## History

Autocruise have always prided themselves on a dedication to their customers and a commitment to excellence. Since the foundation of Autocruise in 1988, the company has continually strived to offer high quality, coachbuilt motorhomes which exceed customers' high expectations. Generations of tradition mix with an inspiring blend of comfort and practicality, with real world features and exciting new innovations that are regularly awarded within the industry.

## Design and Manufacturing

The unique design of an Autocruise motorhome is born from a close relationship between the company and you, the customer. Each vehicle is a testament to our knowledge and experience within the industry and of your motorhome experiences. Autocruise prides itself on a continual process of listening to customers and incorporating your ideas into our designs. Every achievement forms the basis for the next improvement to produce award winning motorhomes renowned within the industry.

## Quality and Customer Service

Our ongoing investment into technology, equipment and our employees ensures that you continue to receive the same high quality of vehicle and an unwavering level of customer service.

We pride ourselves on a close relationship with our customers, many of which have been a part of the Autocruise family for decades and believe that our service is renowned within the industry. Our after sales team provide a quality of service that our customers demand and a passport to adventure that will last for years.

## A Safer Ride

An Autocruise driver is safer than ever before.

Refinements to the structure of the vehicle and a host of base vehicle improvements combine to make our motorhomes safer than ever.

- ABS with Emergency Braking Assist (EBA) as standard
- Split door mirrors with built-in direction indicators
- 60 litre driver's airbag as standard
- Automatic collision fuel cut out
- Reinforced passenger safety cell protects all occupants

Autocruise view safety as the most important form of reliability and comfort. Quality and the rigorous application of safety standards and legislation makes certain an Autocruise driver does not only feel safe, he or she is safe. Autocruise tests vehicles with both UK and international bodies and is a member of STATUS – The UK Specialist Transport Advisory and Testing Utility Society. To ensure Autocruise is fully compliant with all aspects of vehicle safety and design, we are also fully committed to the requirements of European Whole Vehicle Type Approval - a host of stringent regulations that from 2007 will govern the design and safety of all road vehicles.
