Intense holiday experiences.

Be at one with nature, feel a sense of community, have fun, experience freedom: What better way is there to enjoy leisure other than caravanning? Whether it's the already legendary, colour co-ordinated Eriba-Touring model, the modern Eriba-Feeling model, the practical and family-orientated Eriba-Exciting model, the extraordinary Eriba-Nova or the absolutely first class model of the Eriba-Nova S-model series - you can rest assured that you're the owner of a well developed and high quality vehicle.

Eriba-Touring

A legend with cult status

Pure individualism.

Eriba-Touring caravans have achieved cult status. For over 55 years, the construction principle has combined with an aerodynamic shape to provide an ideal home for people who yearn to see distant places. Lightweight construction, compact dimensions and a low overall height achieved by integrating a rising roof are features that are common on touring caravans. Its perfect towing characteristics are legendary.

- 230 V sockets (kitchen, washroom, seating group), (depending on floor layout)
- Auxiliary brake light, side marker lights, rear fog light, reversing light
- LED awning light with motion sensor
- High lighting output, low power consumption, thanks to energy-saving LED technology
- 13 l fresh water tank in washroom and kitchen (depending on floor layout)
30 l fixed tank with external filling, space-saving installation (SE)
- Stowage-compartment-safe, frost-proof and protective installation of hot air, water and electricity supply

Eriba-Touring Triton 418
Functional harmony.

The rounded design of the exterior is continued with the interior „Umbria Select“ styling. This typical characteristic is particularly noticeable with the roof storage cupboards. All around the vehicle, these offer plenty of stowage space at a convenient height. At the front and rear, energy-saving LED lights accentuate the means of storage. A glance into the Eriba-Touring Triton 418 takes us from the front seating group to the rear where a generously-sized rear lateral bed offers a comfortable sleeping area on a high quality, breathable sprung mattress.

Eriba-Touring Familia 310

Despite its compact dimensions with a seating group at the front and a lateral bed at the rear, the utmost importance is placed on living and sleeping comfort. With an extendible worktop, round stainless steel sink, 2-flame-cooker and generous cutlery drawer, the kitchen offers a great amount of storage space. In the vertical position, the glass cover of the cooker serves simultaneously as a flame guard.

Eriba-Touring Triton 430

All aboard. The Eriba-Touring Triton 430 offers the greatest means of practicality in the smallest space. It is distinguished by a fully fledged opposing seating group, a fixed rear bed, a compact kitchen, a friendly washroom and a huge amount of stowage space. The bright washroom with bench toilet and flush-fitted basin has numerous enclosed cabinets as well as practical cubby holes for items of daily use. For the first time in the Touring model, the washroom mirror can be adjusted in height when the elevating roof is raised.

Eriba-Feeling

Cabrio-Feeling.

Light, nimble, sporty. Perfect for intense travel experiences for long tours in combination with a comfortable feeling of wellbeing. Easy to handle, even on site thanks to the grab rail that extends across the entire width of the rear. This range ideally combines the technical benefits of a rising roof van with a generous living area design. The unique PUAL technology with its outstanding insulation values ensures an optimum climate.

*Eriba-Feeling 425
What a Feeling.*

Modern and attractive. Fresh, sporty furniture design in Merano cherry finish. High quality edges in silver finish accentuate the clear lines. The deep ceiling lockers have horizontal sliding doors in the corner areas which allow perfect open access. With its overall length under five metre, the Eriba-Feeling 425 has a spacious feeling. The standing height beneath the large area of rising roof is 1.98 metres.

Eriba-Feeling 230

Compact, light and slim. With an overall length of less than four metres and a width of 2.00 metres, this is an ideal caravan for small towing vehicles. A superb round seating area with folding table dominates the vehicle and can be converted into a marvellous bed. In the rear of the vehicle, opposite the entrance door, a perfectly equipped L-shaped kitchen and generous wardrobe.

Family feeling. Complete, family friendly, with everything on board that makes a fully equipped caravan. A cosy seating area in the front, a fully equipped kitchen with a generously-sized worktop, complete bathroom, large wardrobe and bunk beds in the rear. On request, the model may be equipped with a camper-style rising roof, thereby offering even more sleeping options.

Eriba-Feeling 380

Eriba-Feeling 470

Comfort model with single beds. Despite its compact size, the Eriba-Feeling 470 offers extraordinary comforts. The stylish seating area next to the entrance door in the rear area converts simply into another bed. The spaces for the various functions are clearly differentiated with the complete kitchen, the adjacent wardrobe, the washroom and the bedroom. A huge and comfortable bed is created by adding a cushion on the slatted base. On request, the Eriba-Feeling can be fitted with a camper-style rising roof thereby offering even more sleeping options. The berth created is 1.93 metres by 1.50 metres.

Eriba-Feeling 425

A compact format, specially designed for younger people and families. A fixed transverse double bed, a comfortable seating area in the front, a complete kitchen with practical sideboard, a spacious wardrobe and a comfortable bathroom with a window are the features of the Eriba-Feeling 425. The various cupboards offer generous amounts of space thanks to their deep bodies. In addition, the wide range of open compartments in the sleeping area and the kitchen area offer numerous storage options.

Eriba-Exciting

Sporty family pleasure.

With a trendy design and attractive colour co-ordination, the Eriba-Exciting appeals to young and young at heart caravanners. With its anthracite decals, the Eriba-Exciting has an unimposing, discreetly majestic and dynamic aura. A joy for the whole family. Extraordinarily child-friendly with bunk beds.

- Stowage-compartment-safe, frost-proof and protective installation of hot air, water and electricity supply

Eriba-Exciting 550

Form follows function. The Eriba-Exciting is characterized by clear structures. The stylish furniture in the "Umbria Select" finish with the light-coloured highlights on the ceiling lockers and on the high-level kitchen cabinet emphasize its clean lines. The selected upholstery with the Kalmar fabric combination harmonises with the interior structure. The fittings leave nothing to be desired. The sleeping area in the front with queensized double bed and luxurious bathroom highlight the generous finish level, as do the kitchen fittings.

Eriba-Exciting 471

With the emphasis on comfort, this single bed floor layout at under seven metres is for two people who cherish a generous ambience. The intelligent wardrobe solution above the bottom end of the single beds offers the highest level of comfort and functionality at a reduced vehicle length.

Eriba-Exciting 535

Similar to the floor layout of the 465 but with a bit more length and much greater feeling of space. An upper-mounted 180 litre refrigerator opposite the extended comfort kitchen is what distinguishes this caravan.

Eriba-Exciting 550

A feel-good apartment for parents and children. In the parent's bedroom there is a French bed and the generous washroom, which can be partitioned off from the rest of the living area by a textile screen. Right next to the entrance door is the convenient kitchen with long worktop. The opposing seating group with additional seating space is the special feature of this family-friendly floor layout. The bunk-beds with optional three sleeping areas can be partitioned off with wooden doors.

Eriba-Nova / Eriba-Nova LuxusLine

Trendsetter in the premium class.

Eriba-Nova in a dynamic, perfectly-formed appearance. The uniquely stylish design with the attractive rounded form radiates nobility. Functional and pleasing on the eye, the rear light cluster mount and the full-width grab rail. Hinged windows in the front finish off the rounded lines.

Eriba-Nova 545

The ambience is particularly harmonious with the furniture in Merano cherry finish. Classically elegant the entire interior. The rear of the caravan accommodates the bedroom and washroom with a separate shower and WC. The kitchen and round seating area with a sturdy single leg table are the last word in luxury.

Eriba-Nova 531

The grand round seating area with the generous upholstery, the spacious kitchen, the lighting trim with integrated spots define the character. At the front, the bedroom with two single beds that can be converted into a lounging area with the pull-out slatted base and an additional cushion.

Eriba-Nova LuxusLine 465

The Eriba-Nova LuxusLine stands for beautiful forms, convincing details and luxury equipment that fulfils all requirements. In harmony with the upholstery and elegant white fronts of the kitchen cabinets, the elegant „Trentino pearwood“ furniture finish creates a classy and cosy atmosphere.

Eriba-Nova LuxusLine 465

In the luxury washroom there is space for everything: whether in the enclosed cabinets while the vehicle is on the road or in practical cubby holes when parked up at the holiday location. The luxury kitchen is equipped with large drawers that have a high quality Servo-Soft closing feature and offer a maximum amount of stowage space. A generous worktop enhances the luxury kitchen and caters for all needs. Our aim: To indulge you as much as possible.

Eriba-Nova S

Pure luxury.

Perfect appearance. The exterior in carrara white underlines the high quality finish of the Eriba-Nova S. Rounded forms in PUAL design connect the roof and walls – a mark of progressive technology. Particular accents at the pinnacle of the class.

- All upholstery fabrics feature HYMER stain guard
- High quality furniture construction, all joints secured with dowels and screws
- Hard-wearing and easy to clean PVC floor in wood laminate look

Sleeping comfort:

- Generous bed dimensions
- All fixed beds fitted with comfortable multi-zone cold foam mattresses. A high level of sleeping comfort assured as it adapts optimally to the contour of the body and has a breathable airy construction
- All fixed beds equipped with Ergo wooden slatted frame
- Beds built on sturdy steel substructure
- Lowering pillar table means that seating groups can be converted into a bed in just a few easy moves (depending on floor layout)
- The sleeping area can be partitioned off thanks to a handy wooden sliding door
- Reading lamps above head section

Kitchen:

- The luxury kitchen of the Eriba-Nova S
- Large worktop with flush fitted round sink and 3-flame-cooker with split-folding glass cover to extend worktop
- Voluminous drawers with ball bearing guides, Servo Soft closing feature, cutlery tray and secure push-lock catch
- Pull out medicine cabinet (depending on floor layout)
- Hot and cold mixer tap
- 150 l refrigerator with automatic power source selector, separate freezer compartment and flexible positioning of shelves
- Additional equipment with oven and grill
- Voluminous kitchen roof cupboards with guard (to prevent things from falling out)
- Powerful extractor fan recessed under kitchen roof storage cupboard
- LED spotlights for kitchen worktop

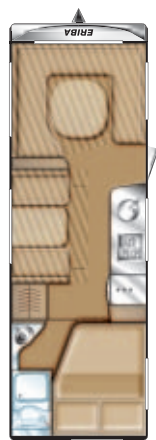

Washroom:

- Corner or side wash table with designer round basin on top
- Generous washroom vanity unit with door
- Generous enclosed washroom cabinets as well as practical cubby holes for items of daily use
- Illuminated mirror
- Elegant hot and cold water tap
- Toilet connected to fresh water tank, with fill level indicator
- Vent wing frosted glass window with mosquito net and blackout blind
- Practical 230 V socket

Body:

- Aerodynamic fuel-saving body shape with round edges
- Highest level of body stability, leak-tightness and service life thanks to PUAL technology
- Best caravan insulation values thanks to PUAL technology free of cold bridges
- Nicely shaped tinted windows with double insulated acrylic glazing
- All windows have vent wing feature, mosquito net and blackout blind
- Large panoramic skylight for light and fresh air with mosquito net and blackout blind
- Panoramic window at front (SE)
- Entry door with window, practical stowage compartment, coat hooks and mosquito roller blind
- PUAL sidewall 30 mm (including gas compartment)
- PUAL roof 30 mm
- Floor 41 mm

Chassis:

- AL-KO safety chassis with extra long A-frame
- Highly stable, fully galvanised caravan chassis with semi-trailing arm axle and independent wheel suspension
- AKS anti-sway coupling with automatic hitching device
- Galvanised heavy duty big foot corner stays
- Meets all requirements to travel at 100 km/h on German motorways
- A-frame wheel with pneumatic tyre
- Plastic cover for A-frame

Technology:

- Heating: Truma Combi 6 with hot air system and integrated 10 l hot water boiler
- Eriba-Travel-Connection (lights, water pump and refrigerator can be operated with 12 volts from passenger vehicle when in motion)
- High lighting output, low power consumption, thanks to energy-saving LED technology
- 3-6 x 230 V sockets (kitchen, washroom, seating group)
- Auxiliary brake light, side marker lights, rear fog light, reversing light
- LED awning light with motion sensor
- Fresh water tank: 45 l fixed tank with external filling and water fill level indicator in panel
- Grey water tank: 22 l on rollers
- Stowage-compartment-safe, frost-proof and protective installation of hot air, water and electricity supply

Eriba-Nova 540 S

Excellent atmosphere. Genuine elegance is displayed in the masterful interplay of high-quality furniture built by craftsmen. Finely grained tones in the surface finish of the Noce Bergamo decor complement the lavish styling of the upholstered furniture.

Eriba-Nova 540 S

The model with the comfortable twin bedroom. In the elegant kitchen with the many practical drawers, the TEC Tower with the 150 litre fridge, oven and grill stands out. The luxury bathroom incorporates a bench toilet and separate shower.

Eriba-Nova 545 S

The glossy white fronts on the roller-mounted drawers and ceiling lockers strike imposing accents. A room-high pull-out shelf unit makes light work of storing the kitchen utensils. Next to the bedroom, the vanity unit and the separate washroom.

Eriba-Nova 690 S

Unrestrictedly luxurious ambience in the Eriba-Nova 690 S. Comfortable circular seating area in the front, and a lounge seating area in the middle of the vehicle. As an option, you may choose the unique panorama window over the seating area and the exclusive leather finish.

Eriba-Nova 690 S

A sumptuous living area. The kitchen's large drawers extending its full width are an attraction. The Nova 690 S is available in a variant with lounge seating area or sideboard, and also with cocktail cabinet and laptop table.

High quality in every detail.

Power-saving LED strips, spotlamps in the lighting strip and a four-beam main lighting unit ensure a pleasant ambience. Options include a sound package and a multimedia package, e.g. a flat-screen TV and the highest sound quality.

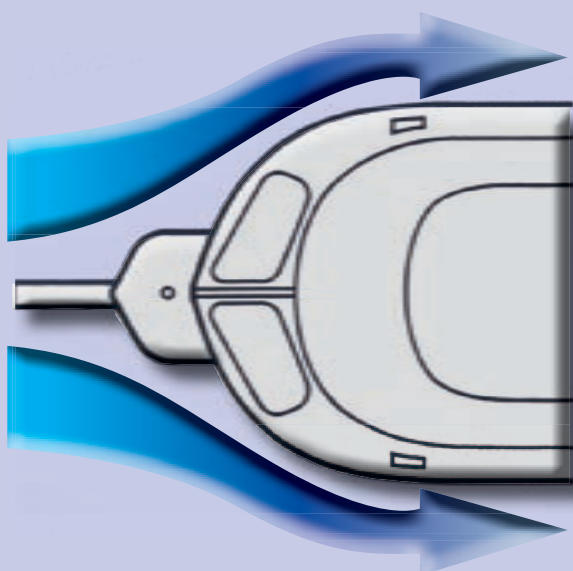

Technical know-how guaranteed.

Eriba-Touring technology

- AERO styling with steel tubular frame construction
- Low overall height (on the road 226 cm)
- Chassis with independent suspension and shock absorbers
- AKS anti-sway coupling with automatic reverse
- Outstanding trailing properties
- Rising roof with 26 mm sandwich insulation and two pantograph hinges
- Standing height in the rising roof is 1.95 metres
- High lighting output, low energy thanks to energy-saving LED technology

For over 55 years, the unique design principle has been based on the legendary tubular steel frame, originating in aircraft construction. This lightweight, self-supporting and corrosion-free design is aerodynamically modelled and is particularly robust, ensuring a long life and excellent towing characteristics. The outer skin is stove-enamelled aluminium and the rising roof shell is made from GFRP.

HYMER

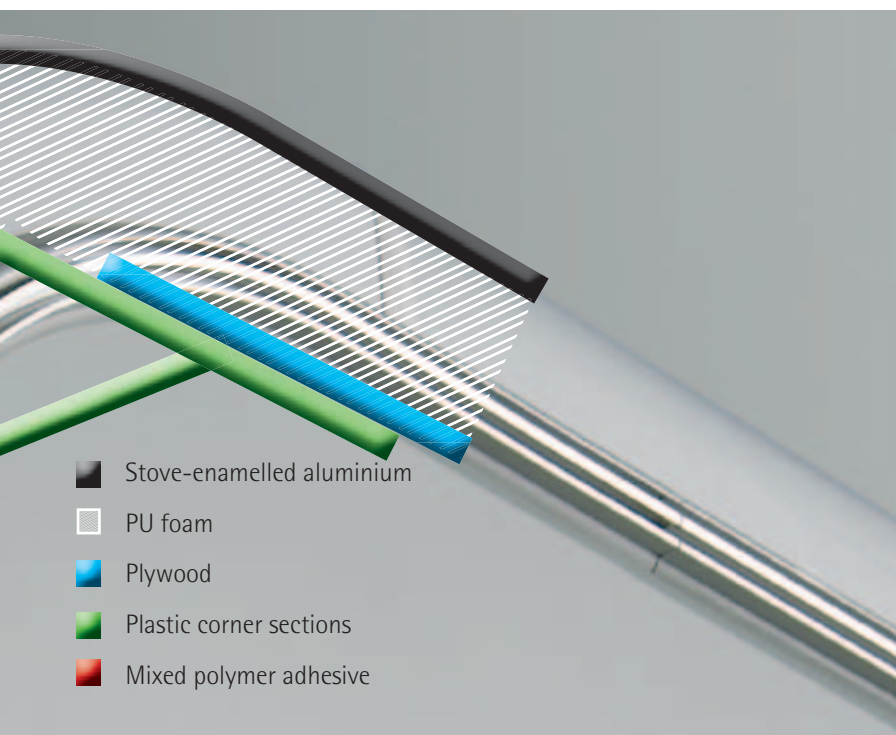

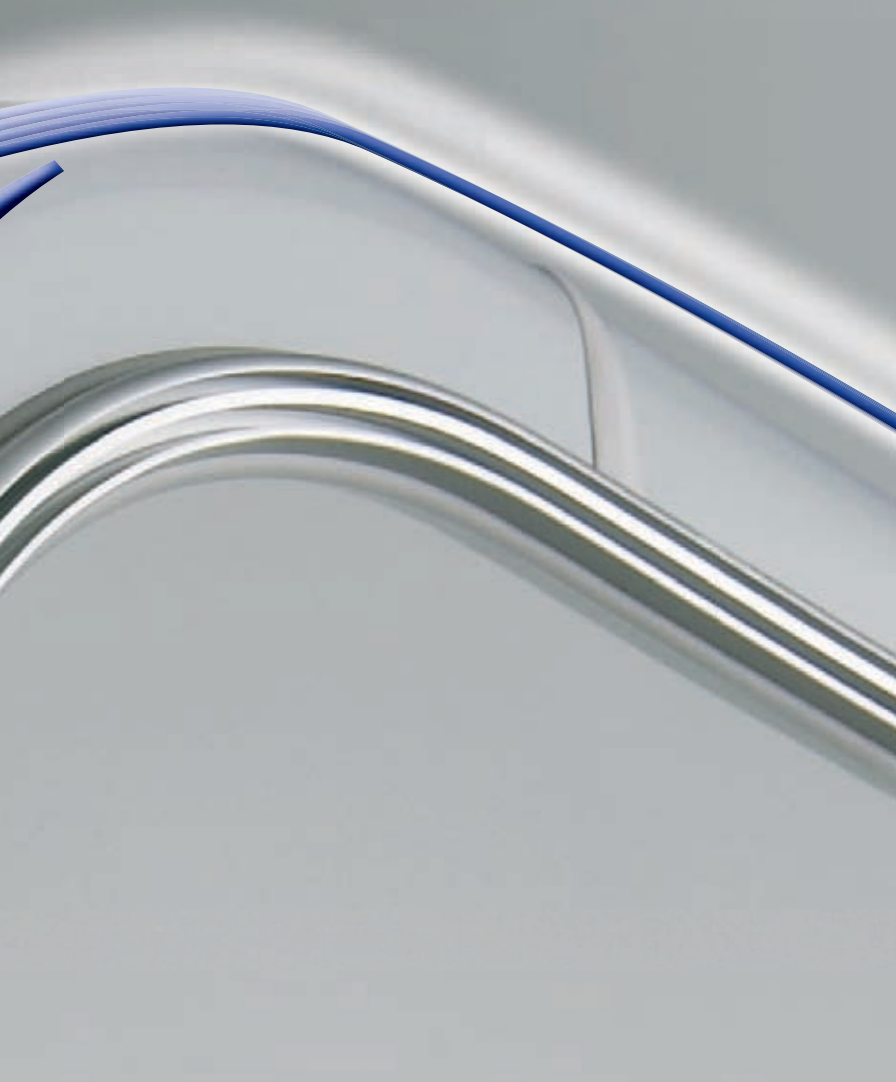

Excellent
insulation

Made of cast
aluminium

*An extraordinary technology
makes its mark.*

The unique PUAL construction with which HYMER is still setting standards is characterised above all by the excellent insulation values of the walls and roof.

The excellent insulation provided by the closed-pore PU foam guarantees pleasant temperatures throughout the year and keeps gas consumption down in winter. The thermal insulation provided is equivalent to a solid masonry wall 68 cm thick.

In addition, this composite technology is an absolutely watertight and corrosionproof construction. The walls and roof are manufactured from a single casting and thus are able to meet the highest loading. The composite technology also provides an absolutely watertight joint at the transitions between the side walls and the front wall.

PUAL technology is found in the Eriba-Feeling, Eriba-Nova, Eriba-Nova LuxusLine and Eriba-Nova S model series. The unique construction method was developed by HYMER in 1978 and sets the standards for advanced technology.

Vehicle safety and handling.

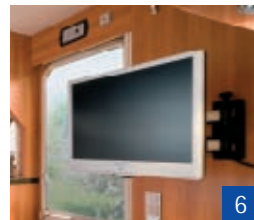

The chassis clinches it with its optimum ride comfort and road safety. With our innovative chassis solutions, we ensure that your Eriba-caravan will have good towing characteristics and that you will reach your destination relaxed and in safety.

The stabiliser and the tried-and-tested anti-snaking system stabilise your vehicle and caravan in critical situations such as in a cross wind, truck traffic coming the other way, overtaking manoeuvres or cornering. Small oscillations and dipping movements of the caravan are permanently suppressed and thus ensure a high level of stability.

The extra long A-frame with 100 kg vertical towing eye load has an additional safety reserve and space for a bike rack.

A fully galvanised lightweight chassis lays a solid foundation for the Eriba-caravan model series. In addition to Stabilform jacks with semi-trailing links, independent suspension with shock absorbers, many models incorporate the tried-and-tested AL-KO AKS stabiliser. AL-KO Trailer Control (ATC) is available as an option on some models.

Homely comforts with many practical benefits.

2

7

Function highlights in detail

- 1 Cubby holes in the seating group area with cosy, indirect LED lighting.
- 2 Useful spotlights in the shelves.
- 3 Simple and convenient bed conversion from seating group thanks to lowering table pillar.
- 4 Spice racks act as a room divider.
- 5 Practical shoe cupboard right next to entrance doors.
- 6 Flexible TV brackets make for viewing pleasure in most models.
- 7 Drawers with Servo-Soft closing feature and secure locking ensure convenient kitchen comfort.

The living area determines the overall impression of the caravan. This is why we put the greatest priority after the visual impression on functional and practical components, e.g. the unequalled kitchen design with large worktops, multi-functional 3-burner hob with continuous pan rest and asymmetrically split cover. This cooker provides plenty of space for large pots and pans. It is easy to clean and operate with its large knobs.

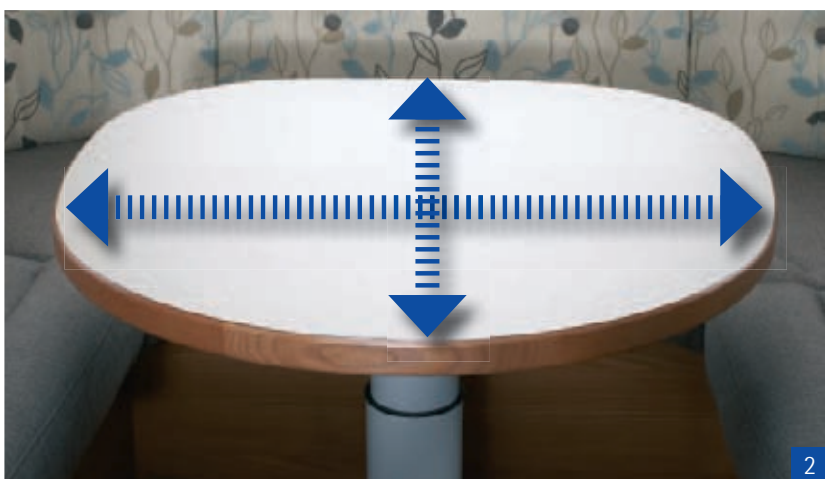

1

3

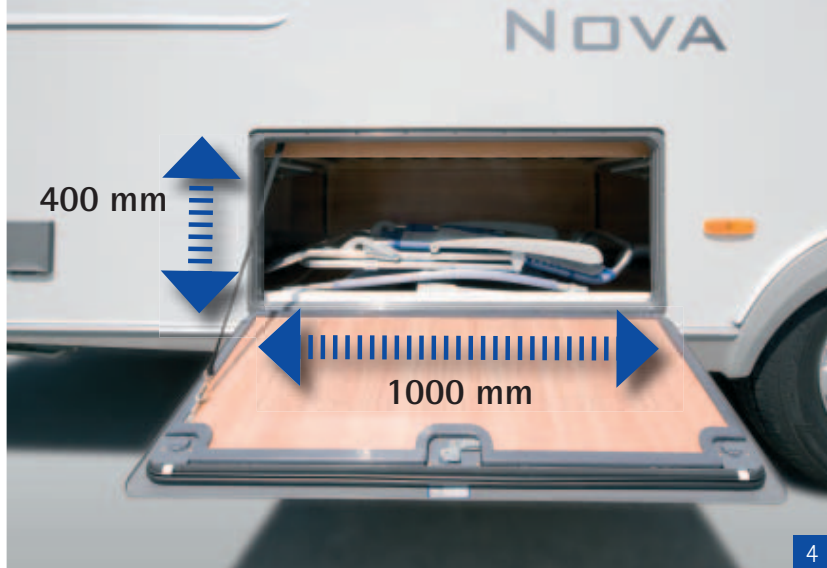

Designed to the last detail

- 1 The highest demands on the kitchen are met by the full-height pull-out shelves on the Nova S models (layout-dependent).
- 2 The single pillar table leg can be moved in all directions and allows optimum leg freedom as well as an entry/exit to and from the seating group.
- 3 The Truma-Therme and the water drain valves are located in a specially protected position in the Nova's seat base.
- 4 Large external hatches up to 100 x 40 cm in size provide easy access to the storage space.

2

Comfort is the result of the sum of the details experienced.

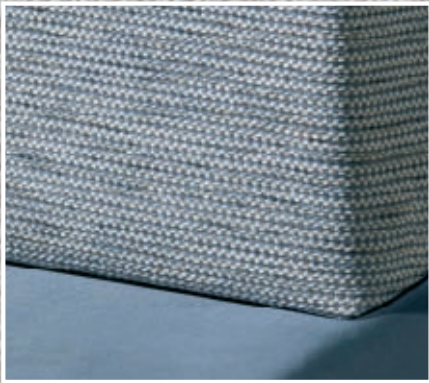

Masses of storage space

- 5 Ample storage space under the children's bunk beds in all Eriba-Exciting models.
- 6 Built-in beds have pressurised gas supports to help with access to the storage space.
- 7 Divided seat base lids for easy access.
- 8 Generous panoramic skylight (80 x 50 cm) with integrated lighting, mosquito net and blackout blind.

The balance between the individual components, the interplay of the materials and the function-oriented solutions all make decisive contributions to comfort and well-being. Perfectly thought out. A cabinet maker will recognise the craftsman's skill that goes into the furniture. Storage space in the interior and a multiplicity of external hatches ensure order in the leisure equipment.
