A MEMBER OF THE SWIFT GROUP

All Sprite models have been certified by the National Caravan Council for compliance with stringent European Standards, British Legislation and industry set Codes of Practice specifically relating to health and safety issues.

The approval process covers the testing and inspection of critical areas of the product from fire safety, weights and dimensions, to gas, electrics and ventilation. Every Sprite caravan carries the "NCC Approved Caravan" badge.

The NCC also conduct unannounced inspections at the Swift Group factory to ensure continued compliance. NCC Approval gives you peace of mind that your caravan is legal and safe.

For added security all Sprite caravans come registered with the Caravan Registration and Identification Scheme (CRiS), the UK's official database of caravans and their keepers.

Sprite caravans not only carry the unique 17 digit CRiS Vehicle Identification Number (VIN) die stamped into the chassis, but windows are also etched with the VIN and there is an electronic tag embedded within the bodywork for extra security.

Specialist insurance companies increasingly require registration with CRiS before granting cover and when you come to sell your caravan your CRiS registration will prove invaluable.
