Auto-Sleepers
MOTORHOMES OF EXCELLENCE

Peugeot has earned a well-deserved reputation for reliability, innovation and value for money and is a highly popular choice among Auto-Sleepers customers. A wide selection of layouts are offered across a variety of Peugeot chassis ranging from medium wheel-base van conversions like the Symbol to long wheel-base coachbuilt models like the new award-winning Cotswold range.

Auto-Sleepers relationship with Peugeot is a long-standing one: some of our first ever models were based on Commer chassis - now part of the Peugeot group. In today's range features like ABS braking, cruise control, driver and passenger airbag, traction control and adjustable steering column all come standard on the latest Peugeot Boxer chassis. With a selection of engine variants that include the 2.2Hdi (100BHP) through to the range topping 3.0 Hdi (160BHP) there's plenty of choice for those who like their holiday to be Peugeot powered.
