point forward facing seat-belts. We are unable to provide lap-belts.

Smartnav

An intelligent Satellite navigation system fitted as standard to all vehicles with SE Packs.

Sprintshift

A 6-speed sequential change gearbox, exclusive to Mercedes Benz vehicles, where the gears can either be changed manually from the dashboard mounted gearshift (no clutch pedal) or the gearshift can be left in the automatic mode.

Tag Axle

This is a vehicle with twin rear axles; it allows more weight to be carried safely.

Towbars

Most motorhomes are designed to be tow-bar friendly. For maximum towing limits please refer to your handbook and towbar supplier.

Track

The distance between the wheels on the same axle line.

Truma

Truma are the leading manufacturers of gas heating systems and gas hot water boilers.

TV/DVD Monitors

Safety message: IT IS NOT ONLY ILLEGAL, BUT ALSO HIGHLY DANGEROUS FOR THE TV/DVD MONITOR TO BE POSITIONED WHERE IT CAN BE VIEWED BY THE DRIVER WHEN THE VEHICLE IS IN MOTION. PLEASE ENSURE YOU OPERATE WITHIN THE LAW AND IMPORTANTLY DO NOT RISK OR HARM THE SAFETY OF YOURSELF, YOUR PASSENGERS AND/OR OTHER ROAD USERS.

Unladen Mass

See Mass in Running Order (MRO)

Ventilation Boards

These are fitted behind the backrests in the lounges of some Cheyenne and Frontier models. They allow more air to circulate within the under seat storage areas. They also act as a 'bed-head' or wall protector, when the lounge is converted to a bed.

VIN Number

The Vehicle Identification Number (VIN) is a unique worldwide identification/code number, which is allocated to the base vehicle. The actual chassis number is incorporated within.

Wheelbase

The distance between the centre of the front wheels and the centre of the rear wheel.

Waste Water

The waste water which comes from the kitchen sink, bathroom basin and shower area.

The above information contains a general introduction to the world of Auto-Trail motorhomes. It is not a substitute for the information contained in the operating manuals or the valuable knowledge your Auto-Trail dealer can provide.

Should you need further clarification on the benefits of owning and using a new Auto-Trail motorhome, please consult your approved Auto-Trail stockist who will be very pleased to assist you further.

Driving a modern motorhome is not a difficult experience and before you leave the dealers premises and use your vehicle for the first time, your dealer will freely demonstrate the operation and features within your vehicle. Once you are fully conversant with all aspects of driving and operating the vehicle, you can then start your new journey of adventure.

For more information on models in the brochure please see our website @

www.auto-trail.co.uk

The website is provided to help visitors learn more about the world of Auto-Trail and learn more additional facts and information.

- Company history
- The Trigano Group of Companies
- Frequently asked questions with answers
- Product information covering the 2003, 2004 and 2005 season ranges.
- Nationwide list of fully Approved Auto-Trail dealers

Sales, Service and Customer satisfaction are all important factors; we believe we have appointed the best dealers in any given area of the country to take care of your requirements. They all employ Auto-Trail 'product specialists' who have extensive knowledge of the latest ranges, features and specifications and therefore are able to help and assist you in choosing a new motorhome. They also have specialised knowledge of the many different ways and schemes available in which motorhome purchases can be funded. Our dealers constantly liaise with the personnel at Europarc and are always equipped with the latest information regarding all aspects of product availability, whether it is new orders or outstanding orders. Regarding other matters they are able to call on further support, expertise and assistance from both the Customer Service Team and Technical Team at the Auto-Trail factory....together, we make a great team.

SE Pack Weight Implications
2.6 Awning - reduce max payload by 24kg
3.0 Awning - reduce max payload by 29kg
3.5 Awning - reduce max payload by 31kg
4.0 Awning - reduce max payload by 35kg
4.5 Awning - reduce max payload by 39kg

Important

When using your vehicle or adding extra equipment, it is important that individual axle loading weights or the Maximum Authorised Weight is not exceeded. This would not only automatically invalidate any warranties, but also it could affect your safety and the handling of the vehicle. An overloaded vehicle could lead to prosecution. If you are unclear or need any further guidance as to any of the technical aspects in the operation and driving of your new Auto-Trail motorhome, please consult your supplying dealer prior to driving your vehicle on the public highway.

Extended Warranty Included

Auto-Trail have endeavoured to convey to all our customers all the benefits which are available within the industry. With this in mind we have extended the normal manufacturers warranty to include cover for major items for an extra period, giving peace of mind for a total of 36 months. Full details are outlined in a policy document. Please contact your official Auto-Trail stockist for further information.

AA Cover Included

Your new Auto-Trail Motorhome is covered by the AA for the first 12 months. A membership card will show a freephone breakdown assistance telephone number. In the event of a breakdown simply telephone the AA operations centre and their staff will provide assistance and explain the service provided in more detail.

All photographs show vehicles fitted with the optional SE pack and photographs may show other optional extras.
The content of this publication is as accurate as possible from the information available at the time of going to press (October 2005).
Auto-Trail Motorhomes reserve the right to alter specifications, prices and model ranges as materials and conditions demand, which could affect the unladen weight and therefore can accept no responsibility for discrepancies between this information and subsequent models.
All Motorhomes in this brochure conform to European Standards for Motorhomes: EN1646
