## Milestones in development

- 1961** First motorhome named „Caravano“ on Borgward chassis
- 1971** Development and construction of the first Hymer motorhome
- 1973** Brand name "Hymermobil" established
- 1976** Front pulldown double bed patented for Hymer
- 1978** Introduction of the PUAL construction method
- 1979** Brand names "B-Class" and "S-Class" established
- 1981** Development of bestseller "544" layout
- 1984** 10,000th Hymer motorhome built
- 1985** Introduction of tightness guarantee of 6 years for all Hymer motorhomes
- 1989** First lift bed in a semi-integrated model, the Hymer Tramp 155
- 1993** Development of Hymer bonding technology
- 1995** Certification to DIN ISO 9001
- 1997** Introduction of double floor
- 2003** The Hymermobil tradename is declared a standard in the German language
- 2004** Production of 100,000th motorhome. "Goldenes Lenkrad" (Golden Steering Wheel prize) for the Hymer Tramp GT
- 2006** B-Class wins "Goldener Lenkrad"
- 2010** Multifunction double floor
- 2011** Hymermobil B-Class voted motorhome of the year for the 24th year in succession by motorcaravanners. Production of over 140,000 motorhomes.

1961: First Hymer motorhome „Caravano“

1972/73: Hymermobil 550

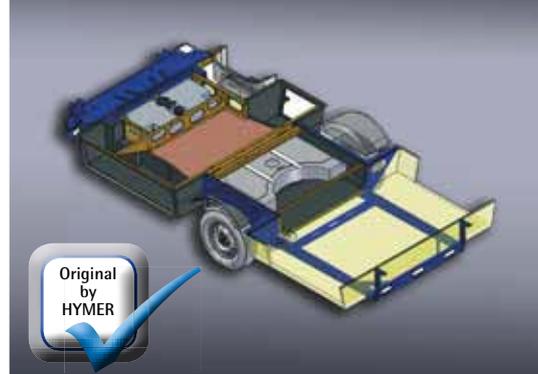

1982: Hymermobil 521

*50 years of HYMER motorhomes*

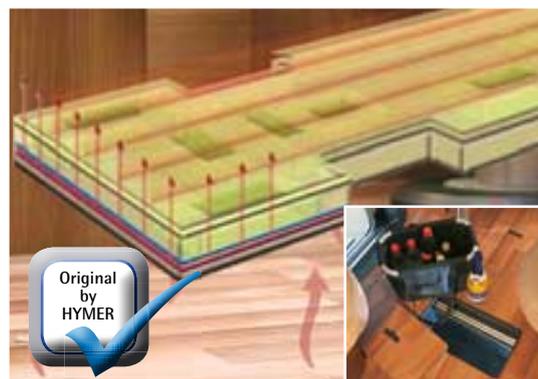

The front pull-down double bed patented for HYMER in 1976 was a milestone in motorhome development.

1997: The Techno-plus double floor provides a „cellar“ that has free through-loading space across the entire width of the vehicle.

1989: First lift bed in a semi-integrated vehicle, the Hymer Tramp 155.

2010: Multifunction double floor  
In this development the double floor offers a number of stowage compartments as well as warm air underfloor heating.

2011: Hymermobil B-Class StarLine 590

The development of the motorhome is largely parallel to the history of HYMER. Erwin Hymer is regarded as the pioneer in the development of motorhomes. His name was used in the generic name of the product that he developed, the "Hymermobil". The first motorhome was produced in Bad Waldsee as early as in 1961. It was called the "Caravano" and was built on a Borgward chassis. In 1971, development and construction started on the HYMER motorhome and in 1973, the brand name Hymermobil was introduced. The hallmark of the HYMER brand is continuous innovation. A role model and standard for many manufacturers.

## More than 50 years of experience in building leisure vehicles

- Body structure technology perfected
- Furniture construction perfected
- Know-how perfected

## The original

- Inventor of the integrated motorhome with lift bed
- Benchmark and role model for an entire generation of motorhomes

## Body structure technology

- PUAL sturdy, insulating, airtight
- Fully bonded body

## Excellent insulation properties

- Combined with professional heating systems
- Every model series undergoes a cold chamber test
- Optimum heating duct layout throughout the vehicle
- All utility systems housed in a protected space

## Perfected furniture construction

- Use of high-quality plywood
- Absolutely stable, despite lightweight construction
- High-quality wood joints
- Sturdy hinges and locks

*Enthusiasm starts with high quality and ends with the aim for perfection.*

## High safety level

- Safety tested to GS standards
- Sturdy body structure
- Crash tested
- Many safety options such as ESP, TC, airbags

## Quality

- Long service life
- Comprehensive quality controls
- Certified to DIN ISO
- Subjected to cold chamber, vibration and sprinkle tests

## Value retention

- High resale value

## Excellent value for money

- High-quality standard equipment
- All Fiat models with standard 130 hp engines
- L-shaped seating group standard on most models

## Design

- Timeless and elegant
- Appealing harmony of interior design

## Convincing model range

- The right vehicle for every desire

## Inspections

- World-wide service network with 450 dealerships Awards
- B-Class voted Motorhome of the Year 24 times in succession.
- Winner in reader surveys 65 times in 25 years.

Step into the world of Hymer. High-quality leisure vehicles built using the most modern production technology in the world. You can rely on the HYMER brand – the brand that sets the standard that interprets the pace of progress perfectly.

Original by  
HYMER

Excellent  
insulation

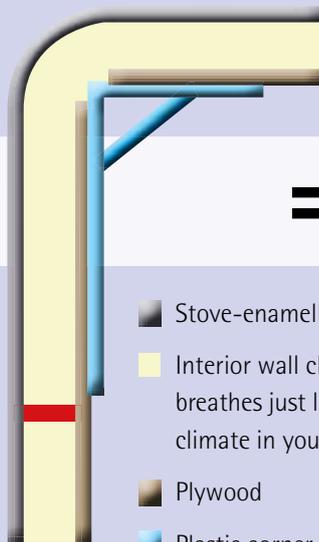

Perfect  
interior  
climate

No  
conden-  
sation

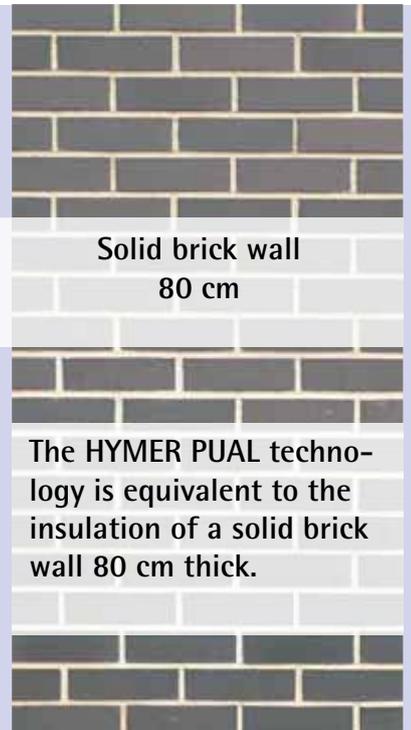

PUAL wall  
3.5 cm

=

=

Solid brick wall  
80 cm

The HYMER PUAL techno-  
logy is equivalent to the  
insulation of a solid brick  
wall 80 cm thick.

- Stove-enamelled aluminium
- Interior wall cladding that breathes just like the healthy climate in your home!
- Plywood
- Plastic corner sections
- Mixed polymer adhesive

*A unique idea sets standards  
– the PUAL System.*

**Good for the environment**  
Aluminium is 100% recyclable.

**Long-life paintwork.**  
Excellent resistance to UV radiation.

**Easy to clean.**  
Special dirt-repellent paintwork.

- This advanced technology with solid foam side panels and roofs from a single mould offers excellent insulation properties.
- The insulation factor is comparable to a solid brick wall measuring 80 cm thick. Cold chamber tests repeatedly indicate excellent results.
- No cold thermal bridges, no heat loss, low energy requirements. This construction method also features absolute watertightness and rot-resistant technology with tightness guarantee.
- The full body packet includes the bonding technology process for side panels and roof as used in aircraft and automobile construction.
- All wall/roof joints are bonded, not bolted.
- The inside wall and roof cladding with "breathing effect" produces an interior climate similar to your home.

For example, the PUAL System is a unique construction with which HYMER has been setting the pace in automotive engineering since 1978. The excellent insulation of the closed-pore PU foam guarantees a pleasant interior climate in summer and cosy warmth in the cold winter months. The outer skin is made of stove-enamelled aluminium and the inside walls are clad with breathable plywood.

*Ambitious striving to achieve even greater driving safety.*

- Top crash ratings.  
HYMER motorhomes are tested to the latest state of the art.  
Original crash box in the engine compartment for absolute safety.
- Driver and passenger airbags. Modern headlight technology with daytime running lights and static cornering lights.  
A HYMER development.
- Large panorama windscreen for excellent visibility while driving.
- Free view of the suspended exterior mirror with wide-angle insert.
- Two sun visors under the front overhead bed protect your eyes when the sun is low. 3-blade windscreen wiper system with larger wiper blades for a clear field of view even in bad weather conditions.
- 3-point seat belts on the L-shaped seating group for passenger safety.
- 4-channel full air suspension for even better driving comfort (depending on the model).

Safety First. HYMER is the first motorhome manufacturer to subject its vehicles to extensive crash tests. This is one of the essential measures to tune passive safety to the highest level. Stowage compartments located along the vehicle centreline for even better driving stability.

# *HYMER Van*

## *Dynamic driving pleasure*

### *Highlights of the HYMER Van:*

- Based on Ford Transit chassis with ABS, ESP, TC, driver airbag and cruise control
- Compact, narrow and manoeuvrable due to outer width of 2.14 m
- Compact layouts with no compromise

- Option: exclusive raised roof
- Ultra comfortable seating group
- Rear garage
- Vario bathroom with large flexible shower
- Rear wardrobe easy to reach when bed is folded up
- Generous kitchen with plenty of stowage space
- Excellent insulation in summer and winter thanks to PUAL body technology

## *HYMER Van 512*

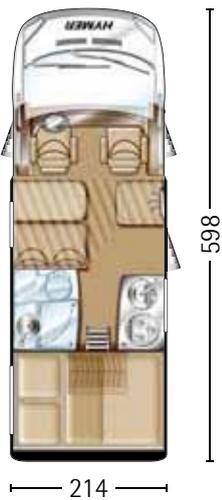

Simply a stroke of genius! The efficient use of space is fascinating and achieved through functional and intelligent design. A special feature is the raised rear double bed with spacious wardrobe underneath. The generous size bed is easy to access using a comfortable step.

Van 512 3.500 kg [ 3.850 kg ]

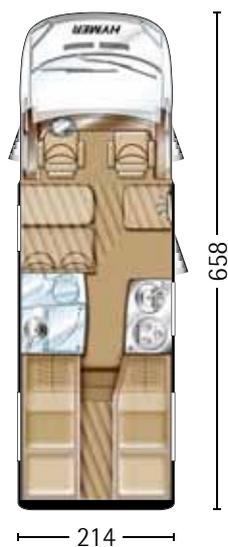

## HYMER Van 512

The emphasis is on comfort, from the cockpit to the rear. The seating group offers comfort and space for up to five people. On request there is an elevating roof with a bed flooded with light and equipped with a comfortable jumbo double bed that measures 2.00 x 1.50 metres.

Van 562 3.500 kg [ 3.850 kg ] ☾ ★★ [ ★★★ ]

The HYMER Van 562 features a sleeping area with longitudinal single beds. Easily accessible by steps, with bedside table in the middle and clever design details, such as the wardrobe under the left single bed and stowage space with pull-outs under the right single bed.

## HYMER Van 562

Vario bathroom

Sleeping area in Van 562

*Dream relaxed and wake up refreshed.*

wardrobe under the single bed

linen cupboard under the single bed

Sleeping area in Van 562

The Vario bathroom in the HYMER Van models with elegant washbasin, high bathroom cupboard, fresh water flushing toilet and shower. The large wall mirror and the washbasin are one unit and can be swivelled completely through 90° to produce a spacious shower cubicle.

The sleeping area in the HYMER Van 562 offers a full size bed. The high-quality slatted frame and foam mattress with open-pored cellular structure ensure very high air permeability. By using an additional foam mattress, the entire area can be converted into a continuous sleeping area. The wardrobes are under the beds.

# *HYMER Tramp CL*

## *Travelling pleasure all inclusive.*

### *Highlights of the HYMER Tramp CL:*

- Based on Fiat Ducato chassis with ABS and 130 hp engine
- Fiat low frame chassis with wide track rear axle
- Power windows, central locking and driver airbag
- Comfort L-shaped seating group with lounge cushions
- Modern furniture concept with perfect space utilisation

- Large rear garages or stowage space at the rear
- Bathrooms with separate shower
- Generous kitchen with round sink and large 3-hob cooker
- Beds with high-quality interior sprung mattresses on slatted frames
- Truma heating system, 6000 watts
- Excellent insulation in summer and winter thanks to PUAL body technology

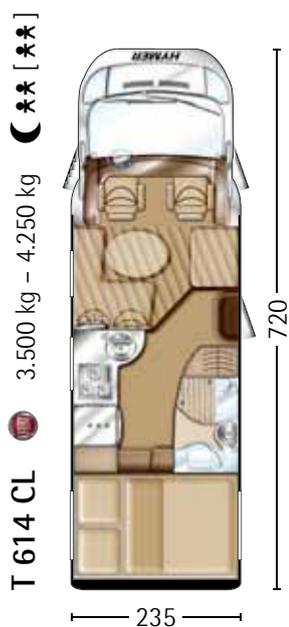

*HYMER Tramp 674 CL*

The interior design reflects the very best in ergonomic comfort. The ultra comfortable L-shaped seating group with the ergonomically designed large seat depth and lounge-style backrests forms the focal point in all Tramp CL models. The Merano pear wood furniture style with dark borders underlines the stylish lines with elegant rounded edges.

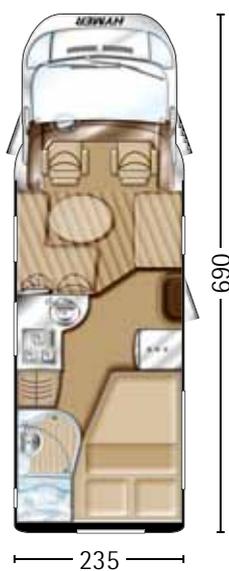

## T 614 CL

The focal point of the comfortable seating group (with several different layouts) is the sophisticated upholstery design in two matching upholstery fabrics. A simple conversion converts this area to be used as an additional bed. The comfort bathroom and the transverse double bed in the sleeping area are the noticeable features of this layout.

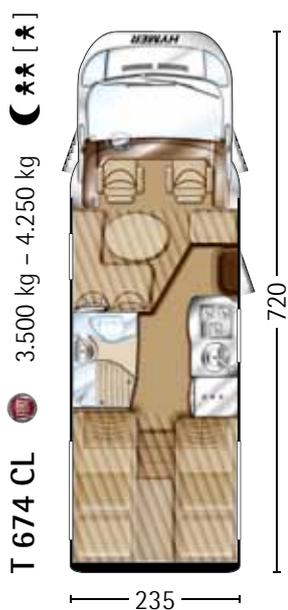

T 654 CL ● 3.500 kg – 4.250 kg ☾ ★★ [★★]

Unbelievable! It includes a longitudinal double bed, Vario comfort bathroom and magnificent seating group in a compact overall length and integrates every modern convenience that belongs in a comfortable, exquisite vehicle. A dynamic comfortable residence which makes every journey into a special pleasure. The large wardrobe offers plenty of space, even for large clothes.

*T 654 CL*

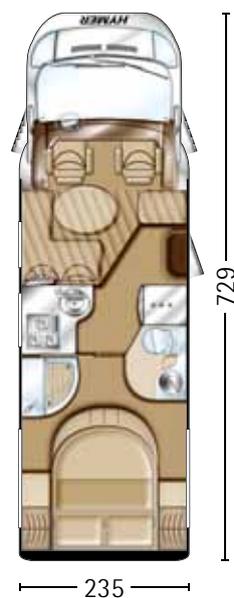

## T 674 CL

The generosity of the interior layout of the HYMER Tramp 674 CL is not only reflected by the comfortable seating group design. A special comfort feature is the sleeping area with longitudinal single beds at the rear of the vehicle. On request a hinged panorama roof with integrated sun roller blind above the driver's cab brings even more sunshine into the vehicle. A practical feature is the shoe cupboard right next to the entrance door.

T 698 CL ● 3.500 kg – 4.250 kg ☾ ★★ [★]

A look into the sleeping area shows the queen-size bed and the dream-like atmosphere of a luxury vehicle. A high level of comfort is offered by two wardrobes next to the bed and the en-suite bathroom located opposite the shower cubicle next to the toilet room. The entire bathroom/sleeping area can also be separated from the living area by a wooden sliding door.

## T 698 CL

Comfort bathroom in the T 614 CL and T 674 CL

## *Exuding comfort.*

Whether you are in the bathroom, sleeping area or kitchen, you always find well-conceived solutions everywhere. The comfort bathroom has elegant acrylic glass doors for the shower cubicle. Then there is the Vario comfort bathroom which has a wall cupboard mechanism which swivels the washbasin over the bench toilet to make a separate shower cubicle. Four different sleeping areas are the features

En-suite bathroom in the T 698 CL

Vario comfort bathroom in the T 654 CL

L-shaped kitchenette in the T 614 CL

Rear single beds in the T 674 CL

Rear single beds in the T 674 CL

of the Hymer Tramp CL models. Transverse double bed, Longitudinal double bed, single beds or queen-size bed. The most comfortable surface to lie on is a slatted frame with an interior sprung mattress padded with PUR foam. The kitchen is highly functional with the HYMER comfort cooker equipped with a split cover, flexible work tops and two or three hobs.

# *HYMER Tramp 2x2*

## *More space for dreams*

### *Highlights of the HYMER Tramp 2x2:*

- Based on Fiat Ducato chassis with ABS and 130 hp engine
- Fiat high frame chassis with wide track rear axle
- Power windows, central locking and driver airbag
- Standing height 2.09 m
- Optional with lift double bed above seating group

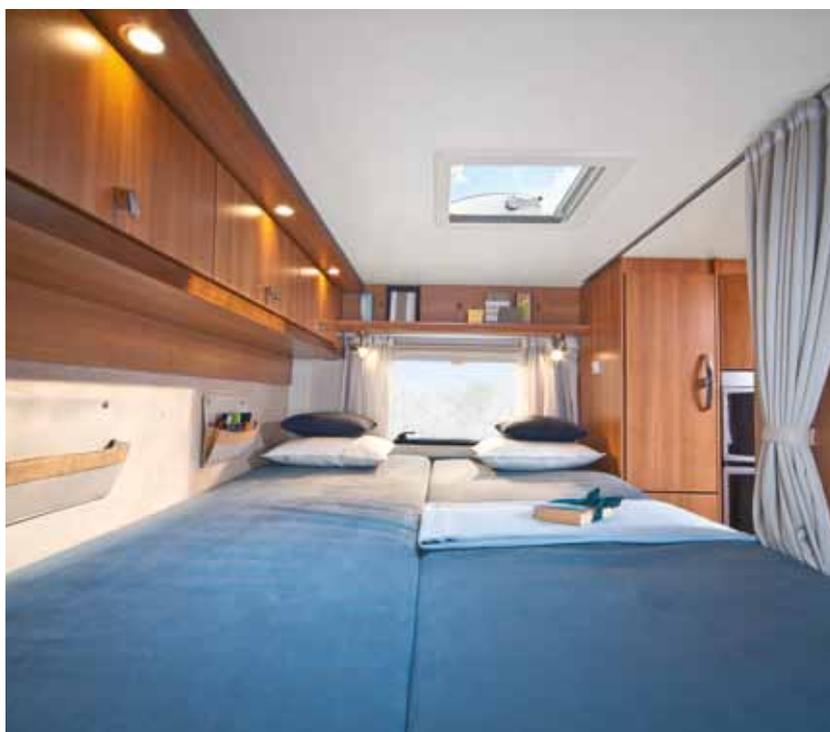

- Comfort L-shaped seating group with lounge cushions
- Modern furniture concept with perfect space utilisation
- Large rear garages or stowage space at the rear
- Bathrooms with separate shower
- Generous kitchen with round sink and large 3-hob cooker
- Beds with high-quality interior sprung mattresses on slatted frames
- Truma heating system, 6000 watts
- Excellent insulation in summer and winter thanks to PUAL body technology

*HYMER Tramp 2x2 with lift double bed.*

An additional lift double bed measuring 1.98 x 1.42/1.20 metres is a special feature on the 2x2. The models also offer dreamy sleeping places for four people. When the lift double bed (option: power operated) is raised, there is still plenty of headroom underneath. Semi-integrated models with lift beds are something of a tradition at HYMER. The first lift bed was developed for the Hymertramp 155 in 1989.

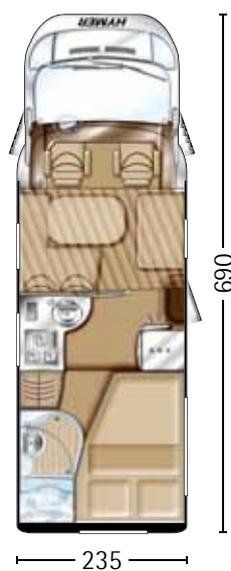

## Tramp 2x2 614

Warm colours and rounded shapes are the main highlights of the harmonious interior. The high-class workmanship of the upholstery on the comfortable seating group makes an inspiring impression when the driver's cab seats are swivelled round. The large table is also inviting. At the rear, a transverse double bed creates the right atmosphere for the sleeping area.

T 2x2 654 ● 3.500 kg [ 4.250 kg ] ☾ ★★ [ ★★★★★ ]

Take a glimpse of the perfect lounge seating group. The design is quite clear from this perspective. The seating group is generously padded, with precise seating pressure distribution, excellent pressure shape response and high supporting force which makes sitting extremely comfortable. The sleeping area is equipped with a double bed.

## Tramp 2x2 654

*HYMER Tramp 2x2 674*

The spaciousness and special comfort of the layout in the HYMER Tramp 2x2 674 is not only determined by the seating group design but also from the sleeping area with its longitudinal single beds at the rear of the vehicle. The elevated beds are very easily accessed by steps and offer plenty of space underneath. At the end of the centre aisle is a wardrobe. The steps are lockers with hatch doors and there is plenty of space at the foot end of the beds for linen.

Vario comfort bathroom in the T 654 2x2

Comfort bathroom in the T 614 and T 674 2x2

*The entire interior invites you to relax and enjoy.*

Stowage space and wardrobes

L-shaped kitchenette in the Tramp 674 2x2

You will find intelligent solutions everywhere – in the kitchen, bathroom or sleeping area. The kitchen is easy to clean, practical and attractive. High-quality worktops with ultra deep sink and plentiful storage cupboards offer generous space. The bathrooms have several layout variants and are refreshingly spacious. It's so easy to feel at home. The sleeping area solutions are optimised to provide a large amount of stowage space.

# *HYMER Exsis-i*

## *Slim, compact, integrated*

### *Features of the HYMER Exsis-i:*

- Based on Ford Transit chassis with ABS, ESP, TC, driver airbag and cruise control
- Daytime running lights integrated in HYMER headlights
- Compact, slim and manoeuvrable due to an external width of 2.14 m
- Compact layouts without any compromises

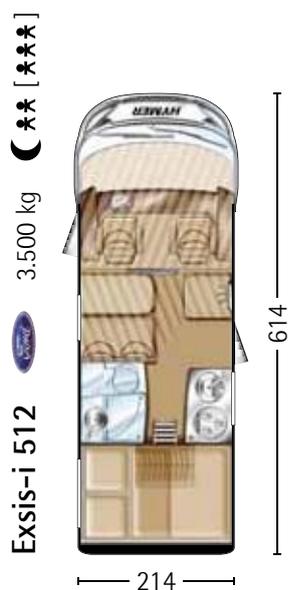

- Ultra comfortable seating group
- Optional with pull-out lift double bed in the driver's cab (extends to a bed measuring 2 m x 1.80 m)
- Vario bathroom with large flexible shower
- Rear garage
- Generous kitchen with plenty of stowage space
- Wardrobe at the rear easily reachable by raising the bed
- Excellent insulation in summer and winter thanks to PUAL body technology

*HYMER Exsis-i 562*

The HYMER Exsis-i offers the most compact shape to experience an integrated HYMER motorhome. The HYMER Exsis-i 562 impressively demonstrates the fascinating feeling of space in a narrow vehicle. The seating group with the bench seat opposite invites you to try out the generous seating comfort. The easily accessible comfortable single beds in the sleeping area show the spaciousness, with bedside table in the middle and clever details such as wardrobe storage space under the beds.

## Exsis-i 512

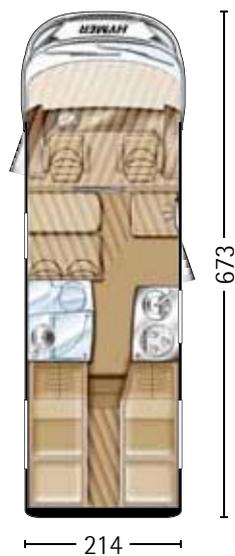

With a total length of 6.14 metres and a width of 2.14 metres, everything that a motorhome could possibly need is on board. By swivelling the driver and front passenger seats, the seating group offers plenty of room for a family of five. At the rear of the vehicle you will find an elevated transverse double bed with wardrobe underneath and a generous garage that is easily reached through the garage door.

Exsis-i 562

3.500 kg

This vehicle differs from the others by its spacious sleeping area which is fitted with longitudinal single beds. They are elevated and easily accessible by two steps. Underneath are two wardrobes and a garage that is reached from the outside garage door. The seating group together with the bench seat on the side offer a high level of sitting comfort.

*Exsis-i 562*

Front double bed

Sleeping area in the Exsis-i 562

*Dream, enjoy, relax.*

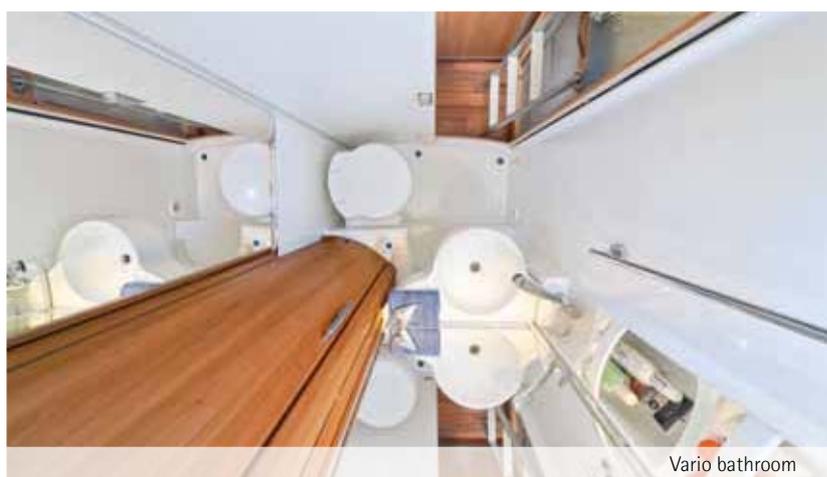

Exsis-i 562: kitchen

Sleeping area in the Exsis-i 562

Vario bathroom

A special feature of the HYMER Exsis-i models is the optional lowerable and pullout front king-size double bed measuring 2 metres long and 1.80 metres wide. The kitchen offers a large worktop, a deep stainless steel sink and a tall water tap. In the sleeping area the single beds can be converted into an enormous bed by inserting an additional mattress. The Vario bathroom features a generous washbasin and high bathroom cupboard.

# *Hymermobil B-Class*

## *B-Class highlights:*

- Based on Fiat Ducato chassis with ABS and 130 hp engine
- Fiat low frame chassis with wide track rear axle
- Perfect visibility in the driver's cab
- Very high quality interior appointments
- Superior heating concept for optimum interior climate

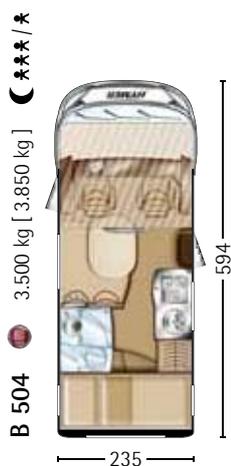

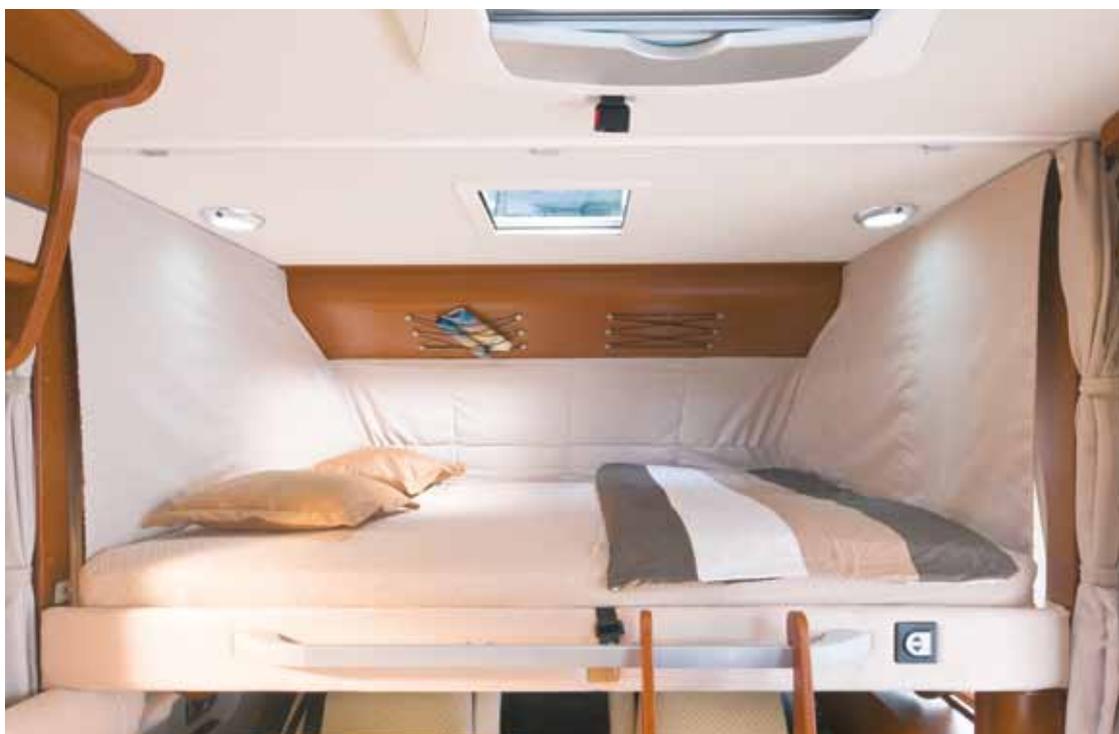

- Heated, extra strong multifunction double floor
- Continuous standing height throughout the whole length of the vehicle
- Comfort en-suite bathrooms with large headroom
- Optimised stowage space concept
- Wide, comfortable lift bed – option: power operated
- Kitchen with long-life mineral chip finish
- Excellent insulation in summer and winter thanks to PUAL body technology

*Hymermobil B-Class 694*

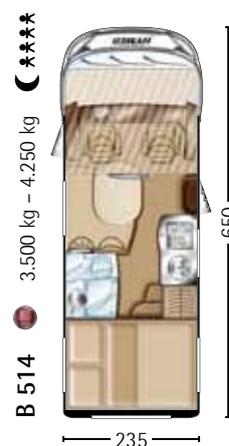

The B-Class models are all functional and elegant. Their charisma and character ideally embody what an integrated motorhome should be. The ultra comfortable lounge seating group, the bench seat opposite and the ergonomically designed cockpit chairs with wide armrests flank the large table that can be moved either lengthways or sideways or swivelled through 360 degrees. Under the bench seat is a large stowage compartment.

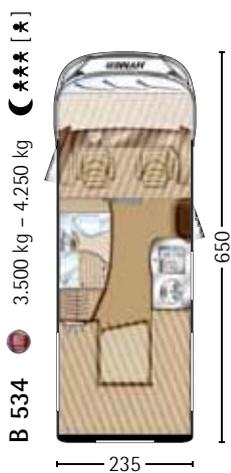

## B-Class 504

Compact and comfortable, not even six metres long but it accommodates a comfortable lounge seating group with a large movable table, a "single room" with transverse bed at the rear and a Vario bathroom. The interior concept ideally combines ergonomic design and homeliness. Even this compact model includes a spacious garage.

This model has a comfortable rear double bed and extra space in the large garage. The ergonomically shaped swivelling drivers cab seats with matching arm rests help make the perfect lounge seating group. Another excellent feature is the canopy lighting with LED ceiling spots above the lift bed and the adjustable reading spots.

## B-Class 514

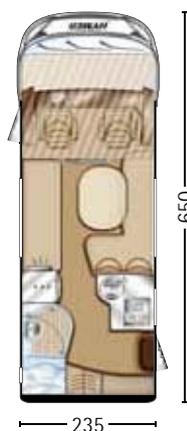

## B-Class 534

This classic model has the popular jumbo round seating group at the rear of the vehicle. The fixed table can be lowered and an additional mattress can convert the seating group into a magnificent sleeping area. A large split full-height wardrobe is a further highlight on this model. Optional extras include a third and fourth seat in the rear. The rear transverse bench seat has power height adjustment and large garage doors on the far side and near side.

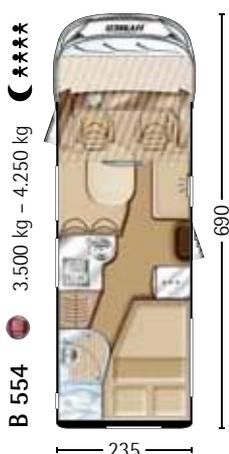

B 544 ● 3.500 kg – 4.250 kg ☾ ★★★ [★★]

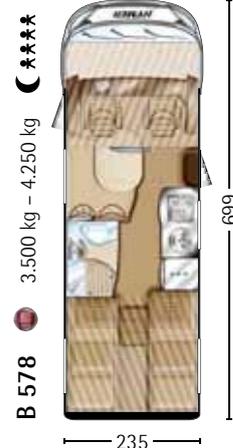

As spacious as home, this lounge has a feeling of excellence. The generous lounge seating group with dream-like sitting comfort forms the core of this model. There is even room for a larger gathering. The single column table with genuine wood frame is movable lengthways and sideways depending on the space available. The cloak rack and the cleverly split wardrobe are located right next to the rear entrance doors.

## B-Class 544

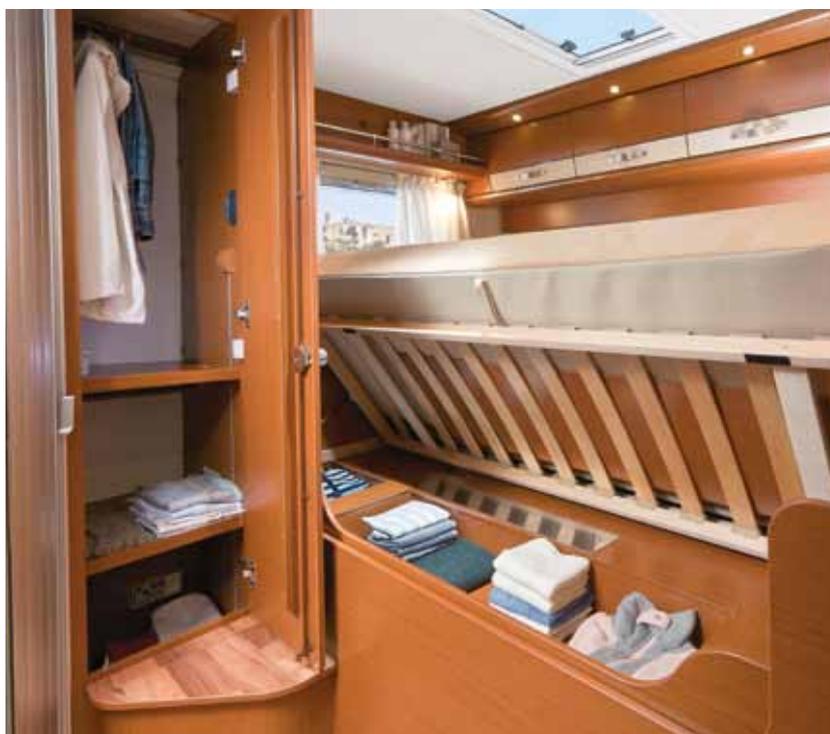

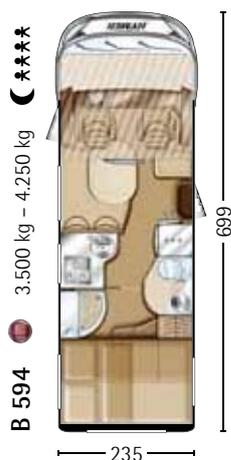

## B-Class 554

Not only does the magnificent living area exude luxury. The striking features on this model are at the rear in the sleeping area, which boasts a double bed, a Vario comfort bathroom and a spacious wardrobe. Besides the functional interior design, including the elegant and easy to clean kitchen, there are the warm tones of the "Marasca Select" style furniture which produces a harmonious living ambience.

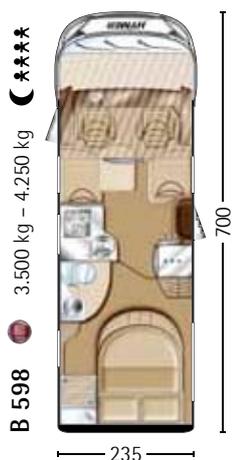

Access the elevated single beds via the comfortable steps, the perfect layout with the comfort bathroom. The beds, almost 2 metres long, offer plenty of space to dream away the day. On request, an additional mattress and an extendable ladder can be supplied to convert the entire vehicle width into a "sleeping area". Micro-fibre clad walls, flexibly adjustable reading spots and a wardrobe which can fold out on request, are the small touches which add to the genuine sleeping area atmosphere.

## B-Class 578

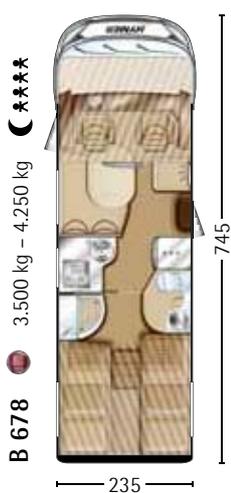

## B-Class 594

Comfort with excellence, plenty of space and a fantastic en-suite bathroom. This unique living area solution with generous layout features not only a familiar lounge seating group but also interesting details at the rear. The sleeping area is incredibly flexible, with plenty of storage space under the rear double bed. On request the bed can be power raised by about 30 cm to enlarge the garage underneath to accommodate large sports equipment.

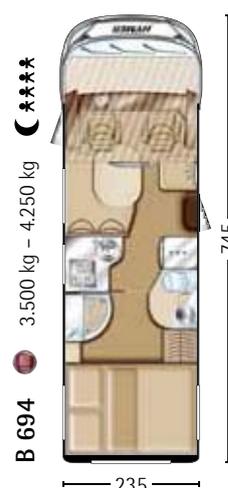

There is plenty of space to move with the queen-size bed in the sleeping area. The living area is dominated by the comfortable half seating group. The seat boxes contain two more comfortable pilot seats (option) so that four people can enjoy a high level of driving comfort. The sleeping area is extremely comfortable and contains a queen-size bed that is accessible from all sides.

## B-Class 598

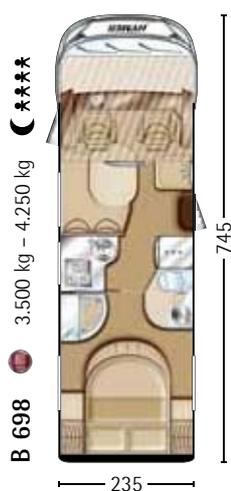

## *B-Class 678*

The generous space includes a layout that offers single beds in the sleeping area. A luxurious atmosphere, in an extremely sought after layout, meets many discerning demands. The comfortable en-suite bathroom follows onto the sleeping area which is separated from the living area by a wooden sliding door. The living area comprises an L-shaped kitchenette and a fridge-freezer combination that even meets the high demands of a professional chef.

Function and harmony right down to the last detail. The high-quality furniture in the „Marasca Select“ furniture style, the practical, spacious and easy to clean kitchen fitted with a laminated work top with mineral chip finish and sturdy slightly raised edges reveal the high precision. The sleeping area with double transverse beds and en-suite bathroom gives the impression of extreme spaciousness. The multifunction double floor offers many small storage compartments.

## B-Class 694

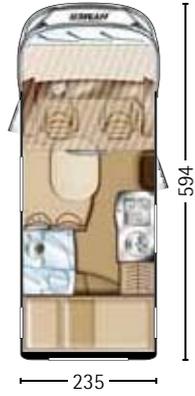

## B-Class 698

Top class in all areas. Besides the luxurious lounge seating group, this model has a special feeling of space due to the well thought-out L-shaped kitchenette, the rear area curtained off by a sliding door comprising the bathroom, shower cubicle and especially the queen-size bed. There is plenty of room around the dreamy bed that features an ergonomic height and generous linen drawers. Two wardrobes on either side of the bed head. In between, open stowage space, overhead storage cupboards and flexibly adjustable reading spots.

### Multifunction double floor

- 1 The heated multifunction double floor for more safety, stability and stowage space.
- 2 Centrally fitted Truma heating system (6000 W) in the seating group

### No stowage space problems

- 3 Perfectly tidy and systematic arrangement.
- 4 Easily accessible garage.
- 5 Exterior storage compartment under seating group.
- 6 Exterior storage compartment under seating group. Supply unit accessible from outside.
- 7 Exterior storage compartment under seating group. With through-loading option.
- 8 Heated underfloor compartments and shoe compartments in the double floor and in the entrance area for more tidiness.

The multifunction double floor on the Hymermobil B-Class models acts as an underfloor heating system. Together with the warm air heating system, it creates a pleasant climate in any season. It also provides safe shelter from frost for the utilities, battery and water tanks. The AGM batteries (95 Ah) next to the heating system are accessible from the outside. The heated garage also offers plenty of space and stowage space.

*Hymermobil B-Class  
Everything has its place here.*

### Plenty of space up and down

- 1 Stowage compartment under the lounge bench seat.
- 2 Deep overhead storage cupboards and surfaces.
- 3 GRP shower tray with stowage bag in the double floor.
- 4 Additional drawers in the queen-size bed.
- 5 Stowage space under the queen-size bed B 698.
- 6 Wardrobe in the B 578 and steps used as stowage space.
- 7 Linen compartment under the rear transverse bed.
- 8 Practical hatch next to the entrance door.
- 9 Fixed rear bed steps with practical hatch covers.

5

8

9

Luggage space is no problem with HYMER. Storage compartments are in plentiful supply. There is plenty of space for large leisure equipment in the garage and the stowage compartments. Every corner is used in the interior. Deep overhead storage cupboards, flexible wardrobes and various stowage compartments under the beds are everywhere. Everything has its place here.

# *Hymermobil B-Class SL*

## *B-Class SL highlights:*

- Based on Fiat Ducato chassis with ABS and 130 hp engine
- AL-KO low frame chassis with wide track rear axle
- Ultra modern, exclusive HYMER headlights
- Specially elegant, high-quality interior
- Beautiful lounge seating group with intricate upholstery design with two matching upholstery fabrics

- Light system with individually adjustable lighting scenes for pleasant mood lighting
- Techno-plus double floor with insulated and heated underfloor stowage space and high loading capacity
- Fully functional kitchen
- HYMER panorama roof ventilator fans 80 x 50 cm, dual glazing, with integrated LED lighting, folding blackout system and insect screen
- Excellent insulation in summer and winter thanks to PUAL body technology

*Hymermobil B-Class 674 SL  
Stylish decor.*

Experience a fascinating life of luxury. The living area radiates timeless elegance and exclusiveness. The visible high-class style conceals practical utility. The single column table with its high-gloss finish and real wood edges can be moved lengthways and sideways and blends in well with the kitchen worktop.

*Hymermobil B-Class 674 SL*

Rounded shapes form an attractive interior. The living area ideally integrates the height adjustable driver and front passenger lounge seats to form a luxurious lounge seating group. The furniture designed in "Toscana cherry wood" finish lends an equally modern and timeless effect. The convenience of the kitchen unit is unsurpassed and comprises a large work top and many drawers. The single-bed sleeping area provides a multitude of storage possibilities.

*Hymermobil B-Class 524 SL*

The elegant living ambience features the high gloss beautifully shaped overhead storage cupboard doors fitted with mechanical locks. The layout of the Hymermobil B-Class 524 SL model focuses on pleasure and comfort, with sophisticated upholstery design on the lounge seating group. A dreamlike L-shaped kitchenette with plenty of work surfaces and a practical, split wardrobe are highlights on this model.

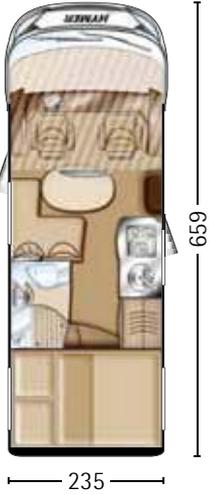

## *B-Class 524 SL*

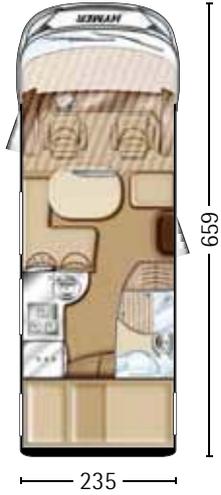

The rear single bed is even large enough for tall people at over 2 metres in length. A flexible TV bracket in the living room lets you enjoy your favourite TV programmes from any of the many seats. Practical and functional solutions in all areas are combined into an opulent equipment portfolio. In everyday usage they become a convenience to be taken for granted.

### Techno-plus double floor

- 1 Clear through-loading facility across the entire width.
- 2 385 mm loading height around the storage pans.
- 3 Alde underfloor heating system
- 4 Convectors for Alde warm water heating.
- 5 Exterior storage compartments.

The Techno-plus double floor not only offers insulated and heated underfloor storage space, the special low frame chassis also ensures better driving stability, optimised weight distribution, optimal handling and results in a lower vehicle height. In addition, loading capacity is greater and the interior has a continuous floor at the same height.

# Hymermobil B-Class StarLine

## *B-Class StarLine highlights:*

- Based on Mercedes Sprinter chassis with ABS, ESP, EBB, TC, BAS, AAS and 163 hp
- Driver's cab air conditioning system, cruise control, driver

- and front passenger airbags
- Driver's door with electric window
- Electrically operated and heated exterior mirror
- Very high quality interior appointments
- Superior heating concept for optimum interior climate

- Wide, comfortable lift bed – option: power operated
- Kitchen work top with long-life mineral chip finish
- Excellent insulation in summer and winter thanks to PUAL body technology
- 170 litre fresh water and 135 litre waste water tanks

- 160 litre jumbo fridge with separate freezer compartment
- Comfort entrance doors with window and insect screen
- Large rear garages including doors on near side and far side
- Radio/TV preparation including loudspeaker, wiring and TV bracket

*Hymermobil B-Class StarLine 595  
The pinnacle of elegance.*

The warm tones of the Marasca Select style furniture harmonise with the high quality and pleasantly soft padded seats in the lounge. The light beige inlays in the overhead storage cupboards and the kitchen unit are attractive. The pilot seats, with wide folding armrests, swivel through 360° to meet the single column table with handcrafted real wood frame in the living area.

- 1 Safe entrance doors with window fitted with darkening blind, stable handles and small storage box.
- 2 Large doors on far side and near side to allow easy access to garage.
- 3 Accessible from inside and out: the stowage compartments under the lounge seating group.
- 4 Centrally placed: the Truma heating under the lounge seating group.
- 5 HYMER Panorama roof vent 80 x 50 cm, double glazed with LED lights in the living area.
- 6 Linen cupboard under the single beds.
- 7 Folding blackout system in the driver's cab with powered shutter blinds on the front windscreen.
- 8 Suspended exterior mirrors in body colour, electrically heated and adjustable including wide angle mirror.

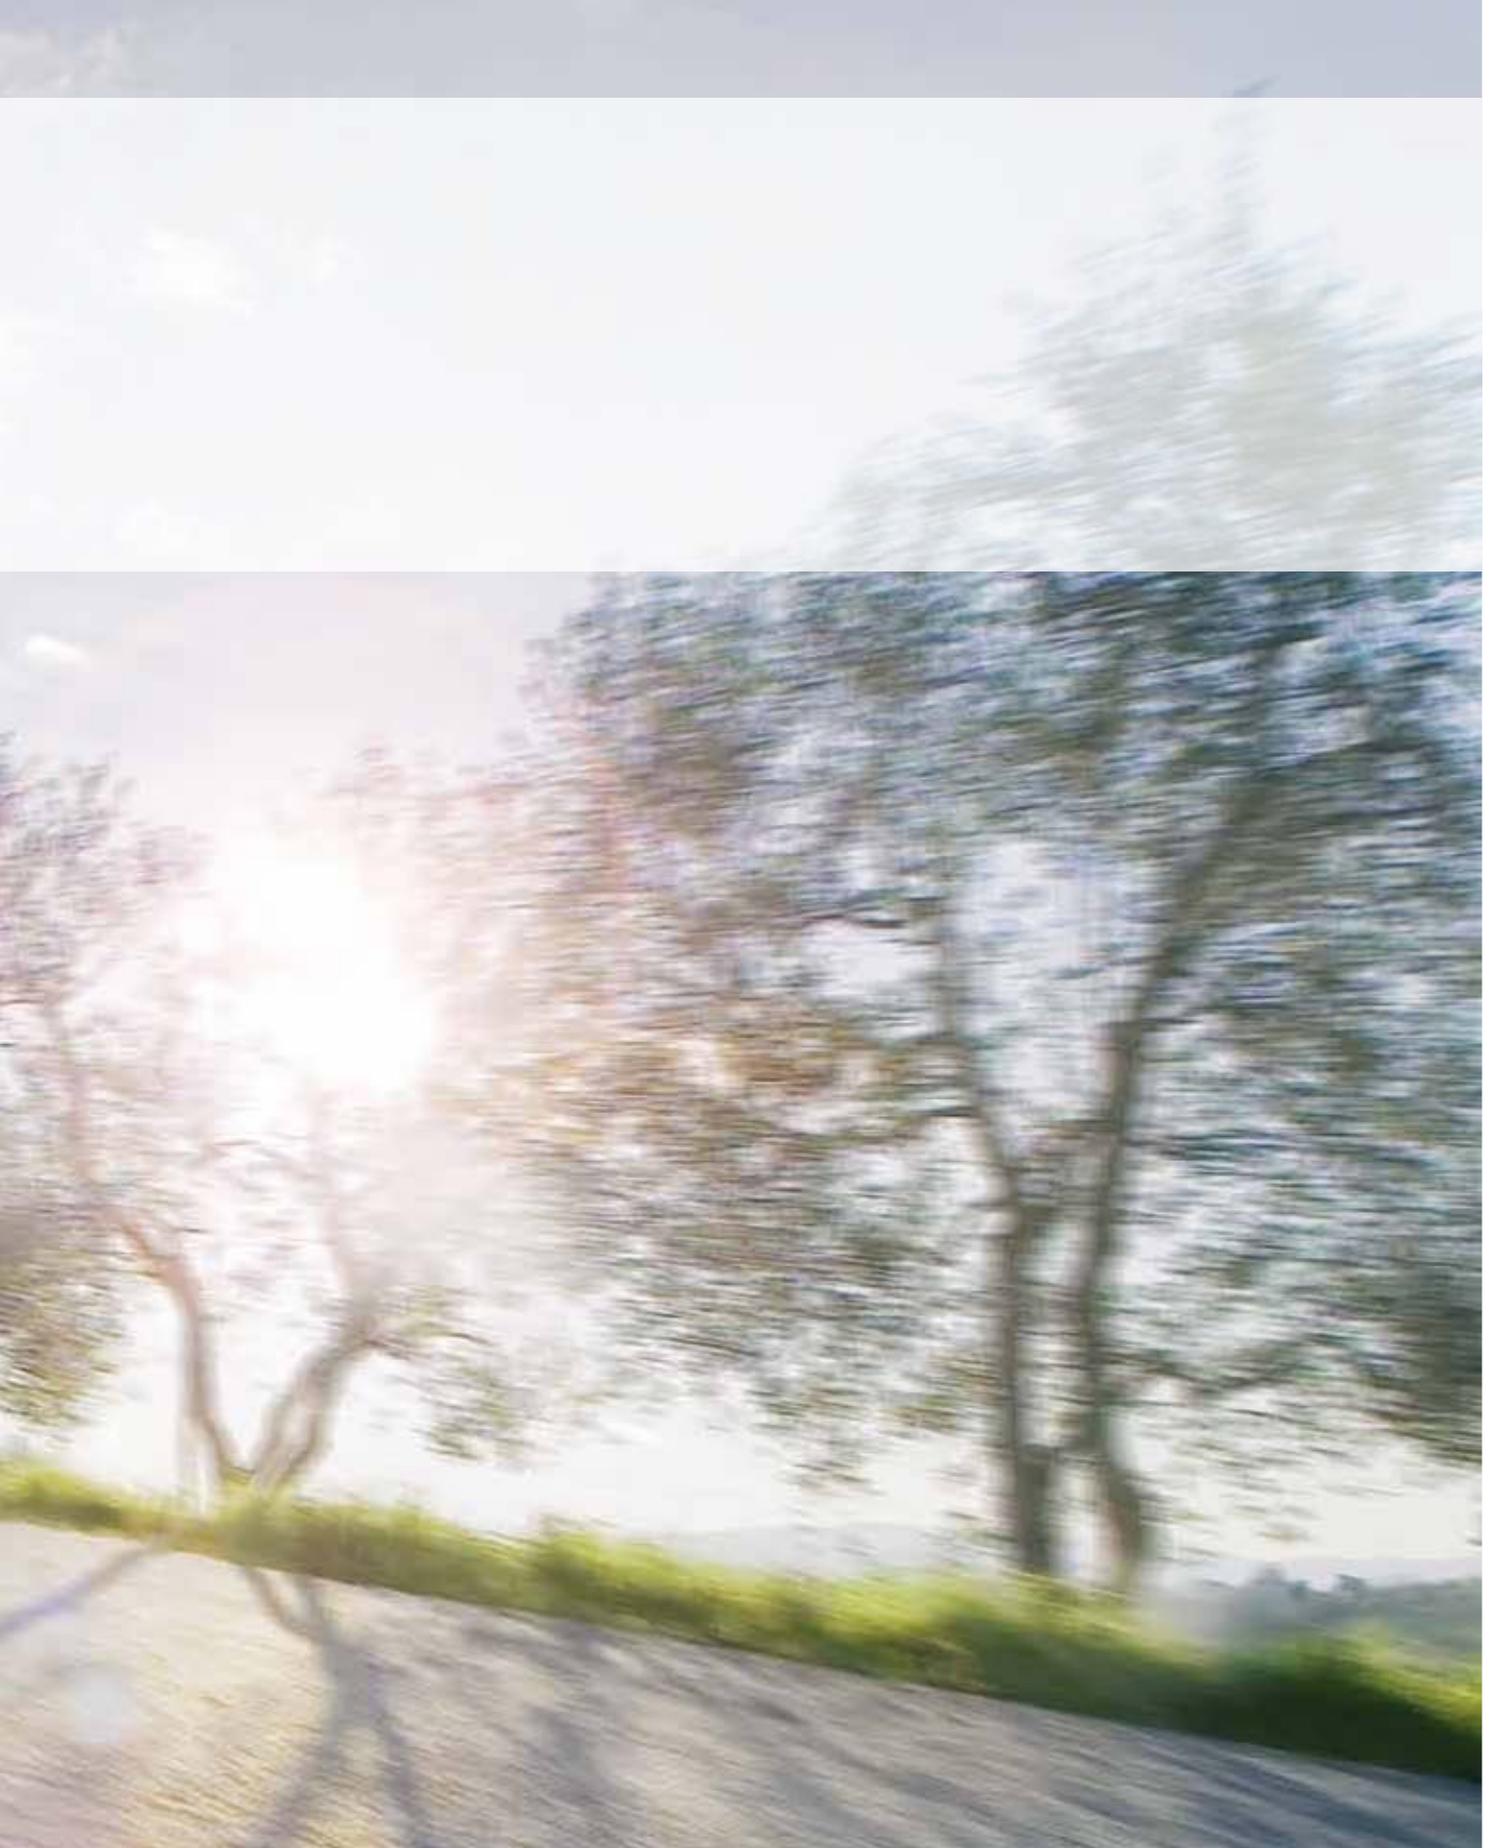

Functional solutions with many refined details are special features on Hymermobil B-Class StarLine models. The usual expectations when it comes to comfort and technical equipment are far exceeded. Many exclusive equipment features are already included in the standard equipment. Solutions that have proven to be practical in everyday use.

# *Hymermobil B-Class StarLine with multifunction double floor*

## *Features of the B-Class StarLine with multifunction double floor:*

- Based on Mercedes Sprinter chassis with ABS, ESP, TC, BAS, AAS and 163 hp
- Driver's cab air conditioning system, cruise control, driver and front passenger airbags
- Driver's door with electric window
- Electrically operated and heated exterior mirror
- Very high quality interior appointments
- Superior heating concept for optimum interior climate
- Heated, extra thick multifunction double floor

- Jumbo stowage compartment under the L-shaped seating group with large outside hatch
- Wide, comfortable lift bed – option: power operated
- Kitchen with long-life mineral chip finish
- Excellent insulation in summer and winter thanks to PUAL body technology
- 170 litre fresh water and 135 litre waste water tanks

- 160 litre jumbo fridge with separate freezer compartment
- Comfort entrance doors with window and insect screen
- Large rear garages including doors on near side and far side
- Radio/TV preparation including loudspeaker, wiring and TV bracket
- Comfort en-suite bathrooms with large headroom

*Hymermobil B-Class StarLine  
Exclusive ambience with top comfort.*

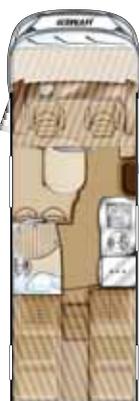

Make yourself at home. The high quality upholstered seats are witness to their supreme comfort. The ergonomic pilot seats can be turned to face the table. The rise and fall is adjustable via controls in the armrests. The driver's seats are also fitted with special springs and a special lift function. The flocked dashboard with hot air flow offers an additional ambience of well-being. The integrated underfloor heating in the double floor ensures a cosy atmosphere throughout the living area in all weather. The stylish table can be turned in any direction. Experience a fascinating level of luxury.

B-StarLine 580

## B-StarLine 580

This model is flooded with light, leaving the vehicle feeling open and transparent. This is due to the panorama roof ventilator fans with LED lighting. The large lift bed above the driver's cab is extra wide. The lift function is either manual or has the option of being powered by electric motors and offers plenty of headroom and easy access when lowered into its sleeping position. The sleeping area in the rear of the vehicle is fitted with single beds.

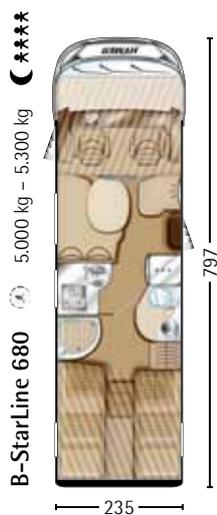

B-StarLine 590  4.200 kg - 5.300 kg  \*\*\*\*

The additional bench seat in the cosy lounge seating group offers top comfort. Pleasant interior acoustics are provided by the fabric wall decor on the ceiling and lift bed. On request the rear of the vehicle can be fitted with a comfortable double transverse bed that is height adjustable by 30 cm. Depending on the direction you want to lie, the lighting can be selected accordingly.

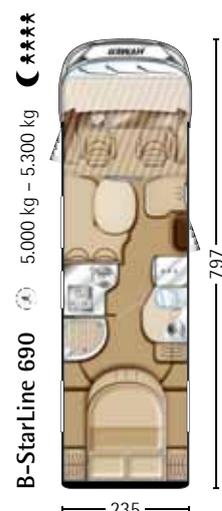

## B-StarLine 590

## B-StarLine 680

The living area has an interior that re-interprets the concept of elegance. Its main feature is the stylish lounge seating group with comfortable cushions and a bench seat opposite. The sleeping area is variable. The comfortable single beds can be joined to form a large island bed. In addition, clothes boxes are integrated under the beds.

Choose from 11 fabric combinations to personalise your motorhome to your taste. Every textile design has its own unique style and underscores your personality. The 690 model has an en-suite bathroom at the rear with a separate shower cubicle and a magnificent sleeping area with a queen-size bed that is accessible from all sides. Three wardrobes demonstrate the high level of luxury.

Comfort bathroom: B-Class StarLine 580

fresh either in the jumbo fridge or in the TEC Tower with fridge/freezer combination and oven. Every model is fitted with well equipped bathrooms. You can choose a spacious en-suite bathroom that is curtained from the living area by a sliding door and the bathroom/toilet is separate from the shower. Or you can choose a comfort bathroom with bench toilet and separate shower.

### Underfloor and heating concept B-Class StarLine

- 1 Walking floor, 30 mm thick
- 2 Heated stowage compartments
- 3 Utilities and water supply
- 4 Warm air underfloor heating
- 5 Underfloor, 35 mm thick

*Hymermobil B-Class StarLine: multifunction double floor and luxury level of equipment.*

1

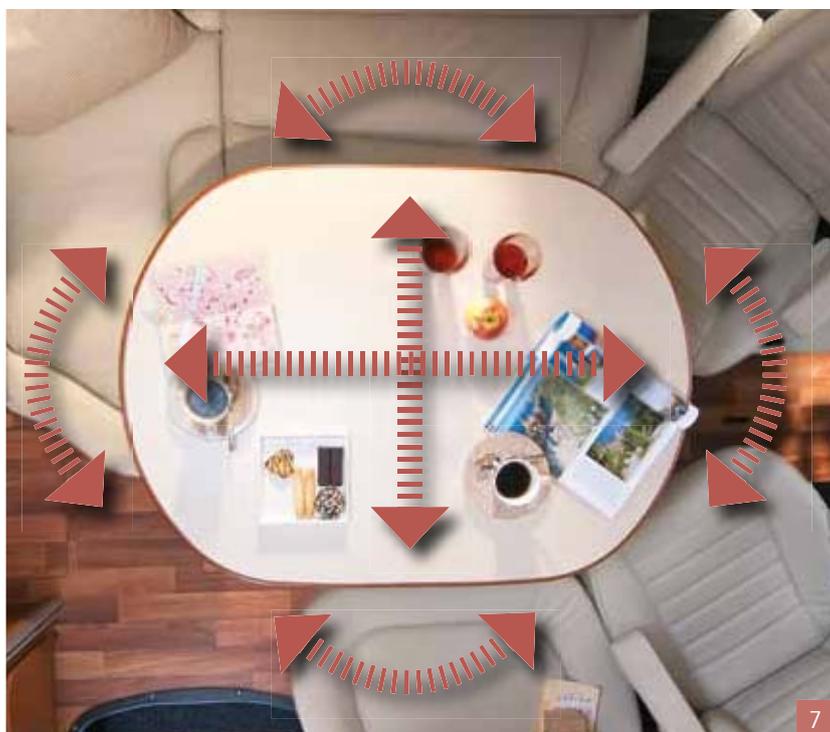

5

6

8

7

- 1 Multifunction double floor concept. Continuous flat floor. Fresh water and waste water tanks and all utilities housed protected and safe from the frost.
- 2 Large exterior storage compartment under seating group.
- 3 Many compartments easy to access from the inside through the garage hatch doors.
- 4 Powered steps at the entrance door and driver's door.
- 5 HYMER panorama roof vent 80 x 50 cm, double glazed with LED lights in the living area.
- 6 Driver's door with electric window including automatic powered step.
- 7 The swivel table rotatable through 360° and movable both lengthways and sideways.
- 8 Wood slat mat on lowered shower tray.

The heated multifunction double floor acts as underfloor heating. Together with the warm air vents throughout the vehicle including the bathroom and the shower, it creates a pleasant interior climate. In addition, it offers plenty of stowage space, for example, maximum standing height in the shower due to the lowered shower tray.

# *Hymermobil S Class*

*Hymermobil S-Class 830*  
*Life at a fascinating level of luxury.*

As spacious as at home. A luxurious lounge with dreamy seating comfort pervades the atmosphere. The upholstery in Pebble leather adds to the interior harmony. A special note of luxury: the sophisticated furniture design in Noce Bergamo style with distinctive overhead cupboards and comfortable recessed handles. This demonstrates the high level of craftsmanship that goes into producing the interior.

*Hymermobil S-Class 830  
Perfection all inclusive.*

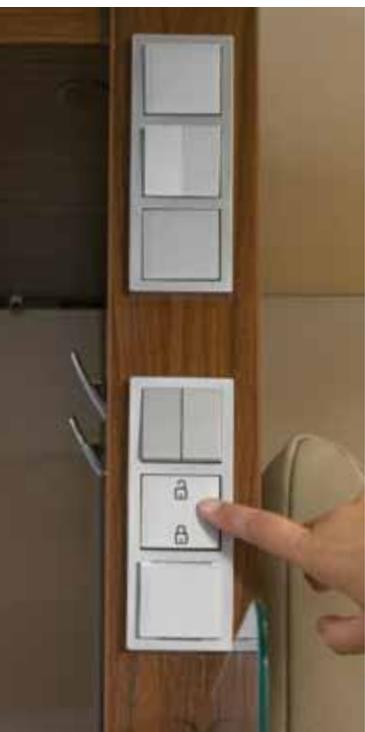

An ambience to make your heart beat faster. Furniture made with excellent craftsmanship. The furniture is glued, screwed and pegged – something you can expect from high-quality workmanship. The luxurious sleeping area is fitted with elegant single beds which are easy to access by ergonomically designed central steps. The bed arrangement not only meets ergonomic demands, this solution also meets the requirements of the large garage underneath the sleeping area.

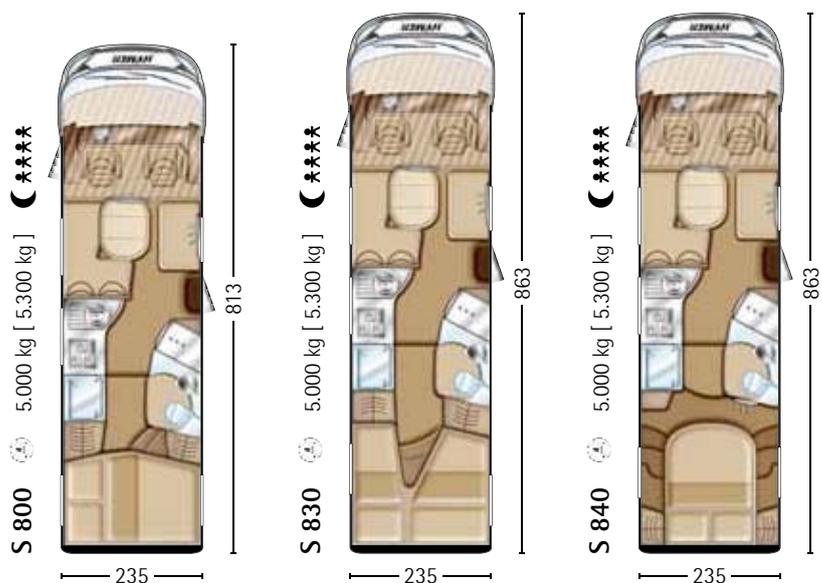

*Hymermobil S-Class 830  
Gourmet paradise.*

Enjoy top cuisine in the Hymermobil S-Class and profit from perfect functionality and quality workmanship. The high-quality worktop with mineral chip finish in the elegantly styled L-shaped kitchenette not only has a fascinating design, it is also very robust. The water tap is at home in the high-quality kitchens. The TEC Tower combination forms the control unit. It comprises a 175 litre fridge with a 25 litre freezer compartment and gas oven.

*Hymermobil S-Class 830  
Comfort dimensions.*

Aesthetics, style and functionality. From any angle the interior design simply looks elegant. Above the couch, the overhead storage cupboards clearly show the affinity to the sophisticated furniture fitted in yachts. The 19" flat screen TV with loudspeakers and remote control complement the luxurious equipment. The fantastic features in the en-suite bathroom include a round glass washbasin and a separate shower cubicle.
