

# Bessacarr Motorhomes

## Warranty cover for your peace of mind

All Bessacarr motorhomes come with a comprehensive warranty covering both the Fiat base vehicle and the coachbuilt conversion element of the product.

Swift Group Limited provides a three year warranty on the coachbuilt element of the motorhome. The warranty covers all the key elements of the motorhome in year one and continues with specified exceptions in years two and three. The warranty is subject to certain terms and conditions and full details can be found under the warranty section on [www.swiftgroup.co.uk](http://www.swiftgroup.co.uk)

Fiat provide a three year manufacturers warranty on the base vehicle and a three year pan European Camper Assistance roadside assistance and breakdown cover operated in conjunction with the RAC.

Full details of this cover can be obtained from your local dealer and is subject to certain terms and conditions.

All Swift Group models have been certified by the National Caravan Council for compliance with stringent European Standards, British Legislation and industry set Codes of Practice specifically relating to health and safety issues. The approval process covers the testing and inspection of critical areas of the product from fire safety, weights and dimensions, to gas, electrics and ventilation. Every Bessacarr motorhome carries the "NCC Approved Motor Caravan" badge. The NCC also conduct unannounced

inspections at the Swift factory to ensure continued compliance. NCC Approval gives you peace of mind that your motor caravan is legal and safe.

All Bessacarr motorhomes are European Whole Vehicle Type Approved. We believe that the Swift Group is currently the only UK manufacturer to have this approval. This is your assurance that these motorhomes meet all European regulations, and have been constructed and conform to approved standards of safety and manufacturing.

# E600

E600 Series

E630 / E660 / E665 / E695

Individually styled  
Beautifully built

# E600

Fully equipped kitchens come with a microwave oven as standard, glass fronted electronic ignition oven and grill with dual fuel hob and a large fridge freezer. Washrooms are equally well specified with separate shower areas, electric flush toilet and a wash basin integrated into a useful cupboard unit. Other class leading features include seat tops with gas struts for easy access and the dual fuel Truma 'Combi' central heating system which ensures effective heating both en-route and on site. A new option is a winter pack consisting of fresh and waste water tank heaters and a winter fridge vent cover.

**Fridge/ freezer**  
175 litre or 104 litre Smart Energy Selection fridge/ freezer (model specific)

**Microwave**  
Well equipped kitchens provide a microwave oven as standard

**Auto gearbox**  
Optional Comfort-Matic automatic gearbox available with 160bhp engine

**Optional Elegance pack**  
The optional pack now consists of cruise control, cab air-conditioning, colour reversing camera and latest portable satellite navigation unit.

## E600

All four models offer spacious living accommodation and three are based on the Fiat 4 tonne Maxi Chassis which offers generous payloads for all the holiday essentials. Powered by a 130 MultiJet engine with six-speed gearbox or an optional 160 MultiJet with automatic transmission, they have car like driving qualities. Safety has been enhanced with a passenger airbag in addition to the drivers one and the new entrance door with remote central locking has a pleated easy-action flyscreen, window and waste bin.

High-line models offer a cleverly-designed, spacious overcab bed which features a gas assisted strut, enabling it to be easily pulled down at night time, and just as simply pushed back up, still fully made up, during the day. When in use, the luton almost becomes a separate bedroom.

Classic furniture and luxurious soft furnishings combine to create an interior that is exclusive and private with stylish pleated blinds to the cab and living areas. New heavier pile carpets (45oz) add to the luxury feel and stay looking good for longer. Fixed bed models come with an 'Ultra Comfort' luxury deep sprung mattress and an aluminium frame to maximise strength and storage space beneath.

Low-line models have the advantage of a sleeker, more aerodynamic profile. Inside the layout is carefully planned to incorporate comfortable and spacious living and sleeping accommodation without the use of a luton bed. Instead, the luton area is fitted with generous full-width overcab lockers, providing additional storage.

E600

Classic exterior styling and luxurious and spacious interiors combine to ensure the E600 range provides the ultimate in motorhome touring in this market sector. Offering one new layout, the E600 range now comes with a choice of two new fuel saving, low-line models with panoramic opening 'Skyview' roof window and spacious over cab lockers in addition to two high-line models. All models also now feature a recessed awning as standard.

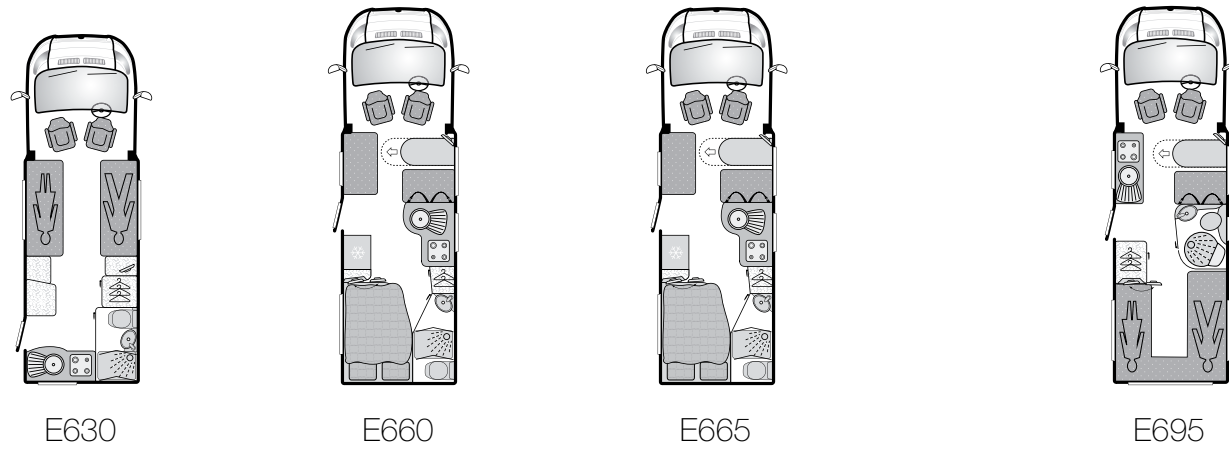

**Central locking**  
Remote central locking of cab doors and entrance door

**Control panel**  
The new 12V control panel over the doorway has touch controls with an analogue display

- Removable aluminium ladder to the over-cab bed in high-line models
- Moulded over-cab base with storage recesses in high-line models
- Bed mattresses and lounge area seat cushions on beech slats in strong aluminium frame
- Sprung interior seat and backrest cushions
- Scatter cushions
- Seat backrest ventilation boards
- Table with dedicated storage location (additional table in E695)
- TV station with flat-screen TV bracket (two in E660, E665 & E695)
- Removable carpets over woodblock effect vinyl flooring
- Domestic style mortice locks on washroom and wardrobe doors
- Removable stepwell mat
- Entrance doorway grab-handle
- Smoke alarm

## Kitchen

- Removable drainer with dedicated storage
- Food grade nylon chopping board with dedicated storage
- Chrome finish brass pillar tap with long spout
- Silver steel thermostatic oven and separate grill
- Dual fuel hob with 800W electric hotplate and 3 gas burners with electronic ignition and flame failure protection
- Built in 700W microwave oven
- Glass hob lid with safety cut-out feature
- Curved kitchen extension containing storage carousel (in E660 & E665)

## Washroom

- Shower cubicle or separated shower area
- Lower cupboard with built-in washbasin
- Overhead storage locker
- Thetford swivel cassette toilet with electric flush
- Chrome finish brass shower and mixer taps
- Skylight with flyscreen

## Heating and plumbing

- En route and on site blown air central heating and hot water provided by Truma 6kW gas and 2kW electric combi-boiler
- Grade 3 classification (EN 1646-1) for heating and thermal insulation (for sub-zero ambient temperatures)
- 90 litre external insulated fresh water tank with level sensor
- Pressurised fresh water system with self-priming pump
- 68 litre waste water tank with level sensor

## Electrical

- Mains 230V supply via ELCB/MCB distribution board to sockets, fridge, microwave oven (if fitted), combi-boiler and battery charger/transformer
- 25amp charger/transformer for leisure battery
- Five mains 230V sockets
- **NEW** 12V control panel over doorway with touch controls for:
  - Vehicle/Leisure battery selection
  - Water pump and lighting circuits
  - Tank heaters (if fitted) and display of:
    - Time and date
    - Tank levels
    - Vehicle and leisure battery state
- 110 amp-hour leisure battery in underfloor compartment
- Vehicle battery drain protection
- Solar panel connection provision
- TV station with 230V, 12V supply and co-ax link to outside connector
- 25 metre mains hook-up cable
