Coachman Collection 2012

This brochure has been designed to provide you with basic information prior to making a purchase decision. Please refer to your dealer for additional information before you buy.

Coachman Caravan Company Limited reserves the right to alter technical specifications, prices and model ranges as materials and conditions demand and can accept no responsibility for discrepancies between these and subsequent models. Household items illustrated in the brochure (e.g. fruit and personal effects) have been used to enhance photography and are not supplied with the caravan. Limitations in the printing process may mean colours are not truly represented.

It should be noted that distributors and dealers are not the agents of Coachman Caravan Company Limited and therefore are not authorised to bind the Company by any specific or implied undertaking or representation.

Please note: Touring caravans are designated by the model year. The model year runs from the 1st September to the 31st August: for example a 2012 year model would have been despatched by the manufacturer no earlier than the 15th August, 2011.

Please note: the method of calculating the MRO and payload figures has recently changed. Allowances for essential equipment (e.g. gas cylinders) previously allowed for in the user payload are now within the MRO. The provision for a leisure battery has been included within the personal effects payload allowances.

All Coachman models have been certified by the National Caravan Council for compliance with stringent European Standards, British Legislation and industry set Codes of Practice, specifically relating to health and safety issues. The approval process covers the testing and inspection of critical areas of the product from fire safety, weights and dimensions to gas, electrics and ventilation. Every Coachman caravan carries the "NCC Approved Caravan" badge. The NCC also conducts unannounced inspections at the Coachman factory to ensure continued compliance.

NCC Approval gives you peace of mind that your caravan is legal and safe.

The tow cars used in this brochure are for illustration purposes only.

As the owner of a Coachman caravan, you will be automatically entitled to join our Owners' Club. For more information about the Club, please contact: The Membership Officer, Coachman Owners' Club, 49 Regency Gardens, Yardley Wood, Birmingham, B14 4JS or visit their website: www.coachmanclub.co.uk

the journey starts here

It is over a quarter of a century since the first Coachman caravan was hand-crafted in Hull. Caravanning has changed a lot since then, but we continue to build all our caravans with the same care and attention, whilst improving our models every year.

For 2012, our award-winning Amaras have been improved, and our Pastiche, VIP and Laser ranges have been revolutionised. Thousands of man-hours have gone into creating what we believe to be our best ever caravans.

We started by taking advanced new materials that had never been used in the creation of UK tourers, to make every model in the new range stronger and lighter than ever before.

We then redefined the shape of the Pastiche, VIP and Laser, modernising and streamlining the design to include large panoramic windows and bigger doors, which make the caravans some of the brightest and most spacious that you can buy.

Finally, we added innovative new features, like mood lighting and a Truma Combi-boiler, to ensure that our caravans are warmer and cosier than they have ever been.

Simply put, our 2012 range of caravans are the best we have ever produced. Whether you are an experienced tourer or a first-time buyer, there is a 2012 Coachman to suit your needs.

Our priority is producing caravans that provide great value. We know that buying a caravan is a big investment, and that customers want to be certain that it will stand the test of time.

We use superior materials as standard, and every Coachman is built to ensure that it continues to function perfectly and look fabulous after many years of faithful service.

If you are looking for a new caravan, the journey starts here...

Laser – Simply the best

For those who demand the absolute best...

The all-new Laser features everything a discerning caravanner could want. With stunning interior design, sumptuous soft furnishings and spacious washrooms, the two models in the 2012 Laser range provide the best possible base for your next holiday.

The 640/4 provides the ultimate in comfort and convenience, with a fixed double bed layout, and the 655/6 boasts two sitting areas, with space for the whole family. If you want to experience the next level in luxury caravanning, look no further than the Laser.

2012 Laser features and benefits:

A brand new sleek, stylish shape, contemporary walnut interior design, and increased storage space are just some of the new features of the 2012 Laser.

An Alde wet central heating system, mood lighting and the largest panoramic window currently available on a UK tourer combine to make the Laser the last word in luxury touring.

PASTICHE

 **AMARA**

The Amara – Designed with families in mind

For families who want more from their holidays...

The 2012 Amara is the culmination of years of development and the product of our quest to create the perfect family tourer. It's become one of our most popular ranges, and as soon as you step inside you'll understand why.

Offering industry-leading build quality, exceptional style and excellent value for money, the Amara is all the caravan you will ever need to make the most of your leisure time.

Comfortable, well equipped and versatile, the Amara is perfect for new caravanners and seasoned tourers alike. With eight flexible layouts to choose from ranging from two to six berth configurations, there's sure to be an Amara model to suit every family and budget.

2012 Amara features and benefits:

Customers loved the multi-award winning 2011 Amara, and this year, we've made it even better. Using advanced new materials in the construction, the Amara is lighter and stronger than ever, so you don't need a 4x4 to tow many of the models.

The Amaras make effective use of every inch of space and there are configurations available with separate areas designed for children, which can be closed off. With lift-up bed bike storage, a Pioneer entertainment centre for rainy days, and a host of innovative new features, the 2012 Amara has something for everyone.

We know you want value for money when investing in a caravan, and with the Amara, you don't have to compromise on quality. Every caravan is hand-built by experienced teams to exacting standards. It's the Coachman way.

External Features

- Grade 3 thermal insulation
- Aluminium sides manufactured from thicker aluminium for greater impact resistance
- Provision for the AL-KO Secure wheel clamping system
- Shock absorbers
