

RAPIDO

2012

Your next stage in the art of travelling

50 years of innovation
serving the spirit of adventure

Serie 6/6FF

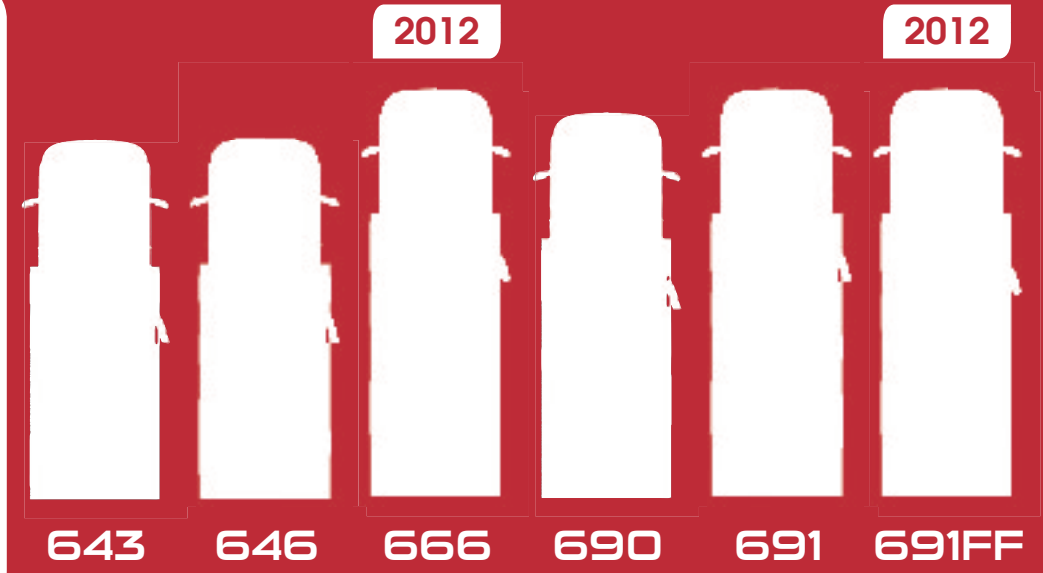

CHARACTERISTICS AND CARRIERS BY MODEL

Low-profile models with special chassis, extra-wide rear track and drop down ceiling bed in option B

REMEMBER

When purchasing a RAPIDO, the unladen weight includes the weight of the vehicle's standard equipment. The unladen weight of camping-cars is determined in compliance with the laws currently in force and includes the vehicle in working order, the driver (75kg), the gas bottle, fresh water (79lFF AL-KO: 50 l) and fuel tanks up to 90 % of their capacity with a tolerance of +/-5 % (in accordance with European Directive EC 92/21).

It is therefore the responsibility of the user to adjust the load and the number of passengers on board according to the permissible GVW, the payload and the weight of any additional equipment he installed or has had installed in the vehicle.

○ = Option, ● = Original, - = Not available

Any accessories installed optionally or by the distributor are not included in the definition of the vehicle's unladen weight. The weight of these elements must therefore be deducted from the vehicle's payload.

Serie 70

CHARACTERISTICS AND CARRIERS BY MODEL

AL-KO low-profile models with extra-wide rear track and independent wheel suspension (with a double floor only on the dF models)

REMEMBER

When purchasing a RAPIDO, the unladen weight includes the weight of the vehicle's standard equipment. The unladen weight of camping-cars is determined in compliance with the laws currently in force and includes the vehicle in working order, the driver (75kg), the gas bottle, fresh water (50 l) and fuel tanks up to 90 % of their capacity with a tolerance of +/- 5 % (in accordance with European Directive EC 92/21).

It is therefore the responsibility of the user to adjust the load and the number of passengers on board according to the permissible GVW, the payload and the weight of any additional equipment he installed or has had installed in the vehicle.

○ = Option, ● = Original, - = Not available

Any accessories installed optionally or by the distributor are not included in the definition of the vehicle's unladen weight. The weight of these elements must therefore be deducted from the vehicle's payload.

Serie 9dF

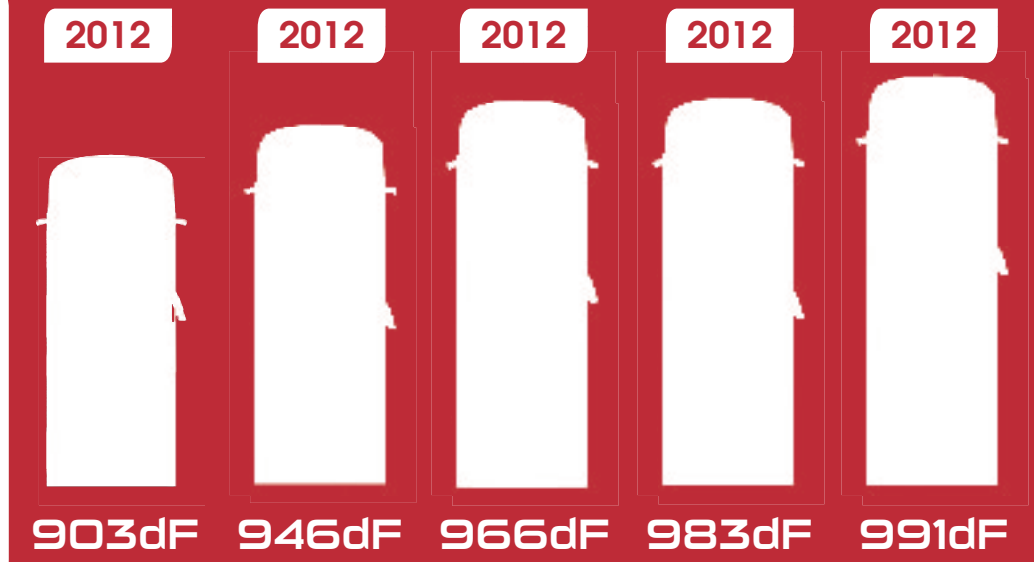

CHARACTERISTICS AND CARRIERS BY MODEL

A-Class special chassis with extra-wide rear track and technical double floor

REMEMBER

When purchasing a RAPIDO, the unladen weight includes the weight of the vehicle's standard equipment. The unladen weight of camping-cars is determined in compliance with the laws currently in force and includes the vehicle in working order, the driver (75kg), the gas bottle, fresh water (50 l) and fuel tanks up to 90 % of their capacity with a tolerance of +/- 5 % (in accordance with European Directive EC 92/21).

It is therefore the responsibility of the user to adjust the load and the number of passengers on board according to the permissible GVW, the payload and the weight of any additional equipment he installed or has had installed in the vehicle.

○ = Option, ● = Original, - = Not available

Any accessories installed optionally or by the distributor are not included in the definition of the vehicle's unladen weight. The weight of these elements must therefore be deducted from the vehicle's payload.

Serie 90dF

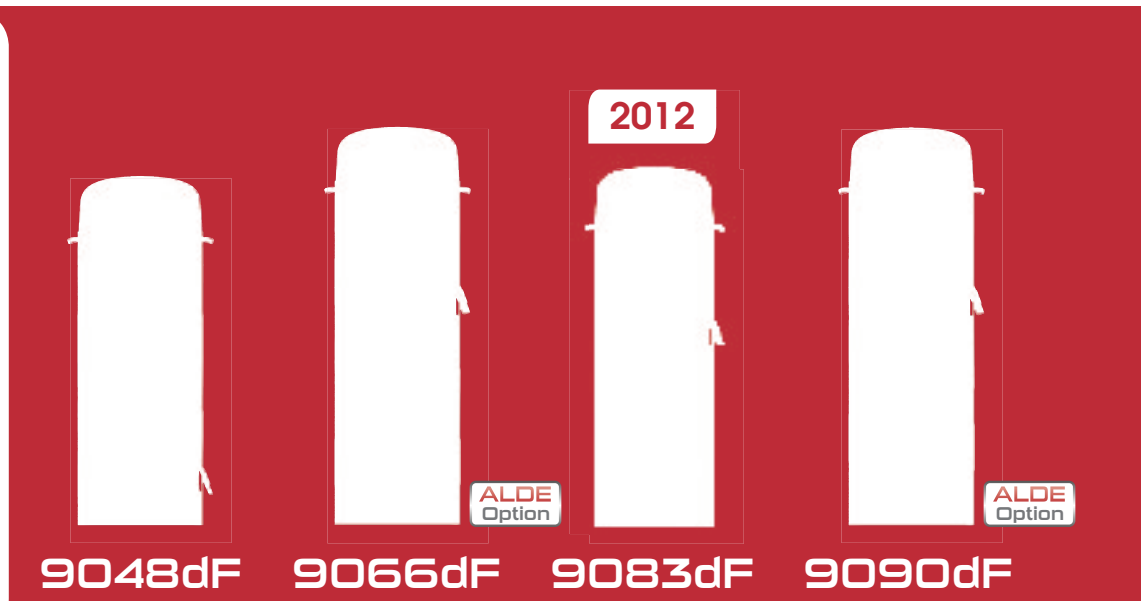

CHARACTERISTICS AND CARRIERS BY MODEL

Fiat AL-KO A-Class double floor models with extra-wide rear track and independent wheel suspension

REMEMBER

When purchasing a RAPIDO, the unladen weight includes the weight of the vehicle's standard equipment. The unladen weight of camping-cars is determined in compliance with the laws currently in force and includes the vehicle in working order, the driver (75kg), the gas bottle, fresh water (50 l) and fuel tanks up to 90 % of their capacity with a tolerance of +/- 5 % (in accordance with European Directive EC 92/21).

It is therefore the responsibility of the user to adjust the load and the number of passengers on board according to the permissible GVW, the payload and the weight of any additional equipment he installed or has had installed in the vehicle.

FIAT chassis: definition of the carriers different from the original commercial definitions of the chassis manufacturers.

Any accessories installed optionally or by the distributor are not included in the definition of the vehicle's unladen weight. The weight of these elements must therefore be deducted from the vehicle's payload.

Serie 10

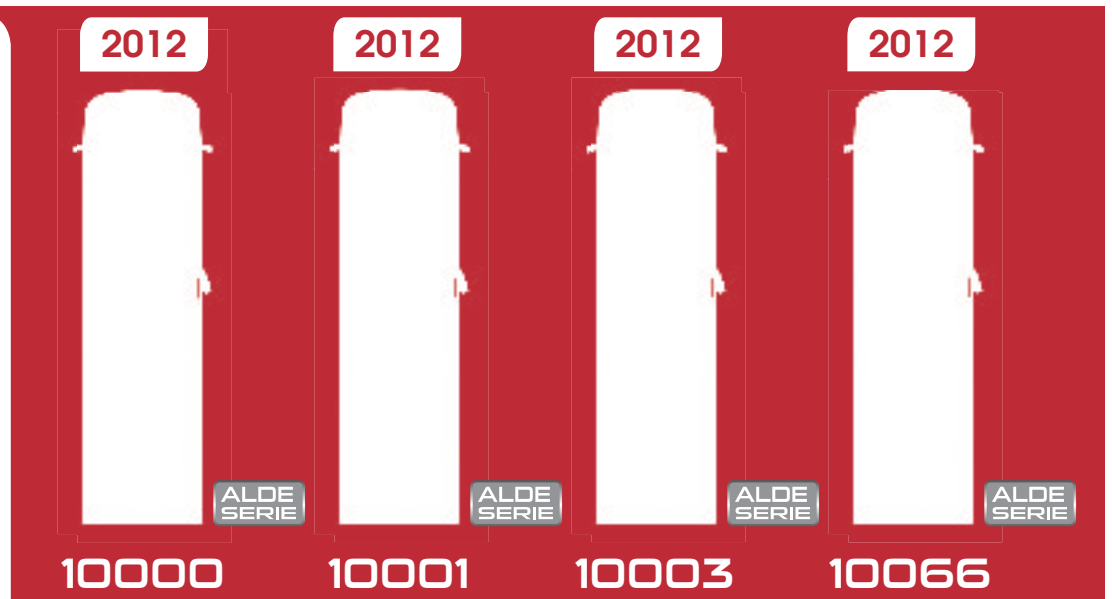

CHARACTERISTICS AND CARRIERS BY MODEL

Fiat AL-KO A-Class models with tag axle (GVW = 5T) with ALDE as standard

REMEMBER

When purchasing a RAPIDO, the unladen weight includes the weight of the vehicle's standard equipment. The unladen weight of camping-cars is determined in compliance with the laws currently in force and includes the vehicle in working order, the driver (75kg), the gas bottle, fresh water and fuel tanks up to 90 % of their capacity with a tolerance of +/- 5 % (in accordance with European Directive EC 92/21).

It is therefore the responsibility of the user to adjust the load and the number of passengers on board according to the permissible GVW, the payload and the weight of any additional equipment he installed or has had installed in the vehicle.

Engine equipment/chassis	2,3*	2,3*	2,3*	2,3*

A-CLASS 10 Series	
BODYWORK AND OPENINGS	
Hail-resistant polyester roof covering all edges	•
Polyurethane body structure (walls / roof / floor)	•
Panels all reinforced polyester	•
Heavy Design rear end	•
Double glazing bays with "blind / fly-screen" combination	•
Panoramic bay in the bedroom (800 x 1000) *Only on the 10000 + 10001	*•
Cab door(s) with electric windows	•
Transparent skylights with fly-screen and blind	•
Fixed bay on living area entrance door	•
HEKI skylight double fold blind with interior wood trim	•
LIVING SPACE	
Permanent bed(s) with slat bed-frame and BULTEX® foam mattress	•
Memory foam BULTEX® mattress 130mm thick	•
Permanent bed height-adjustable *(17cm on 10003 / 30cm on 10001)	*•
Permanent bed with tilt-adjustable head sections (except 10003)	•
Jack-assisted unlockable electric cab bed	•
Cab bed with slatted frame and BULTEX® foam mattress	•
Living room table with retractable feet, movable side ways and rotating	•
Bedroom netting / ship blinds with living room bays	•
Specific bedroom trim (netting, door and furniture coverings) *Only on the 10000 + 10001	*•
Dividing door	•
Office space with 220V socket *Only on 10003	*•
Walls 30 mm thick with STYROFOAM insulation (walls + roof), floor 40 mm	•
3-point safety belt(s) in the living space	4
15-inch flat screen TV unit (TV not supplied)	•
ELEGANCE furniture	•
ELEGANCE DELUX furniture (50 years model)	50 years
Nappa Leather trim (50 years model) (option on other models)	50 years
KITCHEN	
Embossed stainless steel sink	•
Embossed stainless steel 3-burner cooking hob with 2 covers and piezzo ignition	•
2-burner hob	○
2nd sink with waste bin and drainer	•
Laminated work top	•
DELUX resin work top (50 years model)	50 years
Built-in window with ambience lighting (50 years model)	50 years
TECHTOWER: refrigerator with freezer compartment (160 litres AES) + 28-litre grill oven	•
Extraction hood above the kitchen	•
External refrigerator grill	•
Refrigerator grill covers (for winter use)	•
External boiler inspection hatch (drain access, maintenance)	•
BATHROOM	
New bathroom with wooden furnishings	•
Independent shower with door	•
Wooden grating	•
Chrome finish bathroom accessories	•
Chrome laundry line	•
Stainless steel basin / designer glass basin (10001)	•
Double WC cassette (SOG system)	•
WATER	
Capacity of freshwater tank (litres)	275
Capacity of waste water tank (litres)	150
External shower with hot and cold water and mixer tap	•
HEATING	
ALDE Confort central heating plus Arctic	•

FIAT chassis: definition of the carriers different from the original commercial definitions of the chassis manufacturers

A-CLASS 10 Series		
ENERGY		
Semi-stationary auxiliary battery with coupler and separator (100 Ah)	•	
Compartment and 3rd battery	•	
Pre-cabing for fuel cell	•	
Cutting transformer - charger	16A	
Two-pole magneto - thermal circuit breaker	•	
Digital control panel with instant consumption measuring	•	
Centralised Fuse box with protected "accessories" exits	•	
External 230 V connection - internal 230 V plug	•	
Flat screen TV space with 12 V - coaxial pre-cabing+ satellite and video (TV not supplied)	•

Any accessories installed optionally or by the distributor are not included in the definition of the vehicle's unladen weight. The weight of these elements must therefore be deducted from the vehicle's payload.

Serie 9M-MH

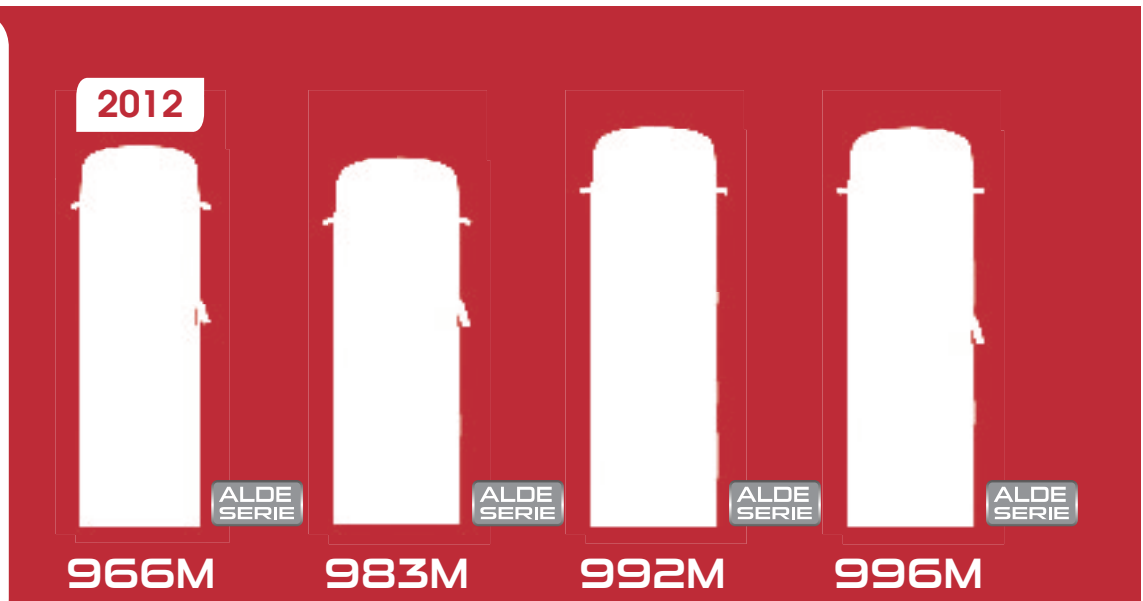

CHARACTERISTICS AND CARRIERS BY MODEL

Mercedes A-class Heavy models with ALDE as standard

REMEMBER

When purchasing a RAPIDO, the unladen weight includes the weight of the vehicle's standard equipment. The unladen weight of camping-cars is determined in compliance with the laws currently in force and includes the vehicle in working order, the driver (75kg), the gas bottle, fresh water and fuel tanks up to 90 % of their capacity with a tolerance of +/- 5 % (in accordance with European Directive EC 92/21).

It is therefore the responsibility of the user to adjust the load and the number of passengers on board according to the permissible GVW, the payload and the weight of any additional equipment he installed or has had installed in the vehicle.
