

These three silhouettes symbolise RAPIDO® human values:

Joy of living, every instant

The freedom to travel, in complete safety

The enjoyment of sharing holidays as a family,

The thirst for discovery, of exceptional places.

RAPIDO
2011

Your next stage in the art of travelling

What brings us closer to the great adventurers such as Marco POLO or Christopher COLUMBUS ?

More than a simple desire to travel, it is the image we hold of the world. This idea incites our curiosity and unconsciously « dictates » our trips.

Since the discovery of America up to the present day, the world has shrunk in some ways. The impression is that it is « small » and within reach. Suddenly, travel has become democratized and a genuine consumer item.

Paradoxically, whereas « going on a trip » becomes within everyone's reach, particularly because of « all inclusive » package deals, « real travelling » seems to become « inaccessible ».

This phenomenon has developed to such an extent that certain anthropologists such as Marc AUGÉ think that travel now leaves little if no more room at all to surprise tourists, to the extent that he qualifies as an « impossible voyage » « one that we will no longer make, one that could have made us discover new landscapes and other peoples ».

Only you, as « nomadic ramblers », escape from this rule. Being a motor home owner gives you the opportunity to select a route that no other group of holiday makers will be taking, the ability to stop in a town not covered by any tour operator and to meet people and to find out about their lifestyle and culture, in short, really to get in contact with people.

For example, this is what the RAPIDO participants in the Paris-Beijing-Paris trip have done by crossing more than 40 countries and making a stop-over in Mongolia to live at the pace of its people for a few days. Being a motor home owner, therefore, is to be at the start of things, to take on « impossible trips ».

Because this quest for « impossible » voyages must persist, RAPIDO has been at your side for 50 years, providing levels of equipment and comfort far and above the standard and conventional, and also on the occasion of meetings and moments for exchanging experiences such as the Paris-Beijing-Paris trip.

RAPIDO's reputation is based on genuine know-how, attention to detail, the quality of its finishes, genuine ease of use with clever storage spaces, unparalleled warmth and brightness and the sophistication of its materials, particularly with the use of solid maple.

To help you make your choice, RAPIDO this year is offering 8 ways to access its range: its 8 series. Through these and their different layouts, you will find, perforce, THE motor home that suits you, THE motor home that will accompany you on great adventures.

Excellent trips !

RAPIDO, more than ever

At a time when distinguishing marks are being erased on a blossoming motor home market, RAPIDO presents, more than ever, the virtues of a reliable, well-known brand, engaged in a continuous quality improvement process, the symbol of a certain style of living in the French manner. A warm ambience, attention to detail: our values have not changed, they are

measured by the exceptional degree of loyalty between RAPIDO and its customers. Almost half our customers are on their second or third RAPIDO. Highly sought-after, the RAPIDO brand also makes its mark on the second-hand market. Demand for it is high; the resale value of a RAPIDO is higher than that of many other models. Isn't this the best indication of quality?

The Premium Make in Europe at the top of the range

49 years of know-how, real passion, attention to the finish and constant innovatory R & D.

The fruit of long practice in motor homes, every new collection is designed to meet your expectations in the best possible way.

RAPIDO's solid reputation in practical layouts that are easy to live with originates from the fact that every member of RAPIDO's team practises this leisure activity and constantly listen to their customers.

Quality, reliability, finish, passion, innovation and a warm ambience are our company's true values.

These values have been cultivated and enhanced for 49 years. Historically, the company's founder, Mr Rousseau, was a craftsman cabinetmaker, familiar with noble materials and working with every type of wood. Since then, the company has remained a family company, keeping this spirit of craftsmanship with genuine attention to detail and the desire to keep furniture made with elements in solid wood is still a reality.

With a heart in the west of France and a European dimension

Historically installed in the Mayenne area, RAPIDO has always been loyal to its roots. Today, the production site is still situated in Mayenne (53).

And today, RAPIDO has locations in almost every European country and beyond, still with this image of quality, reliability and responsiveness.

RAPIDO's customers have often had an initial experience of a motor home before coming to us. Their requirements are therefore often very specific and require us to make advances every year and design models that meet our customers expectations as closely as possible.

To continue to develop its activities, a new factory has just been built and has now been in operation for one year.

Zoom to the new factory: the steel and concrete giant

This new production site on 15 hectares, with 25,000m² dedicated to production, meets the very latest safety and environmental standards.

- A safety-conscious shed roof* accessible from gangways. Its northern orientation avoids the blinding noonday sun and contributes to ambient temperature control, while ensuring strong natural light in the workshop.
- Roof top heating. This enables the building to be cooled in summer by means of a reversed temperature system between indoors and the outside (with a maximum temperature differential of 5° between indoors and outside). In winter, heating is provided by renewable energy from a heat pump.
- Low-resonance materials: perforated sheet metal, density and materials in the partitions optimising acoustic qualities.

*Shed roof: a sawtooth profiled roof with a glazed slope all along its length.

Continuous quality improvement and innovation

The construction of this new factory has contributed to the establishment of a new organisation with even more demanding quality standards. Every vehicle, therefore, is subject to continuous quality checks, final quality check and watertightness checks as it leaves the production line. A "Quality" zone has specifically been created.

Constant research into improving our products is based on a progressive innovation-oriented process, requiring heavy investment in R & D with tests conducted in real situations. For example, we test our vehicles' reliability on road circuits with tracks designed especially for measuring structural aging enabling our engineering design department to provide the best solutions for ensuring optimum comfort on the road.

Other tests are conducted in cold rooms with thermal sensors, enabling us to measure heat losses. The technical solutions provided have met real success with our Nordic customers and also with customers travelling to the mountains in the winter months.

This is why RAPIDO's serious technology is so well-known and so often copied.

Style and a warm ambience

The new 2011 Collection introduces a new external styling on the A-Class models. Our designers, in collaboration with our engineering design department, have been able to retain the spirit of the RAPIDO "smile" on the front of the vehicles, a signature touch that has made our models successful. This smile has already been offered for 2 years now on our top-of-the-range low-profile models in the 70+ serie. This customised signature is unique and the precursor to the design of the low-profile models in the motor home sector (RAPIDO is in fact the first manufacturer to offer this front face design in agreement with FIAT).

The RAPIDO spirit can also be found in the living areas with an unparalleled warm ambience. This ambience has been modelled and remodelled over many years and continues to evolve to suit customers' tastes and suggestions but always respects RAPIDO's values, based on well-designed ergonomics and a feeling of warmth and well-being.

So this is how the luxurious new Serie 9M has been created, with the aid of an interior designer of luxury yachts.

To achieve optimum control of all the parameters, we enlist the highest skills for your satisfaction.

690 and 691 available in Heavy version 4.25t (with optional chassis reinforcement at extra cost)

 FRANCE - Alsace

Enter the world of RAPIDO

With the Serie 6, the RAPIDO adventure welcomes you with open arms. With a determinedly innovative style and an ambiance bathed in light, the 5 models making up this new range offer you the very best of layouts. It's a fact; with them you really do have a choice, for instance: bed in the centre or lengthways, or a large garage? Separate shower or not? Let yourself be tempted; the Serie 6 range will do the rest.

THE ADVANTAGES OF THE SERIE 6

- HARMONY furniture
- Two-colour Modena fabric
- Opening panoramic roof
- Front living area easily transformable into sleeping space
- 15-inch flat screen TV unit (TV not supplied)
- PIONEER DEH2200 radio with CD player
- 4 seats with seat belts
- New for 2011: cruise control
- Driver's Airbag
- ABS braking + ASR
- Cab air-conditioning
- Extra-wide rear track

Extra-wide rear track

Thanks to its rear track, extended to 1980mm (190mm wider compared to the original standard Fiat chassis), the Serie 6 models provide excellent stability and therefore real travelling comfort and a genuine feeling of security.

690 and 691 available in Heavy version 4.25t
(with optional chassis reinforcement at extra cost)

 DEUTSCHLAND

The subtle interplay of comfort and compactness

With the opportunities offered by its 4 models, you will be able to play the field with the Serie 7FF*, THE Series with the bed under the ceiling...You will love to sound the depths of compact living with the 700FF as short as 5.99m and its well-designed living spaces...you will sigh at the comfort of the second permanent bed above the living room and be carried away and inspired by the space of the garages, as in the 773FF. So why hesitate any longer: just go for it!

*« FF » : For Family or For Four

THE ADVANTAGES OF THE SERIE 7FF

- New "Champagne Grey" skirts colour and "Ivory White" panels
- Nautical-style blinds in the living room
- Compact Motor Home
- Opening panoramic roof
- New HARMONY furniture
- Multi-function kitchen (except 790FF)
- New for 2011: mechanical height adjustment (Δ 17 cm) of the bed over the garage (773FF)
- 4 permanent berths (except 700FF) with a second permanent bed incorporated into the ceiling with a reversible 11cm-thick Bultex[®] mattress (depending on the model)
- 4 seats with seat belts
- 15-inch flat screen TV unit (TV not supplied)
- PIONEER DEH2200 radio with CD player
- New for 2011: cruise control
- Driver's Airbag
- ABS braking + ASR
- Cab air-conditioning
- Extra-wide rear track

The advantages of the FF range[®] beds

The bed mechanism in the 7FF range, coming directly from the one in the A-class models, is efficient and reliable.

In all the models in the range, each bed layout has been carefully designed to enable maximum clearance for the entrance door to comply with safety standards.

Once the bed has been lowered, the height under the ceiling is 83cm to enable you to sit upright.

The mattress, which is the same quality as the permanent bed, is a Bultex, double-reinforced, reversible mattress 11cm-thick to provide you with excellent comfort while you sleep.

The 700FF: a completely new layout for 2011 for those of you who are looking for an externally compact vehicle (5.99m) but with a very large living room, a large kitchen and a large bathroom inside, with four registered seats and 4 berths including a large bed with electric height adjustment.

Practical and ingenious: get to know the 700FF without delay!

Also available in Heavy version 4.25t

EESTI

Taking well-being one step further

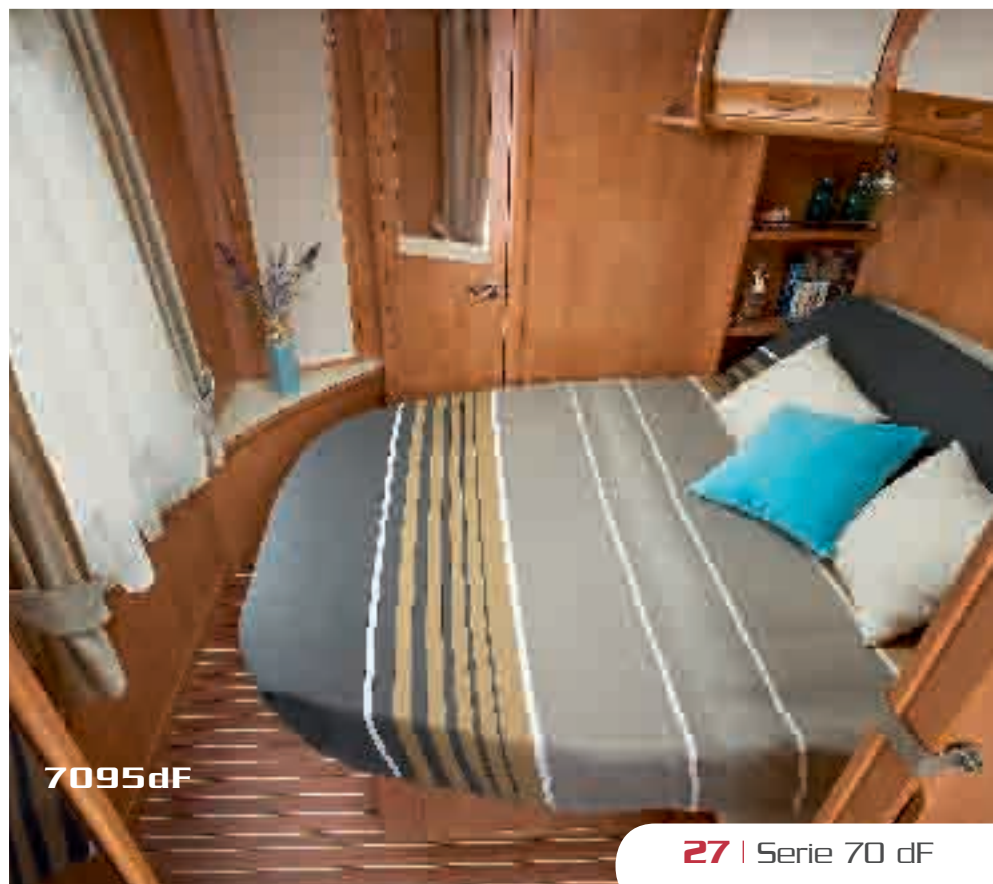

On the strength of its recognised experience as a market leader and its know-how in the field of designing motor homes on AL-KO chassis with extra-wide rear track and independent wheel suspension, RAPIDO now enables you, with the Serie 70dF, to take another step in your motor home's driving comfort and interior layout. These double floor models with bright light from the panoramic roof and the sophistication of their new Elegance furniture will stimulate your desire to travel, your distant horizons await. One thing is for sure: from the 5 models in this series, you are certain to find one that suits you.

7090dF

7096dF

THE ADVANTAGES OF THE SERIE 70dF

- New "Champagne Grey" colour on skirts, rear pillars and "Ivory White" panels
- New bedroom ambience (only on 90/95)
- Mechanical bed height adjustment (Δ 17cm) (7096dF)
- Nautical-style blinds in the living room
- Multi-function kitchen
- New Elegance furniture and "Fashion" finish (option)
- Opening panoramic roof
- Double floor with exclusive second storage level (exclusive to RAPIDO)
- Central heating ALDE Comfort Plus Arctic (optional on 7066dF and 7090dF)
- 4 seats with seat belts
- 15"-inch flat screen TV unit (TV not supplied)
- Pioneer AVH3200 Multimedia Station: DVD/USB/reversing camera
- New for 2011: cruise control
- New reversing camera with built-in screen
- Driver's Airbag
- ABS braking + ASR
- Cab air conditioning
- Extra-wide rear track for AL-KO chassis
- Independent wheel suspension

AL-KO

Among the leaders and the precursors in the use of this chassis, RAPIDO has contributed to its development to obtain a lowered lightweight chassis, while retaining the comfort qualities stemming from its independent wheel design.

Double floor

As the result of long experience, RAPIDO offers a double floor that provides an impressive amount of storage space, extremely accessible from outside via a wide-opening hatch. Secondary access is possible from the inside from the living room via a hatch in the floor.

A RAPIDO innovation

3rd level storage space: this clever additional storage space, accessible from inside the vehicle and comprising 40 litres, is a RAPIDO innovation, enabling you to store, for instance, your shoes or your water bottles, etc...

Also available in 3,7t (or Heavy version 4.25t with optional chassis reinforcement at extra cost)

Serie 70⁺

**AL-KO low-profile models with extra-wide rear track
and independent wheel suspension**

7065⁺ | 7090⁺ | 7099⁺

Also available in 3,7t (or Heavy version 4,25t with optional chassis reinforcement at extra cost)

Travel with a smile

Those of you, who like to stand out will adore the 3 models in the Serie 70⁺. From the outside, your motor home will resemble no other with the silver metal of its bodywork and the “smile” on its face... Inside, the surprises continue: the fine quality of the materials, the sophistication of the finishes, the opening panoramic roof, and let us dare say: “the most beautiful interior in its class”... nothing has been left to chance, everything has been done to meet your every requirement in sophisticated and luxurious surroundings.

7090+

- Pre-cabling for fuel cell
- New reversing camera with built-in screen
- New for 2011: cruise control
- Driver's Airbag, ABS braking + ASR
- Cab air conditioning
- Extra-wide rear track for AL-KO chassis
- Independent wheel suspension

LED lighting

LED technology is everywhere in RAPIDO models and especially in the Serie 70⁺: in the inspection light in the garage (a RAPIDO innovation), in the bathroom, in the living room's ambience lighting and in the bedroom (except 7099⁺).

LEDs reduce consumption by a factor of 10.

Elegance furniture with "Fashion" finish, for more personality!

A RAPIDO innovation: enjoy it! As an alternative to the new Elegance furniture line and its standard maple finish, you can also choose another finish, called "Fashion". This consists of living room furniture in bronze colour with solid maplewood, kitchen units in cream lacquer with solid maplewood and, in the bedroom, either maple colour or coral colour with solid maplewood, depending on the model.

(Option at extra cost)

Also available in 3,7t (or Heavy version 4,25t with optional chassis reinforcement at extra cost)

Serie 9

Standard A-Class chassis with extra-wide rear track

903 | 946 | 966 | 983 | 990

966 - 983 - 990 available in Heavy version 4.25t (with optional chassis reinforcement at extra cost)

Discover the RAPIDO legend

With the Serie 9, you are now entering the "big boys" playground...A-Class motor homes. And yet, although each has 4 permanent berths, none of the models is longer than 7.20m. You can therefore combine comfort and compactness. As for storage space, the living area boasts the exclusive RAPIDO underfloor storage (RAPIDO innovation), which provides space very similar to that in a double floor model (75 to 130 litres, depending on the model). Lastly, with their FIAT carriers and extra-wide rear track, the 4 models in the series provide excellent road behaviour.

- Garage with moulded polyester floor, insulated with sandwich material technology
- Driver's Airbag
- ABS braking + ASR
- Cab air conditioning
- Extra-wide rear track for AL-KO chassis

Bed height-adjustment mechanism

A clever system enables you to alter your bed's height by Δ 17cm on the 903 and 983. You have the choice of a large garage, which can become maxi, or a lower bed, which is easier to reach.

RAPIDO innovation

Storage space: this crafty additional storage space, accessible from inside the vehicle, has a volume of 75 to 130 litres, depending on the model, and is a RAPIDO innovation, enabling you to store, for example, your shoes or water bottles, etc.

966 - 983 - 990 available in Heavy version 4.25t
(with optional chassis reinforcement at extra cost)

Doubly fabulous

Who has reinvented comfort and cleverly combines many storage spaces with 4 permanent berths? The Serie 90dF and its insulating double floor, with the exclusive second storage level (a RAPIDO innovation). The 10 A-Class in this Serie combine in one and the same motor home: driving comfort, generous living spaces with maximum storage volumes, functional layouts, traditional ambiances or contemporary ones with the new "Fashion" interior trim. When everything has been done to simplify your trip...what are you waiting for before you set off?

THE CHARACTERISTICS OF THE SERIE 90dF/dFH

AL-KO

Among the leaders and the precursors in the use of this chassis, RAPIDO has contributed to its development to obtain a lowered lightweight chassis, while retaining the comfort qualities stemming from its independent wheel design.

Double floor

As the result of long experience, RAPIDO offers a double floor that provides an impressive amount of storage space, extremely accessible from outside via a wide-opening hatch. Secondary access is possible from the inside from the living room via a hatch in the floor.

A RAPIDO innovation

3rd level storage space: this clever additional storage space, accessible from inside the vehicle and comprising 40 litres, is a RAPIDO innovation, enabling you to store, for instance, your shoes or your water bottles, etc...

THE ADVANTAGES OF THE SERIE 90dF/dFH

- New front face
- New "Champagne Grey" colour skirts, rear pillars, front bumper and "Ivory White" panels
- New bedroom ambience (only on 90/92/95/9002/9009dFH)
- Nautical-style blinds in the living room
- Multi-function kitchen
- New Elegance furniture and "Fashion" finish (option)
- 4 seats with seat belts
- 4 berths: cab bed and permanent rear bed (except 9048dF) with slatted frames and Bultex® mattresses
- Central heating ALDE Comfort Plus Arctic (optional on 9066dF/9090dF/9092dF/9096dF, standard on these 9002/9009dFH)
- New for 2011: mechanical height adjustment (Δ 17cm) for the bed over the garage (9083dF and 9096dF)
- Double floor with exclusive second storage level (RAPIDO innovation)
- 15"-inch flat screen TV unit (TV not supplied)
- Pioneer AVH3200 Multimedia Station: DVD/USB/reversing camera
- New for 2011: cruise control
- New reversing camera with built-in screen
- Driver's Airbag
- ABS braking + ASR
- Cab air conditioning
- Extra-wide rear track for AL-KO chassis
- Independent wheel suspension

Also available in 3,7t
(or Heavy version 4.25t with optional chassis reinforcement at extra cost)

 FRANCE - Paris

RAPIDO in all its splendour: the rebirth of the Serie 9M

With the new Serie 9M, you are right at the top of the RAPIDO range. Completely redesigned for 2011, the new Serie 9M will literally leave you speechless: admire its new Majesty furniture, specially created by a well-known interior designer, move around freely in larger spaces with practical touches everywhere or be inspired by the dimensions of the completely new kitchen. You will also find a good number of surprises in the exterior: new front and rear faces (in the MH version).

The completely new Heavy model 990MHV offers you the best with:

- A GVWR of 4.6t (5t option) to maximise useful load,
- A length of 7.95m for generous interior space,
- 5 registered seats,
- An adaptable central bed layout,
- A large living room
- And a fuel cell as standard!

THE CHARACTERISTICS OF THE SERIE 9M

Furniture

The furniture in the new Serie 9M, Majesty, has been designed and developed specially for RAPIDO by a well-known designer in the nautical field. Accustomed to designing luxurious furniture for yachts, he has put all his know-how to work to create a new ambience for your motor home.

Wood

Every customer will also appreciate the use of wood once again in his furniture and to note that, depending on the model, solid wood is present on the steps, the door mouldings, the living room tables and the kitchen worktop . . . and is a real signature of RAPIDO's know-how.

Kitchen

The new kitchen provides lots of storage spaces:

- A glazed column (for a coffee-maker for instance),
- A double wastebin, very useful for sorting out waste selectively,
- A second sink-wastebin-drainer on the worktop.

THE ADVANTAGES OF THE NEW SERIE 9M (ALDE Serie)

- New front face
- Polyester Polyglace®
- New (more environmentally friendly) engine EEV
- Rear wheel drive
- New Majesty furniture
- New interior
- New for 2011: electrical height adjustment (Δ 17cm) for the bed over the garage (983M/996M)
- New kitchen (double wastebin, maximum storage)
- Shower on grating
- Door between the night and day areas (according to the model)
- Central heating ALDE Comfort Plus Arctic
- Electric sunshade
- 15"-inch flat screen TV unit (TV not supplied)
- PIONEER AVH3200 Multimedia Station: DVD/USB/reversing camera
- New reversing camera with 2 DIN screen
- Pre-cabing for fuel cell
- Tempomat - Cruise control
- ABS brakes, ASR and ESP
- Cab air conditioning

THE COMFORT OF RAPIDO UPHOLSTERY

RAPIDO pays particular attention to the quality of the upholstery. Conscious of the fact that a lot of time is spent sitting in a motor home, RAPIDO designs high quality upholstery. The choice of the foams and textiles determines the level of comfort; both are rigorously selected and tested. In your motor home, hours pass but comfort remains.

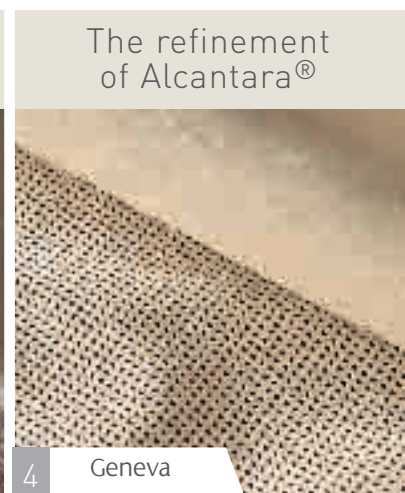

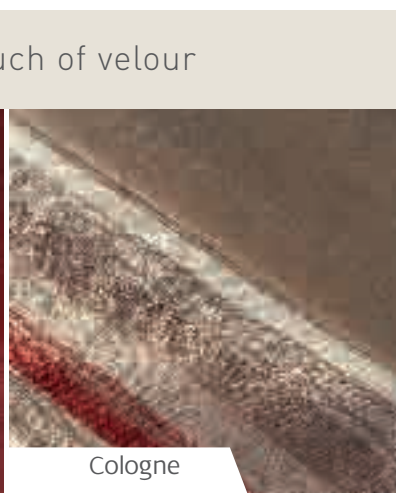

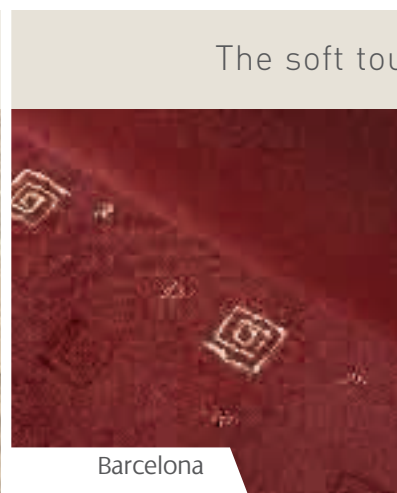

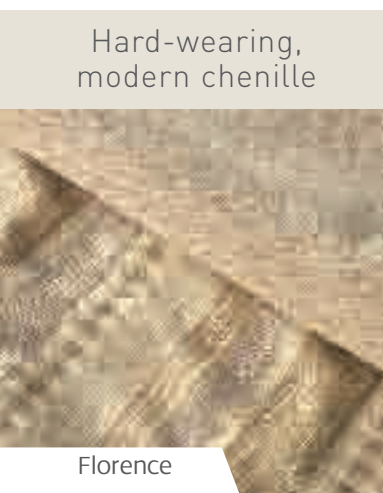

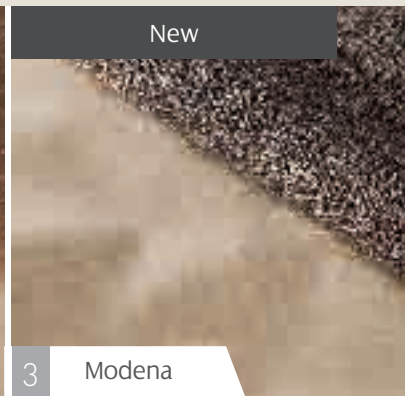

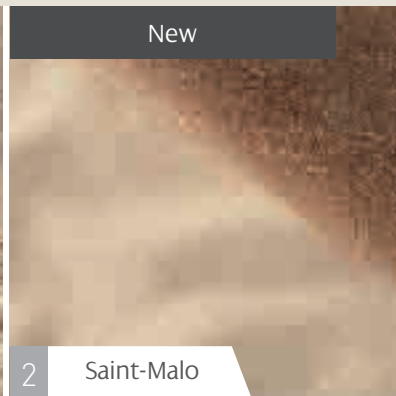

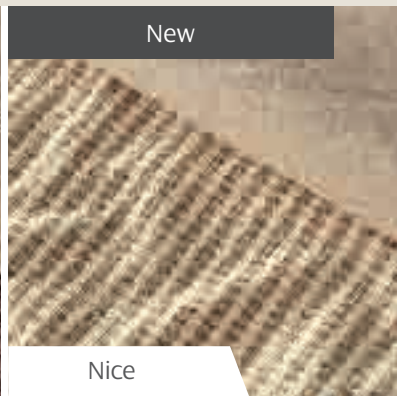

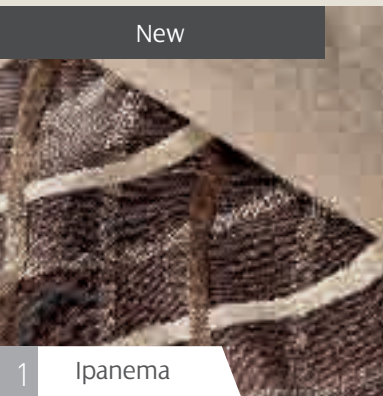

Seating comfort

The living room upholstery covers are lined with a padded material that improves seating comfort. (except Serie 6).

Microfiber and fabric upholstery

Driving comfort

All the Fiat models are fitted with special motor home seats. In addition to their great comfort, they also adopt the ideal position (adjustable height and inclination for the back and the seat).

Harmony

The original seats are fitted with covers in the same patterns and colours as the living room.

Fabric quality

RAPIDO microfibre fabrics on the fixed furnishings and the new Saint Malo microfibre upholstery, have both received "Easy-Clean" stain-resistance treatment.

1 Ipanema
Origin of the name: think of the beaches of Rio de Janeiro and the motifs on the ground leading to the beach...

2 Saint-Malo
New generation Easy-Clean stain-resistant easy-wash fabrics.

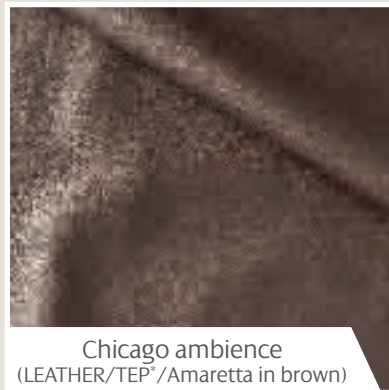

3 Modena
Standard on Serie 6.

4 Geneva
Available as an option on all the Series.
This sophisticated, soft material from the Far East, made up in Milano, will bring great elegance to your RAPIDO interior.

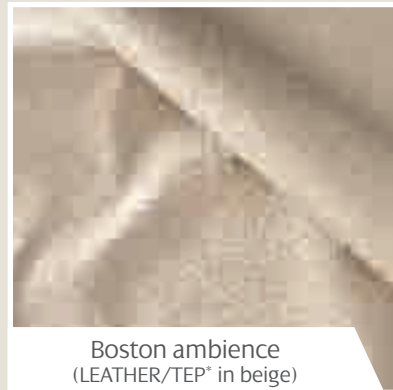

5 "Sable" Nappa leather
Available only on the S10 and 9M/H.
This leather, with its superior finish and quality, will make your interiors even more luxurious.

Luxury

Available as an option

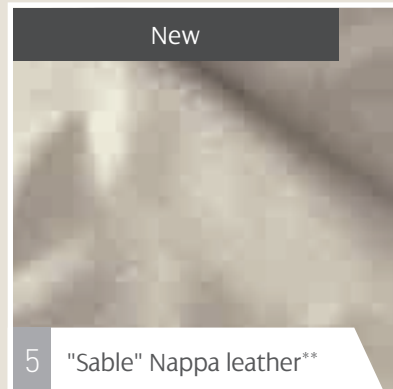

Chicago ambience
(LEATHER/TEP*/Amaretta in brown)

Boston ambience
(LEATHER/TEP* in beige)

Auckland ambience
(LEATHER/Fabric (TEP*) in black and cream)

5 "Sable" Nappa leather**

* TEP: Polyamide-coated fabric

** Available as an option on Series 10, 9M, 9MH

RAPIDO bodywork makes all the difference

An exclusive manufacturing method

GEL COAT: Reinforced protection

For some years now, RAPIDO has been using a "high-tech" gel-coat material, which protects your motor home's bodywork from climate damage, and especially UV. The quality of this white resin (gel-coat) is essential. It gives your camping-car its long life, its watertightness and its brilliant look.

POLYGLACE® POLYESTER: Unequaled brilliance

The Polyglace® polyester which clads the panels of RAPIDO camping-cars (Series 7FF/70dF/S9/90dFH/S9M/S10) results from an exclusive technique. Its manual manufacturing process guarantees a perfectly smooth bodywork appearance of unequalled brilliance. This quality results from a greater thickness of resin.

ALU-FIBER® :

Available only for the Serie 70+ and 9MH

RAPIDO is expanding its technological choices by offering Alu-fiber®. This technology is based on our know-how in polyester materials and creates an innovation by adding a sheet of aluminium affixed to a polyester coating.

Alu-fiber® combines the qualities:

- of polyester, with its capability of withstanding impacts,
- of aluminium, which represents an excellent supporting medium for metallic paint, which lends depth to the particular hue.

Alu-fiber® is a variation in style for the RAPIDO range, a new aesthetic, in the purest traditions of RAPIDO quality.

Polyester Panels in the bodywork structure: Increased strength

- Panels coated with polyester possess good resistance to the impact of hail, scratching by branches and other small impacts. They are easy to repair.
- All the roofs in the RAPIDO range are designed with a polyester roof, which provides perfect resistance thanks to its absorption properties when hail is falling.

Sealing

Most of the range is fitted with a roof covering all edges to ensure perfect water-tightness. Each vehicle, as it leaves the production line, passes through a water jet tunnel to test the water-tightness of the openings.

Furniture

Furniture

A quality of manufacture worthy of our initial trade as cabinet makers

The craftsman's spirit still persists at RAPIDO and particularly in the design of our furniture. This gains its top-of-the-line reputation from the attention to detail paid to the finishes and the use of solid maple for the main wooden components, reminding you of the RAPIDO brand's founder's initial trade as a cabinet maker.

The precise eyes and hands of the carpenter are always present. Each item is subject to rigorous assembly and even the design of each unit is specially conceived to last over time.

The assembly principle is based on many techniques such as mortise and tenon joints as well as screwing and gluing, used as required for the different layouts.

RAPIDO furniture has been a benchmark for quality for a long time now.

Every customer will also appreciate finding once again the use of wood in his furniture and noting that, depending on the model, solid wood is present in the cornices, the steps, the door mouldings, the tables and the kitchen worktop... and represents a real signature of RAPIDO's know-how.

An incomparable line of furniture

The range consists of 3 lines of furniture:

The "Harmony" line is a two-colour trim that brings a new atmosphere of lightness and freshness that is very agreeable to the eye. (fitted on the 6 & 7FF series low-profile models and the 9 series A-Class models)

The new "Elegance" line carries its name with nobility. The style has been designed in line with our own values

and incorporates lower moulding in solid maple with a brushed aluminium style insert. (fitted on the 70dF, 70+ and 90dF/H series and the new 10 series).

Elegance furniture with "Fashion" finish, for more personality!

A RAPIDO innovation: enjoy it! As an alternative to the new Elegance furniture line and its standard maple finish, you can also choose another finish, called "Fashion". This consists of living room furniture in bronze colour with solid maplewood, kitchen units in cream lacquer with solid maplewood and, in the bedroom, a choice of either maple colour or coral colour with solid maplewood, depending on the model. (Option at extra cost)

The new "Majesty" line is a genuine creation in a luxurious contemporary style. This new style has a real personality that you will find very attractive (fitted on the new 9M series).

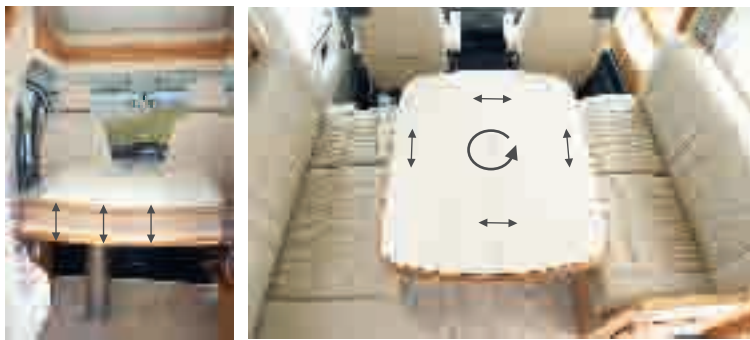

Comfort

Adaptable living room tables: a move in every possible sense!

The living room space must be well-designed for easy movement around the table. The living room tables fold to enable you to travel quite easily from the cab to the kitchen:

- On the **low-profile models**, the tabletop moves longitudinally and sideways with a telescopic leg to provide an occasional berth (except 7FF).
- On the **A-Class models**, the leg is fixed (telescopic on the new Serie 10) but the tabletop moves longitudinally and sideways, and rotates as well.

Bedding

Bedding is one of RAPIDO's strengths. The most particular care is paid to offering you foam bedding of the highest resilience, with the Bultex® label:

Its advantages:

- BULTEX® label
- Removable bedheads on the central and twin beds and those on the type 95 models
- Bedspring with an aluminium frame and wooden slats laid on a flexible fastening
- Permanent ventilation

Heating

■ TRUMA heating system

The Truma heating system is located in the kitchen area, i.e. in the central part of the vehicle, to provide the best output possible and even radiant heat to the front and rear of the vehicle. This location was determined from tests conducted jointly by the supplier and RAPIDO.

■ ALDE central heating system: **Comfort PLUS Arctic**

Why "Comfort Plus Arctic" ? Because RAPIDO wished to market the ALDE system in its top-of-the-range version with reinforcement of the heating points in the cab, which is often a source of heat loss. The architecture for the installation has been customised by RAPIDO in collaboration with the ALDE team and then successfully launched with our Nordic customers and is now offered to all the countries of Europe, which makes it a benchmark for the market.

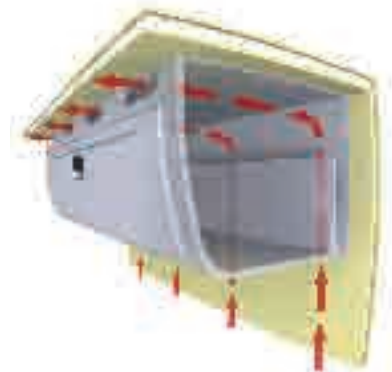

RAPIDO offers a mode of heating, tested by ourselves in the Scandinavian countries and developed in collaboration with the ALDE team, which provides heat harmoniously distributed through the living area creating a real sensation of well-being.

It consists of a central heating unit comprising a gas boiler and a heat exchanger. The boiler heats a liquid composed of 60% water and 40% glycol. The water/glycol mixture circulates in the system through the pipes and the convectors by means of a 12V circulation pump.

The convectors, placed along the exterior walls, heat the air, which rises, heating the furniture units and partitions. Because warm air rises, a barrier of air is formed, which insulates the windows from the cold. The temperature inside the living area is regulated by means of an air thermostat.

■ Available as standard on the Serie 9002dFH/9009dFH / New Serie 10 / New Serie 9M-MH.

■ Available as an option on Low-profile 7090dF, 7066dF and A-Class 9066dF, 9090dF, 9092dF, 9096dF.

Other comfort components

The new RAPIDO A-Class models are developing technically and seeing their standards of comfort advance:

- The underside of the cab bed in the A-Class models is fitted with a new generation of built-in roller blinds, electric on the Serie 9002dFH-9009dFH/New Serie 10/Serie 9M-MH and manual on the Serie 9/90dF.
- The cab beds on the new A-Class Serie 10 are electrically operated.
- The beds over the garage are height-adjustable (except for the

643): manually on the 603/773FF/7096dF/903/983/9083dF/9096dF, electrically on the 10003/983M/996M+MH.

Already fitted on all the range:

- In the garage, an external shower as standard.
- For the low-profile models, privacy curtains for the cab windscreen and side windows (an option on the Serie 6 and 7FF).

Double floor

With the strength of genuine know-how in this particularly technical field, RAPIDO has designed a double floor capable of providing enormous storage space.

It is also very easy to access from the outside thanks to wide-opening jack-assisted hatches. Access is also possible from inside via a hatch located in the living room.

A RAPIDO innovation: 3rd level storage space. This clever additional storage space, accessible from inside the vehicle and comprising 40 litres, is a RAPIDO innovation, enabling you to store, for instance, your shoes or your water bottles.

The double floor also acts as insulation against the cold and therefore contributes to maintaining a pleasant level of ambient heat in the living area.

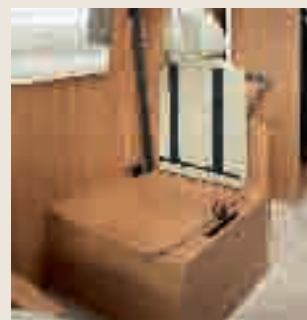

Technically, the double floor is an integral part of the lowered AL-KO chassis, providing a very low centre of gravity and perfect stability when driving.

Sandwiched between the bottom of the double floor and the floor of the living area are the waste water and fresh water tanks, adding further to the vehicle's low centre of gravity.

It is evident that the success of RAPIDO's double-floor range, both in the low-profile and A-Class models, is due in large part to the quality of the technical choices made, the overall design and exemplarily rigorous assembly.

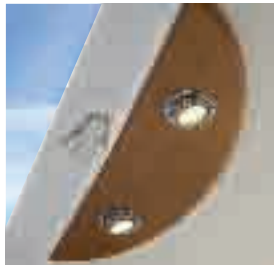

Front-facing seats: Modular seats

To comply with our customers' wishes, RAPIDO has developed new bench seats with modular seats. From the "Living room" position around the table, you can reconfigure the seats so that they can be used facing the road with a seat belt during a trip. With just a few manipulations, you can modify your bench seat to suit your particular requirements.

Equipment & technology

Lighting

LED technology is present in every RAPIDO layout, in the bedroom, the bathroom, the living room and even in the garage, thanks to the movable inspection light (a RAPIDO innovation).

On the models in the 9M series, you can alter the ambience lighting at will.

Specific lighting is also offered so that you can walk around at night without inconveniencing your spouse or your friends.

Reversing camera : Audio - Day and Night View - Heated - Adjustable

The whole RAPIDO range has the advantage of a reversing camera (optionally-with pre-cabling as standard-for the 7FF and 9 series, and as an option on the 6 series). The camera is connected to a screen with built-in speaker, built into the dash board. The driver can therefore hear the instructions being given by someone behind the vehicle! Manoeuvring has never been so easy!

Fuel cell

Have all the power you need, wherever you are. The fuel cell is a power source located upstream of the battery. It constantly monitors the status of the battery charge and automatically starts to recharge it as soon as the charge falls below a given threshold.

Once the battery has been recharged, the fuel cell automatically returns to standby mode. You no longer need to keep an eye on the battery voltage indicator. The model offered by RAPIDO is the EFOY 1600.

No mechanical parts are involved in converting the liquid fuel (methanol) to electrical power, which provides silent operation.

Methanol shall be supplied by your distributor.

The fuel cell is offered:

- As standard on the 90dFH Series/ New Serie 10/ New Serie 9MH (cell+methanol included)
- Pre-cabling as standard for the 70+ and 9M series.

Let there be music and images!

The RAPIDO audio and video equipment gives you the impression of being in a cinema or an auditorium!

- The 6, 7FF and 9 series are equipped, as standard, with a PIONEER DEH 2200 radio with DVD player and USB port.

- The rest of the range is equipped, as standard, with the Pioneer AVH3200 Multimedia Station: DVD/USB/reversing camera.

- This hi-tech product is built in to the dashboard and fitted with a high-definition LCD 2 DIN colour screen with a 5.8" (14.7cm) LCD screen and touch screen user interface.

This enables you to:

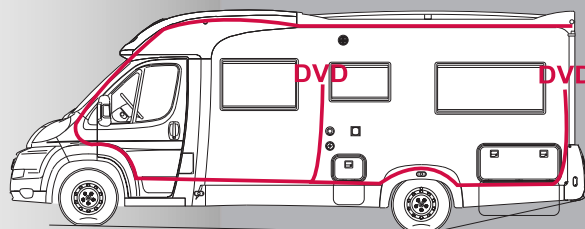

- play DVDs via its "DVD player" function,
- listen to the radio, RDS AM/FM tuner,
- listen to your own selection of music via its IPOD or MP3 connection via USB or SD Card.
- USB port on the front,
- Reversing camera input.

Standard initial equipment: double cabling for DVD

RAPIDO goes hand in hand with innovation. Nowadays, the radios fitted in RAPIDO models can play DVD films: for this purpose, RAPIDO has run an audio-video cable from the dashboard to the TV cabinet.

And a second audio-video cable enables you to connect a DVD player near the TV cabinet.

Safety

■ ABS (Antilock Brake System)

As standard on all the Series.

This prevents the wheels from locking during braking, optimises stopping distances and, above all, ensures that the motor home can continue to steer.

■ ASR (Anti Slip Regulation)

When there is loss of traction, this anti-skid system brakes the drive wheels to restore traction.

(not available on the FIAT automatic gearbox version)

■ ESP

(Electronic Stability Program)

ESP is an anti-slide system capable of braking one or more wheels to return the vehicle to its centreline. (Standard on 9M, option on 6/7FF/9).

■ FAVEX

The FAVEX system system (with electric control) enables you to use gas while travelling so that you can heat the living area or the hot water circuit.

■ Safety belts integrated on all the seats in the A-Class series

RAPIDO has chosen to fit all the cab seats in the A-class series with retractable safety belts with the receiver built into the seat. This enables the belt to adapt better to everyone's shape.

■ Belts for the rear passengers

The models with seats facing the road, including several side benches, are fitted with belts in the rear. Therefore all the models are fitted with at least 4 seatbelts.

■ Driver®Airbag

A driver's airbag is available as standard on all the models in the range.

■ Side rear-view mirrors

On all the A-Class models, these mirrors are set high for a better view and to avoid any danger to pedestrians.

■ Extra-wide rear track

All the models in the RAPIDO Fiat and Fiat AL-KO ranges are fitted with a extra-wide rear track (compared to the basic carrier) providing better stability on the road. Greater comfort and safety.

- 4 - Navigation GPS + DVD player

■ Double glazing

The A-Class models can be fitted with double glazing on the front cab's side windows (except driver door) to improve cab insulation and reduce mist and condensation.

■ Heated Floor

Option available for: low-profile 7090dF, 7066dF, A-Class 9002dFH, 9009dFH, 9066dF, 9090dF, 9092dF, 9096dF, Serie 10, 9M-MH.

The composite film incorporated into the floor provides soft warmth underfoot at floor level and therefore a real feeling of comfort.

■ Insulating cold-weather cladding

Option available across the range.

Soplaire Isothermic protection developed with RAPIDO, ensures maximum protection both Summer and Winter. It efficiently combats the thermal exchanges in the vehicle and the formation of condensation on the windshield.

■ WEBASTO Air Top 2000 S cab heating

(Available on Fiat and Mercedes A-Class)

The new cab heating system, which is in addition to and completely separate from the TRUMA or ALDE heating, eliminates condensation and droplets of water on the windscreen in the morning when the temperature is still cool in the cab. The energy source for the warm air heating is the vehicle's own fuel (Diesel).

Its low consumption is particularly useful for long periods of heating with the engine off (at night and during long breaks) and its heat emission from the moment the heating is switched on provides a rapid rise in temperature and genuine indoor comfort.

■ Navigation GPS + DVD player

Offered as an option across the range, the Pioneer AVIC- F920BT navigation system enables you, through a single colour screen built- into the dashboard, to:

- Follow your route through the European roads; with the SD card (supplied), you have all the maps of Europe and all the service areas in Europe,
- Enjoy a rear view when manoeuvring thanks to the reversing camera,
- Play DVDs via its "DVD player" function,
- Listen to the radio,
- Listen to your own selection of music by connecting it to an IPOD or MP3 player by means of a USB or SD card.

- 1 - Safety pack
- 2 - Symphonie audio pack
- 3 - Allow wheels
AL-KO 15" (HEAVY : 16")

■ Safety pack

This alarm, specifically developed to provide real peace of mind, is activated from the remote control for opening and locking the vehicle.

Contents:

- Volumetric hyper frequency alarm,
- Perimeter alarm,
- Gas detector (Chloroform, Ether, Ethane, Butane, Propane).

■ AIR suspension

New "AIR PREMIUM" suspension on AL-KO chassis.

This new rear suspension provides you with a real feeling of comfort and the assurance of damping out impacts for the living room furniture.

Available as an option only on the 70dF - 90dF Series fitted with Heavy chassis and the 90dFH / New 10 Series.

■ Allow wheels (option)

To customise the external style of your vehicle, the following alloy wheels are available as an option:

- Mercedes
- AL-KO 15" (HEAVY : 16")

■ Symphonie audio pack* A philharmonic orchestra in your living room!

Experience your emotions to the full while listening to your preferred music with XXL acoustic comfort. This pack consists of:

- 1 PIONEER subwoofer, combining together a cast aluminium heat sink, a woofer with an oval aluminium cone and a built-in 150W amplifier, providing very powerful bass. It also contains a cabled remote control for refining your settings,
- 2 additional speakers in the living room,
- And a further two speakers in the bedroom.

The sound is therefore harmoniously distributed throughout the living area and provides true listening quality.

*Available only on factory order.

■ Style pack: new smiling front face and foglights on low profile models

RAPIDO, in collaboration with Fiat, has developed 2 years ago a unique front face for the low profile range with the unique "RAPIDO smile". RAPIDO, thereby, demonstrates its know-how in terms of design and, by being the pioneer, its sense of innovation.

This new face is standard on the Serie 70⁺ in metallic grey colour, and white as an option, including foglights, on the 7FF and 70dF models (not available on the Serie 6).

Enjoy it!

Available as an option on Serie 7FF and 70dF

The boutique

RAPIDO

Since its launch, the RAPIDO boutique has already been emulated.

Here you can find a top-of-the-range selection of high-quality articles in keeping with the image of RAPIDO motor homes.

From pens to windcheaters, via helmets, champagne flutes and even umbrellas, you are sure to find something to suit you!

To be convinced, visit the RAPIDO shop now, at www.rapido.fr. Once you are on the Home page, click on the right-hand tab "RAPIDO Boutique" and select the products you are interested in. The all you have to do is go to your distributor.

Think about RAPIDO articles for your friends who will also appreciate their quality and good taste and give them pleasure as well!
