ROADSTAR, GOLDSTAR
& MOONSTAR

NEW FOR 2007

“COMFORTABLE, PRACTICAL, ECONOMICAL, LUXURIOUS AND AFFORDABLE”

Fully integrating the robust, modern, all new Fiat chassis cab, Lunar sets the benchmark with the completely redesigned 2007 motorhome range. The design team have excelled. Check out the superb list of standard features including a unique double floor design, a security conscious exterior door and a slide out gas locker. As expected from Lunar, the attention to detail and eye for comfort is unmatched.

MOONSTAR

With two popular and practical layouts the Moonstar 570 has a rear kitchen, an offside front dinette with two lap and diagonal inertia reel seat belts and a rearward seat that will easily swivel to form a comfortable L shape lounge. A long nearside settee and a rear corner toilet/shower room complete this original layout based on a traditional theme. The 580 boasts a six feet two inches long rear lounge area with wrap round seating or chest of drawers, centre kitchen and toilet/shower room.

GOLDSTAR

The first two models of this new range, the 620 has two six feet two inches long rear lounge seats which can be complemented by a choice of either wrap round seating or a central chest of drawers with occasional table. It also has a separate shower within the toilet room and a central kitchen unit. A rear offside fixed bed is one of the many features of the Goldstar 640 that also include a separate shower in the toilet room, a front dinette with two lap and diagonal inertia reel seat belts, a rearward facing seat that easily swivels to form an L shape seat for more comfortable lounging and a nearside fully fitted kitchen unit.

ROADSTAR

Flagship of the Lunar motorhome ranges for many years, the Roadstar will not disappoint for 2007. A feast of standard equipment including a gas/electric hob unit, special mood lighting in the over-cab bed area, fully fitted flush awning incorporated in the exterior design, ali-fibre side panels giving the benefit of robust good looks complement the superb new alloy wheels together with the smart new exterior graphics ensuring the Roadstar is a model that stands out from the crowd. The Roadstar 726 has a large rear lounge area, central toilet/shower room, front kitchen and offside front dinette. The front dinette has two forward facing seat belts and the swivel arrangement unique to Lunar that converts the dinette into L shape seating. The ultimate Roadstar 786 continues for 2007 with its completely separate rear shower, toilet and vanity unit, offside fixed bed and kitchen and front lounge seats with swivel driver and passenger seats.

FIAT CHASSIS

The Fiat Ducato is the number1 chassis cab in Europe for motor homes and has been completely redesigned for the 2007 season. Working in liaison with the motorhome manufacturers, studying closely the needs of users and realising the importance of recreational vehicles, Fiat have set a benchmark that Lunar are delighted to utilise for the new Moonstar, Goldstar and Roadstar.

The strengths of the new Ducato include car like driving with excellent driving position, design, visibility and ergonomics, road holding and safety, comfort for the occupants with perfect integration between cab and living area, homogeneous ventilation and quiet running, a new generation of engines and a European customer care service dedicated to motorhome customers.

The three totally new engines are 16-valve Multijet with multiple injection giving extremely high torque already available at low revs and Euro 4 compliant generating very low emissions. They have excellent pick-up in all circumstances whether uphill or overtaking, even at full load, comfortable driving over long hauls, greatly improved fuel consumption and enhanced silence for increased comfort when driving.
