

RAPIDO

2013

Turn your dreams of travel into the voyages of your dreams!

From the delicacy of Brittany's hidden nooks to the Norwegian fjords and the natural splendours of lands even further afield... our dreams of travel remain eagerly full of anticipation of the unexpected and new discoveries. These dreams sleep within us, prisoners to the thought of « *perhaps, one day?* ».

So let yourself be carried away; dare... Because, after all, « *a journey of a thousand miles always starts with a first step* » (Lao-Tseu*). There are also more and more people who dare, dare to leave their native land or set aside their daily lives. A whimsical voyage for some, a carefully planned route for others... No matter, the aim is the same: to turn your childhood dream, your lifetime's dream, your innermost dream, into a realisable adventure. And then you are really bitten, because, once you have tasted the delight of succumbing to your dreams, you can no longer live without it.

This kind of dream the participants in the Paris-Peking-Istanbul rally readily admit to: they have always wanted to do it. And when a RAPIDO crew realises that this trip amounts to « *halfway around the world* », the dream's dimension makes complete sense... Mongolia, Siberia, Turkey, Uzbekistan... 100 days, 30,000 km of travel through more than 12 countries, that is the stuff of dreams. And beyond these dreams, these teams come face-to-face with completely new lifestyles, cultures and vistas that will remain engraved on their memories forever. It is in order to take part in this magnificent adventure, from the first Paris-Peking-Paris rally (1st June 2010) to the Paris-Peking-Istanbul rally (1st June 2012) that RAPIDO is the Official Motor Home Partner for this unique project.

Turn your dreams of travel into the voyages of your dreams. This is the vision through which RAPIDO motor homes regale us with what makes them unique: a warm ambience, the highest level of standard equipment in its category, technical expertise in construction and high quality of manufacture. To cross countries and continents with peace of mind, you would do well to choose a motor home that is reliable and top-of-the-range. RAPIDO is offering you, this year, 8 different ways of accessing its range: its 8 Series. With their different layouts and customisation capabilities, you are bound to find THE motor home with which to realise your dreams.

Excellent trips !

RAPIDO, more than ever

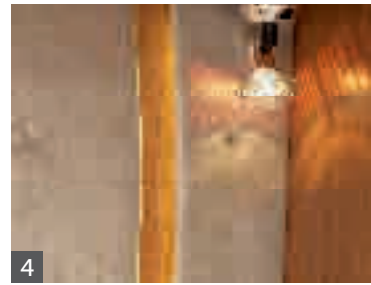

At a time when distinguishing marks are being erased on a blossoming motor home market, RAPIDO presents, more than ever, the virtues of a reliable, wellknown brand, engaged in a continuous quality improvement process, the symbol of a certain style of living in the French manner.

A warm ambience, attention to detail: our values have not changed, they are measured by the exceptional degree of loyalty between RAPIDO and its customers.

Almost half our customers are on their second or third RAPIDO. Highly sought-after, the RAPIDO brand also makes its mark on the secondhand market. Demand for it is high; the resale value of a RAPIDO is higher than that of many other models. Isn't this the best indication of quality?

* Chinese philosopher (6th – 5th century BC)

Wood: providing the warmth and distinction of RAPIDO's furniture.

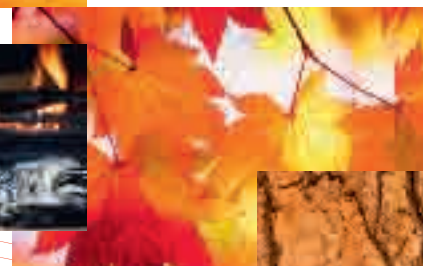

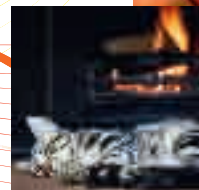

An unparalleled warm ambiance

At RAPIDO our reputation is founded on the enormous importance we attach to providing a comfortable and cosy environment, an ambience that has been modelled and remodelled over time and has benefited from the close attention RAPIDO pays to customer feedback. Our ever-busy R&D teams strive to create truly luxurious yet cosy interiors that are ergonomically tested and based on notions of well-being, with materials soft to the touch...

This year the new 2013 Collection combines, more than ever, tradition and modernity, seamlessly allying fine materials and hand-finishing with contemporary touches.

Swipe this code with your Smartphone for a virtual tour of a « Design Edition » model.
Do you need help reading the QR Code? See Page 17.

Inside the living areas, real wood is used alongside leather, chrome and brushed aluminium. RAPIDO uses solid maple wood for several of its furniture ranges, giving the elegant and stylish touches that our customers have come to expect. On ledges, steps and door frames, tables or kitchen work surfaces (depending on the model), RAPIDO thus stamps its mark, signing off with a wooden flourish as it has done for 50 years. New this year is the use of solid oak for furniture doors in the Harmony models in the 7dF Series and the 9dF Series with Pino Varese ambiance. The shades of the wooden furniture are carefully selected so as to blend harmoniously with the interior styling and the other materials used. For the luxurious 9M/MH Series, RAPIDO has even collaborated with an interior designer of yachts, to create a unique, nautically-inspired ambiance. Once again, RAPIDO sets the tone 1. RAPIDO interiors - elegant cocoons bathed in light - also owe their distinctive ambiance to the intelligent use of lighting 2: a ceiling light casting a gentle glow in the bedrooms, sunken LED's in the dinette's wall, ambient

lighting on dimmers in the living room, an opening roof, living room entrance door with window, etc (depending on the model and series).

ALWAYS MORE REFINEMENT: A NEW EXCLUSIVE AMBIANCE « DESIGN EDITION »

The 2013 Collection consists of six 'super-equipped' « Design Edition » models, refined symbols of luxury with the RAPIDO hallmark: 791FF AL-KO, 9090dF, 9092dF, 10000, 10001 and 990MHV. These models offer the opportunity to enjoy an exceptional and rare motor home of the kind not often seen on the highways and byways... The interior decor reflects the range's exclusivity and is enhanced by a multitude of elegant details 3. Soft LED lighting casts a gentle glow against the bedroom ceiling 4; Real wood veneer, together with varnished solid wood worthy of the most luxurious yachts, adorning the

kitchen and the living room... The 6 models are equipped with Miami ambiance (Leather/Teq), with elegant shades of brown and beige, and visible selvages. Leather seats, ambient lighting, mouldings, mirrors, alloy wheels or chrome trims, the style is pure elegance, as befits the owners. Offering a luxurious environment created using noble materials and sensitive lighting, the RAPIDO « Design Edition » models transform the act of travelling into the art of travelling.

CUSTOMISE YOUR LIVING ROOM

RAPIDO has dreamed up several ambiances for your interior, all of them full of warmth and softness. On the Series 6/6FF, 7dF and 7FF low-profile models and the Series 8M/8F and 9dF A-Class models, all you have to do is design the style you like by combining one of the 12 fabrics and leathers of your choice with one of the 2 Harmony furniture effects: Cilegio 6 or Pino Varese 7.

To select your fabric: see Page 106.

Standard equipment: an abundance of riches without equal

The standard equipment provided in RAPIDO vehicles is remarkably extensive, and the level offered is without doubt the highest available on the market in each class.

SAFETY

1 ABS (Antilock Brake System)

As standard on all the Series.

This prevents the wheels from locking during braking, optimises stopping distances and, above all, ensures that the motor home can continue to steer.

ASR (Anti Slip Regulation)

When there is loss of traction, this anti-skid system brakes the drive wheels to restore traction. (Standard on 8M, 9M/MH)

ESP

(Electronic Stability Program)

ESP is an anti-slide system capable of braking one or more wheels to return the vehicle to its centreline. (Standard on 8M, 9M/MH, option on the rest of the range FIAT except for the 9002dFH and the 10 series).

SAFETY BELTS INTEGRATED ON ALL THE SEATS IN THE A-CLASS SERIES

RAPIDO has chosen to fit all the cab seats in the A-class series with retractable safety belts with the receiver built into the seat. This enables the belt to adapt better to everyone's shape.

2 BELTS FOR THE REAR PASSENGERS

The models with seats facing the road, including several side benches, are fitted with belts in the rear. Therefore all the models are fitted with at least 4 seatbelts.

3 DRIVER'S AIRBAG

A driver's airbag is available as standard on all the models in the range.

AIR CONDITIONING

Cab air conditioning is available as standard throughout the range, enabling you to concentrate on your driving even in hot weather.

4 EXTRA-WIDE REAR TRACK

All the models in the RAPIDO Fiat and Fiat AL-KO ranges are fitted with an extra-wide rear track providing better stability on the road. Greater comfort and safety.

TECHNOLOGY

5 GAS USE

The FAVEX® system (electrically controlled with an automatic inverter) enables you to use gas, even while travelling, to heat the living area and the hot water circuit (except on the Series 6/6FF and 8M/8F: CS Duo Control option).

6 REVERSING CAMERA : Audio - Day and Night View - Heated – Adjustable

The Series 90dF/dFH, 10 and 9M/MH have the benefit of a reversing camera. The Series 7FF, 7dF and 9dF have pre-cabling installed (option on the 6/6FF and 8M/8F). The camera is connected to a screen with built-in speaker, built into the dash board. The driver can therefore hear the instructions being given by someone behind the vehicle! Manoeuvring has never been so easy!

7 AUDIO AND VIDEO EQUIPMENT: JUST LIKE BEING AT THE CINEMA!

The Series 90df/10/9M-MH models are equipped, as standard, with the PIONEER® Multimedia Station: DVD MP3 DIVX/USB/ reversing camera.

This hi-tech product is built in to the dashboard and fitted with a highdefinition LCD 2 DIN colour screen with a 5.8" (14.7cm) LCD screen and touch screen user interface. The AV station is equipped with a USB socket on the front and a reversing camera input.

This enables you to:

- > play DVDs via its « DVD player » function,
- > listen to the radio, RDS AM/FM tuner,
- > listen to your own selection of music via its IPOD or MP3 connection via USB or SD Card.

8 STANDARD INITIAL EQUIPMENT: DOUBLE CABLING FOR DVD

RAPIDO goes hand in hand with innovation. Nowadays, the radios fitted in RAPIDO models can play DVD films (Series 90dF/dFH ; 10 ; 9M/MH): for this purpose RAPIDO has run an audio-video cable from the dashboard to the TV cabinet.

And a second audio-video cable enables you to connect a DVD player near the TV cabinet.

9 LIGHTING

LED technology is present in certain RAPIDO layouts, in the bedroom, the bathroom, the ambient lighting in the living room and the bedroom and even in the garage, thanks to the movable inspection light (a RAPIDO innovation).

The LEDs enable the energy consumption to be divided by 10 (on the Serie 6 and new series 8M/8F: halogen lighting; on the Serie 6FF: LED/halogen lighting).

On the models in the 9M/MH series, you can alter the ambience lighting at will. Specific lighting is also offered so that you can walk around at night without inconveniencing your spouse or your friends.

BEDDING: ONE OF THE BEST BENCHMARKS

The bedding is one of the make's strong points. Particular care is taken to offer you optimum density foam with the Bultex® label.

130mm-thick Bultex® mattresses with memory foam top on the 9090/9092, 10 and 9M/MH models.

Its advantages:

- 1 Bultex® label.
- 2 Aluminium frame with wood slats on a flexible fixing, and suspension supports on the new 10066.
- Permanent ventilation.

THE RAPIDO A-CLASS MODELS ARE DEVELOPING TECHNICALLY AND SEEING THEIR STANDARDS OF COMFORT ADVANCE:

1 The underside of the cab bed in the A-Class models is fitted with a new generation of built-in roller blinds, electric on 9002dFH ; Serie 10 ; Serie 9M/MH and manual on the Serie 9dF ; Serie 90dF.

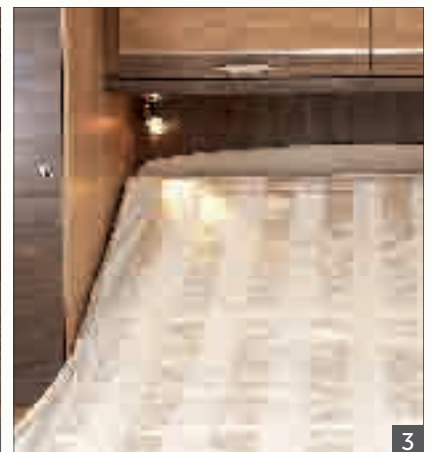

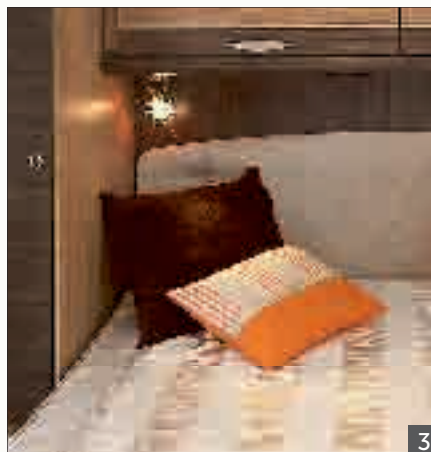

■ The cab beds on the A-Class Serie 10 are electrically operated.

2 The beds over the garage are height-adjustable (except for the 643 and 883) : manually on the 773FF ; 903dF ; 983dF ; 9083dF ; electrically on the 996M/MH.

■ The central beds are height-adjustable on the 9090dF and 10001.

■ The bedheads are adjustable on the central and twin beds and also allow the bedspring to be pushed back.

3 The 791FF, 791dF and 991dF are equipped with a jack-assisted mechanical adjustment system to tilt the bedheads simultaneously. You can keep yourself sitting up in bed quite comfortably to read or to watch a film. The adjustment mechanism also enables you to push the bedspring back to free up exceptional bedroom space.

1

2

3

PRACTICALITY

1 In the garage, an external shower with hot and cold water is provided as standard (except for the Series 6/6FF and 8M/8F). Option/RAPIDO/Pack Series 7dF, 7FF, 9dF.

2 The bathrooms provide several types of storage (shelves, cabinets), depending on the Series.

3 On some models, skylights increase the height of the shower to maximise space. On others, the shower column is in thick, ergonomic, designer Plexiglas®.

4 Models with a central bed (except the Series 6/6FF and 8M/8F) are equipped with a bag for your dirty laundry, accessible from the shelf beside the bed and also from the garage.

5 The kitchens have become more practical and sophisticated, with a chromed metal spice rack and kitchen roll holder (except for Serie 6 ; Serie 8).

6 New for 2013: the Series 7dF, 7FF, 9dF, 90dF/dFH and 10 offer a highly practical serving hatch (depending on model).

New for 2013: on the 666, 766FF, 9066dF (except ALDE version), you have the choice of two layouts (to be chosen when placing your order):

7 high twin beds for a large 120 cm garage

8 or Low twin beds for easy access to the sleeping accommodation with 80 cm high storage (or 66 cm on the 666) and wardrobes above the beds.

4

5

6

7

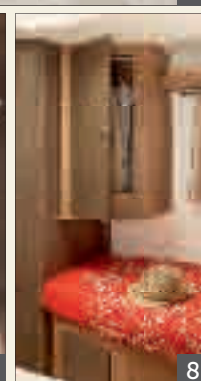

ENVIRONMENT: THE SOG SYSTEM

No longer any need to use chemicals in the toilets. This system ensures environmentally friendly, clean and healthy use, without odours in your toilets.

A fan creates low pressure in the sewage tank, causing fresh air to be drawn through the shutter opening. This influx of fresh air prevents the gas that causes bad odours from rising up into the toilet and the oxygen provided causes the sewage to decompose so quickly that there is no longer any need to add chemicals. Standard on Series 10.

8

8

2

An exclusive manufacturing method.

Technical innovation in RAPIDO's genes

From the innovative materials to the principles of an intelligent design, RAPIDO is setting the technical standards today for the motor homes of tomorrow.

ON THE OUTSIDE: RAPIDO BODYWORK MAKES ALL THE DIFFERENCE

Our R&D department strives continuously to find innovative solutions (materials, technologies...) to deliver the very best to RAPIDO customers.

The bodywork is designed to be, at the same time, robust and classically elegant, using materials such as Polyester Polyglace®, and developed to ally style with ergonomics. The whole range is equipped with skirt and rear pillars (depending on the model) in « Champagne Gray » colour.

1 Two series are distinguished by the attractive metallic « silver grey » of their bodywork, together with silver grey skirt and rear pillars, for the 9M A-Class models and metallic silver grey cabs, skirt and rear pillars for the new Series 7dF.

GEL COAT : REINFORCED PROTECTION

2 For some years now, RAPIDO has been using a « high-tech » gel-coat material, which protects your motor home's bodywork from climate damage, and especially UV. The quality of this resin (gel-coat) is essential. It gives your camping-car its long life, its watertightness and its brilliant look.

POLYESTER POLYGLACE®: UNEQUALLED BRILLIANCE AND INCREASED HAIL RESISTANCE

3 The Polyglace® polyester which clads the panels of RAPIDO camping-cars (Series 90dF ; 9M/MH ; 10) results from an exclusive technique. Its manual manufacturing process guarantees a perfectly smooth bodywork appearance of unequalled brilliance. This quality results from a greater thickness of resin.

For the whole of the range, the polyester making up the panels and the roofs also offers excellent hail resistance (which is not the case with metal walls and roofs), as well as resistance to scratches and small impacts. With polyester, repairs are easy to perform.

Another example: the internal faces of the garage doors are in polyester, to absorb any impacts when handling tables, chairs, bicycles, etc.

This is why RAPIDO chooses polyester for every one of its models.

SEALING

4 Most of the range is fitted with a roof covering all edges to ensure perfect watertightness.

Each vehicle, as it leaves the production line, passes through a water jet tunnel to test the water-tightness of the openings.

BODY STRUCTURE

Based on its long experience as a motor home manufacturer, RAPIDO builds the living areas of its vehicles with very particular attention to detail on the insulation with the use of a material, Styrofoam, which possesses high insulation values and recognised lightness properties.

Depending on the model, this insulation material is complemented by other materials or technologies such as wood, aluminium or polyurethane.

For example, on the Series 9M/MH, the bodywork is constructed from aluminium (on all the external walls and the floor).

5 On most of the range, the bodywork will now be made with polyurethane, replacing the wood frame in some places: depending on the models, this is found on the cleats around the vehicle, the frames around the living area entrance door and the cab windows, and the cab's internal structure, etc.

As for the floor, its undersurface is in polyester, with polyurethane surrounds, thereby ensuring excellent protection from road impacts or the weather... on the Series 7dF, 9dF, 90dF, 10 and 9M.

OVER 50 YEARS OF EXPERIENCE AND INNOVATION IN THE SERVICE OF ADVENTURE

From its beginnings with a folding caravan for use by the general public, RAPIDO has raised itself to a leading position, becoming the recognised manufacturer of top-of-the-range vehicles throughout Europe. RAPIDO was born from the creative mind of Constant Rousseau: in 1961, for his own holidays, he invented and manufactured a canvas folding caravan, resting on a chassis, which could serve as a trailer the rest of the year. Over the space of 30 years, 34,900 units of this innovative model would be produced, with half of them going to export. By perfecting itself from year to year, the folding caravan continued to fascinate and received several awards for its ingenuity, among them 1st Prize in the Lépine competition.

Pierre Rousseau joined the company in 1976 to work with his

father. Very quickly, he thought of designing motor homes. The first model left the factory in 1983: this was the Randonneur 410.

Pierre Rousseau took over management of the company in 1985, on the disappearance of his father.

1987 represented a real turning point for RAPIDO: the company launched a general range of motor homes, thereby entering for the first time into the core of the market. RAPIDO then produced low-profile and luton models and, a little later, a range of A-class models.

Nowadays, the catalogue is published in 9 different languages and almost half the production is exported. Times have changed, but the same philosophy still applies: the desire to do good work.

ON THE INSIDE: TECHNICAL EXPERTISE DEDICATED TO YOUR COMFORT

ADAPTABLE LIVING ROOM TABLES: A MOVE IN EVERY POSSIBLE SENSE!

The living room space must be well-designed for easy movement around the table. The living room tables are designed to enable you to travel quite easily from the cab to the kitchen:

The tabletop moves forward and back, sideways and also rotates.

On the low-profile models (except for the 6FF and 7FF), the tabletop is on a telescopic leg to provide an occasional berth.

On the A-Class models, the leg is fixed (telescopic on the Series 10).

FRONT-FACING SEATS: MODULAR SEATS

To comply with our customers' wishes, RAPIDO has developed new bench seats with modular seats.

From the "Living room" position around the table, you can reconfigure the seats so that they can be used facing the road with a seat belt during a trip.

With just a few manipulations, you can modify your bench seat to suit your particular requirements.

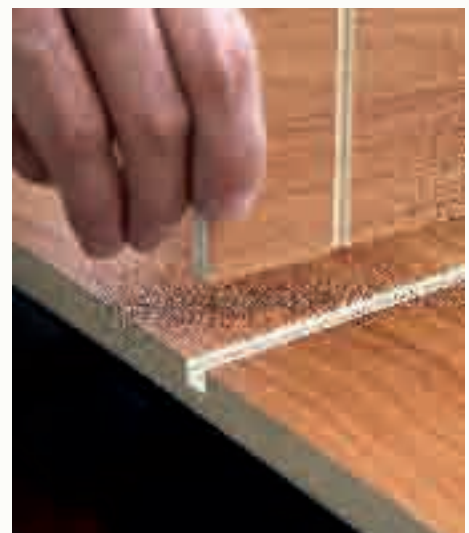

Simple, easy-to-handle bench seats! Swipe this code with your Smartphone to see them.

Do you need help reading the QR Code?
See Page 17.

FURNITURE ASSEMBLY

Based on its experience in traditional joinery, RAPIDO uses several assembly techniques, including glueing, screwing and mechanical tongue and groove assembly on some of its range. This technique provides a perfect marriage between aesthetics and solidity. The principle is simple but requires dexterity and meticulousness: the first piece of furniture has an end shaped to fit perfectly in a groove of the same shape in a second piece of furniture to produce furniture able to take to fine finishes.

1 Living room hatch for accessing the storage space from the interior

1 Wide-opening jack-assisted hatches for exterior access

1 Interior access to the 3rd level of storage

TECHNICAL DOUBLE FLOOR

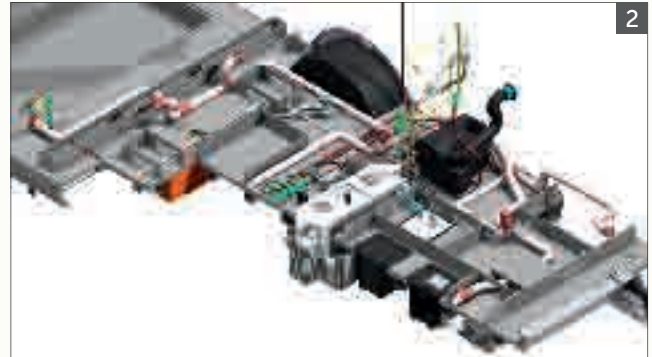

Based on its extensive knowledge of this particularly complex area of expertise, RAPIDO has designed two types of double floors combining storage space with thermal and phonic insulation.

1 STORAGE DOUBLE FLOOR (90DF AND 10 SERIES')

Provides large volume storage with easy access (from inside or outside) and includes a RAPIDO innovation - 3rd level storage.

2 TECHNICAL DOUBLE FLOOR (SERIES 7DF AND 9DF)

Houses the fresh water and waste tanks, gas lines, electricity cables and heating circuit, freeing up space in the living area and allowing for a single-level interior floor, thus removing the need for steps. Underfloor storage box inside.

> Thermal insulation reinforced by the technical double floor

> RAPIDO's double floor is connected to the lowered chassis (AL-KO or Fiat): its very low centre of gravity provides perfect driving stability.

HEATING

TRUMA HEATING SYSTEM

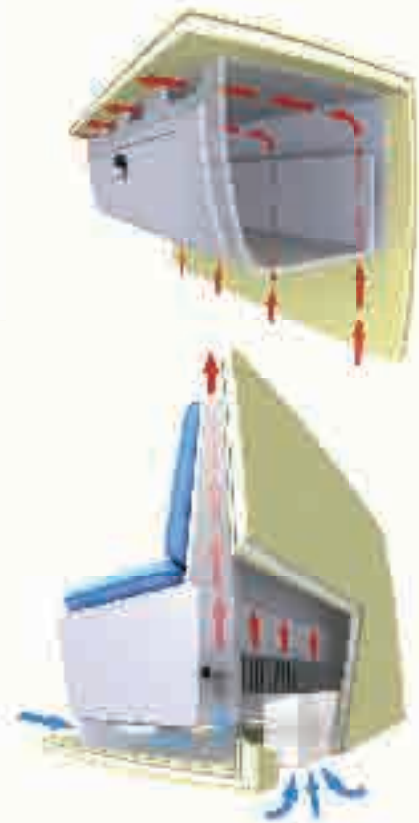

The Truma heating system is located, in most models, in the kitchen area, i.e. in the central part of the vehicle, to provide the best output possible and even radiant heat to the front and rear of the vehicle. This location was determined from tests conducted jointly by the supplier and RAPIDO.

ALDE CENTRAL HEATING SYSTEM: COMFORT PLUS ARCTIC

Working in collaboration with the ALDE team, RAPIDO has developed a top-of-the-range central heating system that has been tested, with great success, in Scandinavia. It has become a benchmark for the market, providing heat evenly distributed throughout the living area and the cab (A-Class windscreen, cab-living area connection), with the possibility of separately controlling the bedroom temperature and providing a Frost Control system. The double floor is also heated (except on the Series 9M/MH).

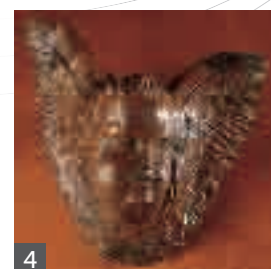

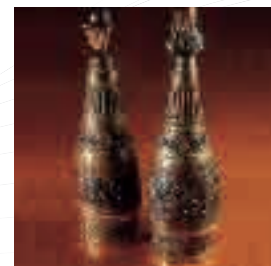

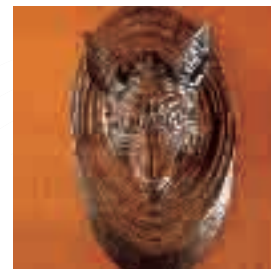

The gas boiler heats a fluid (60% water/40% glycol) in a network of pipes and convectors and creates a flow of warm air that rises along the external walls. The bulkheads, the furniture and the air are heated progressively, forming a barrier of warm air, which insulates the windows.

- Available as standard on the Serie 9002dFH / Serie 10 / Serie 9M/MH.
- Available as an option, on the Low-profile 766dF and the A-Class 966dF and, with electric heated floor: 9066dF (low beds only), 9090dF, 9092dF (including in « Design Edition »).

> ALDE Arctic Comfort Plus central heating consists of a gas boiler and a heat exchanger.

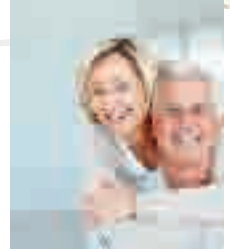

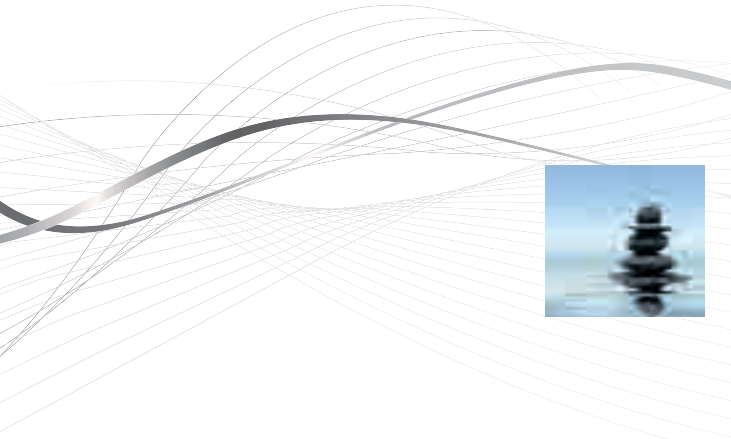

Block diagram of ALDE heating system. This does not represent a precise description of the product and/or the furniture.

Historically, the company's founder, Mr Constant Rousseau, was a craftsman cabinetmaker, familiar with noble materials and working with every type of wood.

Reliability: to travel in a RAPIDO, is to travel with peace of mind

THE PREMIUM MAKE IN EUROPE AT THE TOP OF THE RANGE

A HEART IN THE WEST

1 Historically installed in the Mayenne area, RAPIDO has always been loyal to its roots. Today, the production site is still situated in Mayenne (53). RAPIDO's customers have often had an initial experience of a motor home before coming to us. Their requirements are therefore often very specific and require us to make advances every year.

It is also for this very reason, and in order to continue to develop its activities, that an additional modern factory was built in 2008, also in Mayenne.

CONTINUOUS QUALITY IMPROVEMENT AND INNOVATION

2 The construction of our second factory has contributed to our setting up a new organisation with even more exacting quality standards. Every vehicle, therefore, is subject to continuous quality checks, final quality check and watertightness checks as it leaves the production line. A « Quality » zone has specifically been created.

This production site on 15 hectares, with 25,000 m² dedicated to production, meets the very latest safety and environmental standards.

> Strong natural light thanks to a safety-conscious shed roof* accessible from

gangways. Its northern orientation avoids the blinding noonday sun and contributes to ambient temperature control, while ensuring strong natural light in the workshop.

> Roof top heating. This enables the building to be cooled in summer by means of a reversed temperature system between indoors and the outside (with a maximum temperature differential of 5° between indoors and outside). Heating is provided using renewable energies, relayed in the winter months by a heat pump.

> Low-resonance materials: perforated sheet metal, density and materials in the partitions optimising acoustic qualities.

By improving its employees' working environment, RAPIDO is once again optimising the quality of its production. So everything is now in place to combine reliability with performance.

Constant research into improving our products is based on a progressive innovation-oriented process, requiring heavy investment in R & D with tests conducted in real situations. For example, we test our vehicles' reliability on road circuits with tracks designed especially for measuring structural aging enabling our engineering design department to provide the best solutions for ensuring optimum comfort on the road.

Other tests are conducted in cold rooms with thermal sensors, enabling us to measure heat losses. The technical

solutions provided have met real success with our Nordic customers and also with customers travelling to the mountains in the winter months.

This is why RAPIDO's serious technology is so wellknown and so often copied.

A QUALITY OF MANUFACTURE WORTHY OF OUR INITIAL TRADE AS CABINET MAKERS

3 For 50 years, the company has remained a family company, keeping this spirit of craftsmanship with genuine attention to detail. The desire to keep furniture made with elements in solid wood is still a reality, and even the design of each unit is specially conceived to last over time.

4 RAPIDO's reputation has been built on the quality of its vehicles and its woodwork symbolises perfectly the values of the brand: an alliance of modernity and tradition. In fact, even from the very earliest models, the joiners have always used high quality wood. They also have at their disposal innovative technical equipment such as five numerically controlled machines. The same care and attention is brought to the furniture in each series, and the varnish is applied by hand. It is because of these scrupulous finishes that RAPIDO is well-known throughout the whole of Europe for the quality of its products.

*Shed roof: a sawtooth profiled roof with a glazed slope all along its length.

A EUROPEAN GROUP

RAPIDO has evolved from a high-end French brand into a European group and the market leader for top-of-the-range motor homes. This success is based above all else on RAPIDO's exacting quality standards and the purchase of specialised brands in different recreational-vehicle market segments.

RAPIDO receives acclaim in Germany

RAPIDO is regularly awarded trophies by the German magazine PROMOBIL. The readers' vote conducted in 2011 brought the brand five prizes in the imported models category, for the 6 Series, the 9dF Series, the 9M Series and the VAN.

► SOME KEY DATES

1961

Launch of the first RAPIDO caravan

1983

Start of production of the Randonneur 410, RAPIDO's first motor home

1992

First RAPIDO A-class model

2010

Launch of the first RAPIDO VANS and heavy motor homes with the 10 Series

From 1993 to 2011, the RAPIDO Group has gradually expanded with the brands ESTEREL (1993), RAPIDHOME (1998), FLEURETTE (2005), ITINEO (Brand creation in 2006), CAMPEREVE (2009) and WESTFALIA (2010). The jewel of the leisure vehicle industry, WESTFALIA, strengthens even more the RAPIDO Group's European dimension.

WORKERS ATTACHED TO THEIR COMPANY AND TO A JOB WELL DONE

To demonstrate the company spirit that enthruses them, RAPIDO's employees have joined together in a lip dub, a video clip produced in playback.

See the faces of the people who design your RAPIDO vehicles, by viewing this video clip on our site www.rapido.fr using the password: « RAPIDO50ANS ».

◀ Swipe this code with your Smartphone to find RAPIDO's 50-year anniversary celebration lip dub.

HOW TO USE QR CODES FOR ALL THOSE WHO KNOW (ALMOST) NOTHING ABOUT THEM

WHAT ARE THEY?

A QR Code is a small square containing coded information that enables you to access a Web page without having to search for it or type in the Web site's address.

HOW DOES IT WORK?

1 To read a QR Code, you need to have a mobile phone with camera capability and Internet connection. Then you have to install a free app (application) entitled « QR Code Reader »:

- If you have an iPhone, use the « Apple Store » button,
- If you have a BlackBerry, use the « BlackBerry App World » button,
- If you have some other phone, use the « Android Market » button.

2 Then enter « QR Code » in the search bar, select one of the proposed readers and install it.

HOW TO READ A QR CODE?

3 Press the icon on your reader and scan the QR Code... it will take you directly to the correct Web site!

GVW 3.5 T. All the models (except for 643 and 646) are also available with GVW 3.650 T
(or 4.25 T with optional Heavy chassis at extra cost)

Customisable low-profile models

The Series 6/6FF* models bring together the best of RAPIDO layouts and offer many customisation opportunities: classic or contemporary furniture, choice of fabric, drop-down ceiling bed, Style vehicle front, high or low twin beds, two-ring gas cookers...

From the Series 6/6FF*, you access adventures in natural grandeur, as RAPIDO conceives it, with every comfort on board. A long list of standard equipment will take you to the ends of the Earth, all in a decidedly contemporary cocoon, bathed with light... Don't wait a moment longer; create your own RAPIDO now!

Total cosiness for the family

What is the very essence of RAPIDO? Extremely comfortable living spaces, both night and day. And that is precisely what the Series 7FF* is all about; THE series with a built-in drop-down bed under the ceiling. If the large living room astonishes you with its spacious dimensions, wait until you see the sleeping arrangements with their 4 berths. A second permanent bed drops down from over the living area but is hardly noticeable during the day. With 4 layouts designed to free up living space during the day, the Series 7FF has not finished amazing you... Everything is ready for the trip, a trip you can enjoy both day and night!

POLYESTER PANELS

HARMONY solid wood furniture, with a choice of 2 ambiances:

Ambiance Cilegio (with solid maple wood)

Pino Varese (with solid oak)

The 791FF and 766FF on an AL-KO chassis offer you a spacious layout, designed to accommodate all the family.

In the living room, the bedroom and the bathroom you will find the largest living space in the 7FF range. Their layout combines comfort and conviviality: bedroom with central bed or twin beds, L-shaped kitchen with a large fridge, 5 licensed seats in the Heavy version, for you to discover a new way of travelling!

The advantages of the « FF » range's beds: the bed mechanism in the 7FF range, coming directly from the one in the A-class models, is efficient and reliable.

Once the bed has been lowered, the height under the ceiling is 83 cm, enabling you to sit upright.

The mattress, which is the same quality as the permanent bed, a Bultex®, double-reinforced mattress, is reversible to provide you with excellent comfort while you sleep.

Multifunction kitchen (except for the 773FF) with second sink.

Chromed brass kitchen tap with ceramic cartridge and worktop edged in solid maple.

▶ AND ALSO...

- Roof covering all edges: made from polyester, this roof fully protects the interior, guaranteeing a perfect seal and blocking heat transmission
- Nautical-style blinds in the living room
- New living room upholstery: contemporary design, optimum comfort, living room backrests rounded towards the cab for an even more cosy atmosphere
- Mechanical height adjustment (Δ 17 cm) of the bed over the garage (773FF)
- Mechanical bed head adjustment releasing lots of space for moving around the bed (791FF)
- 4 permanent berths with a second permanent bed incorporated into the ceiling with a reversible Bultex® mattress
- High (with 120cm-high garage) or low (with 80cm-high garage) twin beds for the 766FF
- 4 seats with seat belts (791FF, 766FF : 5 seats with seat belts)
- Spice rack and kitchen roll holder
- Removable serving hatch shelf between the kitchen and the living room (depending on model)
- 15-inch flat screen TV unit (TV not supplied)
- Large AES refrigerator (160 L)
- Cooker hood
- Electrically controlled Favex® regulator valve
- Driver's airbag
- ABS braking
- Cab air-conditioning
- Extra-wide rear track
- Stabilising jacks
- GVW 3.5 T. Also available:

791dF

Model shown with option STYLE front face.

Low-profile on special chassis
with extra-wide rear track and a double floor

766dF (option ALDE) | 783dF | 791dF

All the models are also available in 3.650 T (or Heavy version 4.25 T with optional chassis reinforcement at extra cost)

Double floor comfort and style

Elegance and well-being are the defining characteristics of this series: the new 7dF Series combines:

- > the comfort of the technical double floor (originally conceived for the A-class 9dF)
- > with silver body work and decorations that will really turn heads.

Is its new sophisticated design already giving you new longings to travel? Everything is possible on board the new Series 7dF. The double floor provides thermal insulation that will protect you from the coldest of climates and helps free up the interior space thanks to its storage capacity, leaving you to enjoy the elegance of the solid wood trims.

What is certain: everything is looking good for an excellent trip...

A MAJOR INNOVATION:

Mercedes chassis rear wheel drive now accessible for A-Class entry level models.

Mercedes or Fiat A-Class models

GVW 3.5 T. Also available in:

> Fiat chassis: 3.650 T (or Heavy version 4.25 T with the optional chassis reinforcement at extra cost)

> Mercedes chassis: 3.88 T

Some dreams can now be realised

Do you dream of owning a RAPIDO A-Class? The new Series 8M/8F enables you to access the much-valued RAPIDO A-Class family and even, why not, with a Mercedes carrier. The new 8M/8F Series thus offers a choice of carrier, but your ability to personalise doesn't stop there: furniture, fabric, GVW, two- or three-ring gas cooker... Turn your RAPIDO into the incarnation of your dreams!

The benefits of the Mercedes rear wheel drive chassis were amply demonstrated during the Paris-Beijing-Paris 2010 rally.

A-Class special chassis with extra-wide rear track and double floor

Technical double floor (thermal insulation)
966dF: high beds with ALDE option

946dF - 966dF - 983dF - 991dF Also available in 3,650 T
(or Heavy version 4,25 T with optional chassis reinforcement at extra cost except 946dF)

The success of the double floor: the warmth of a home

Vast living spaces, a comfortable temperature in every season... the Series 9dF provides the luxury of the technical double floor, which increases the thermal insulation and frees up space in the living area. The living area also benefits from storage in the double floor to hide away the water tanks, the circuits and the pipework.

Designed to attract, the Series 9dF comes in 5 models, with a host of details to make a difference on the road: roof covering all the edges, driver's door with car handle, two locks on the living area entrance door, varnished top-down side mirrors with wide-angle double mirror... Breathtaking equipment in the heart of your home... the essence of RAPIDO's signature comfort.

Fiat AL-KO A-Class double floor models with extra-wide rear track and independent wheel suspension

Double floor: storage space and thermal insulation

Also available in 3,7 T (or Heavy version 4,25 T with optional chassis reinforcement at extra cost)

Serie 90dF

The benchmark of the double floor: storage space and comfort

Equipped with an insulating double floor with a second level of storage (a RAPIDO innovation), the Series 90dF offers storage accessible from both inside and outside the vehicle. The layouts favour cosiness, storage space and freedom of movement. Innovation in motion, the ingenious 90dF Series has also donned some new finery this year, including its Elegance furniture range. Below the cabinets in the living area, a row of small internally lit compartments highlights the maple and brushed aluminium furniture. The AL-KO chassis provides strong payload capacity across the 6 models in the range, as well as an exemplary and comfortable driving experience (excellent safety and road handling). When everything has been done to simplify your trip...what are you waiting for before you set off?

Storage double floor with exclusive 3rd level of storage (a RAPIDO innovation)

- > maximum storage space, accessible from both inside and outside the vehicle
- > external access with wide-opening hatches
- > lowered centre of gravity for optimum stability
- > insulation against the cold, contributing to maintaining a pleasant ambient temperature in the living area

AL-KO:

Among the leaders and the precursors in the use of this chassis, RAPIDO has contributed to its development to obtain a lowered lightweight chassis, while retaining the comfort qualities stemming from its independent wheel design.

Specific equipment on the Heavy version GVW = 4,250 T

- **Greater autonomy and comfort**
 - > Authorised weight in the garage: 300 kg
 - > Reinforced front suspension
 - > AL-KO special heavy-duty stabilising jacks

Specific equipment on the 9002dFH: (GVW = 4,250 T)

- > Electric sunshade
- > Central heating ALDE Comfort Plus Arctic
- > 190-litre fresh water tank
- > Second living area battery
- > 5 registered seats
- > 6 berths
(including 2 occasional berths in the living room)
- > Electric step on the living area entrance

EDITION

The models « Design Edition » :

The RAPIDO *refinement*

The interior of the 9090dF and 9092dF « Design Edition » is based on light and elegance: ambient lighting, mouldings and fine materials. Both these models are fitted with alloy wheels and « Design Edition » interior and external decoration (chrome finishes, ...).

- Ambient lighting (indirect lighting over the bed, an illuminated strip on the entrance to the living area, vertical lighting around the kitchen window and the living area entrance door)
- Luxurious décor in the bedroom (sophisticated trim on the bed head and its sides, quilt with pillows matching the fabric)
- Comfort and luxury furnishings and equipment: Ambiance Miami (LEATHER/Tep*), walnut burr trim on the dashboard
- Interior and external « Design Edition » decoration (chrome finishes,...)
- Alloy wheels
- Indirect roof lighting on each side at the front with dimmer
- Thicker lighted wall on the back of the dinette
- Upper doors on the kitchen and living room furniture with real wood veneer and solid maple wood with Nautical style multi-coat varnish
- With ALDE option

* Tep: Polyamide-coated fabric

Fiat AL-KO A-Class models with tag axle (GVW = 5T and GCW = 6T)
with ALDE as standard

Double floor: storage space and thermal insulation

Serie 10

Quite simply imperial

6 registered seats + 6 berths... With the New Serie 10, you have the ultimate in RAPIDO comfort at your fingertips. Offered in Heavy version with a tag axle, it provides guests with a majestic kitchen, an 8-seater living room, a separate shower (with glass door on the 10001) and the highest payload of any RAPIDO. Its 3 models come with variations in rear layout, each as impressive as the other: a central bed with 2 wardrobes, a central height-adjustable bed over the garage space. The 10066 even offers a double layout: its twin beds over the garage can be converted into a transverse bed in the wink of an eye. What more could you dream of?

The 10001

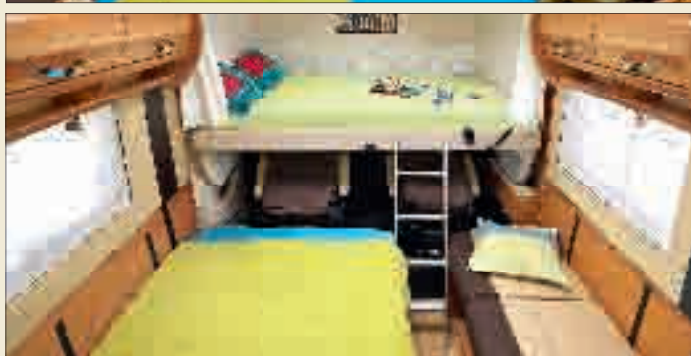

Launched in 2010, the new Serie 10 has enchanted motor home drivers with its sumptuous equipment and prestigious lines. Based on this success, RAPIDO launched an innovatory layout for a height-adjustable central bed over the garage : the 10001. Powerful, adjustable and welcoming, this model pushes back the limits on travel even further.

The tag axle provides genuine travelling comfort and increased stability on the move.

► AND ALSO...

- 300-litre fresh water tank
- Central heating ALDE Comfort Plus Arctic:
 - > Frost Control system
 - > Possibility to separately adjust temperature in the bedroom
- Lowered AL-KO chassis with tag axle

Serie 9M/MH

All aboard for the ultimate odyssey

Let yourself be carried away by the call of the open sea... on board the majestic Series 9M/MH. You have scarcely entered into the atmosphere of one of these four models than you are overcome by a sense of being on board a yacht. Inspired by the yachting industry, the design of its interior (with Majesty furniture) draws new ideas from the luxury world for even more privileged journeys. The fine materials of chestnut and ash are combined with small storage compartments, back-lit to create a very cosy atmosphere.

And if the ultimate luxury were to have everything, while ensuring everyone else's well-being?

The 9M Series' engines conform to the EEV ecological standards, making them more environmentally friendly.

The RAPIDO *refinement*

A subtle mixture of luxury and comfort, the 990MHV « Design Edition » model is equipped with ambient lighting, sophisticated furniture with mouldings and exclusive materials. It is fitted with chrome hubcaps and « Design Edition » interior and external decoration (chrome finishes...).

- Ambient lighting (indirect lighting over the bed, an illuminated strip on the entrance to the living area, vertical lighting around the kitchen window and the living area entrance door)
- Luxurious décor in the bedroom (sophisticated trim on the bed head and its sides, with moulding and mirror, quilt with pillows matching the fabric)
- Comfort and luxury furnishings and equipment: MIAMI ambiance (LEATHER/Tep*), kitchen worktop with moulding and covered 100% in synthetic resin
- Interior and external « Design Edition » decoration (chrome finishes, ...)
- Chrome wheel covers
- Indirect roof lighting on each side at the front
- Upper doors on the kitchen and living room furniture with real wood veneer and solid chestnut with Nautical style multi-coat varnish

* Tep: Polyamide-coated fabric

Optional equipment

Even though our vehicles have the highest level of standard equipment, the comfort of your trip can still be increased with optional equipment.

1

2

3

4

NAVTEQ
TRANSPORT

Navigation
Navi-Truck Pioneer®

1 Double glazing

The A-Class models (except for 8M/8F) can be fitted with double glazing on the front cab's side windows (except driver door) to improve cab insulation and reduce mist and condensation.

2 Heated Floor

Option available (grouped option with the ALDE option) for: 9066dF, 9090dF (including in « Design Edition »), 9092dF.
Option also available on the 9002dFH, Series 10 and Series 9 M/MH (ALDE as standard).

The composite film incorporated into the floor provides soft warmth underfoot at floor level and therefore a real feeling of comfort.

3 Insulating cold-weather cladding

Option available across the range.

Soplaire Isothermic protection developed with RAPIDO, ensures maximum protection both Summer and Winter. It efficiently combats the thermal exchanges in the vehicle and the formation of condensation on the windshield.

WEBASTO Air Top 2000 S cab heating

(Available on Fiat and Mercedes A-Class)

The cab heating system, which is in addition to and completely separate from the TRUMA or ALDE heating, eliminates condensation and droplets of water on the windscreen in the morning when the temperature is still cool in the cab. The energy source for the warm air heating is the vehicle's own fuel (Diesel). Its low consumption is particularly useful for long periods of heating with the engine off (at night and during long breaks) and its heat emission from the moment the heating is switched on provides a rapid rise in temperature and genuine indoor comfort.

AIR suspension

« AIR PREMIUM » suspension on AL-KO chassis. This rear suspension provides you with a real feeling of comfort and the assurance of damping out impacts for the living room furniture.

Available as an option only on the Series 90dF with Heavy chassis, the 9002dFH and the Series 10.

4 Navigation GPS + DVD player

Offered as an option across the range, the PIONEER® navigation system enables you, through a single colour screen built- into the dashboard, to:

- Follow your route through the European roads; with the micro SD card (supplied), you have all the maps of Europe, all the service areas in Europe and your RAPIDO distributors.
- Enjoy a rear view when manoeuvring thanks to the reversing camera.
- Play DVDs via its « DVD player » function.
- Listen to the radio.
- Listen to your own selection of music by connecting it to an IPOD or MP3 player by means of a USB or micro SD card.

+ Navigation Navi-Truck Pioneer®

3

1 Symphonie audio pack*

A philharmonic orchestra in your living room! Experience your emotions to the full while listening to your preferred music with XXL acoustic comfort.

This pack consists of:

- 1 PIONEER® subwoofer, combining together a cast aluminium heat sink, a woofer with an oval aluminium cone and a built-in 150W amplifier, providing very powerful bass. It also contains a cabled remote control for refining your settings,
- 2 additional speakers in the living room,
- And a further two speakers in the bedroom.

The sound is therefore harmoniously distributed throughout the living area and provides true listening quality.

*Available only on factory order!

2 Techno Pack

This pack, offered as an option on every Series, enables you to make energy savings. It consists of:

- ALDEN 100W solar panel
- I-Boost « 30% more energy »
- TELECO Flatsat easy 65 automatic satellite antenna
- TNT Sat HD demodulator
- 2nd living area battery compartment (Fitting included)

3 Allow wheels (option)

To customise the external style of your vehicle, the following alloy wheels are available as an option:

- Fiat: Fiat alloy wheels
- Mercedes (on the MH version: chrome wheel covers)
- AL-KO 15" (HEAVY : 16").

Customise your low-profile model with RAPIDO's exclusive front face!

RAPIDO, in collaboration with Fiat, has developed 3 years ago a unique front face for the low profile range with the unique « RAPIDO smile ». RAPIDO, thereby, demonstrates its know-how in terms of design and, by being the pioneer, its sense of innovation. This exclusive look including the fog lights is available as an option on all the low-profile models, in white on the Series 6/6FF and 7FF, and in grey on the 7dF versions.

Enjoy it!

The boutique

RAPIDO 

Here you can find a top-of-the-range selection of high-quality articles in keeping with the image of RAPIDO motor homes.

From pens to windcheaters, via helmets, champagne flutes and even umbrellas, you will find the useful item that will make you stand out.

To be convinced, visit the RAPIDO shop now, at www.rapido.fr.

Once you are on the Home page, click on the right-hand tab « RAPIDO Boutique » and select the products you are interested in. The all you have to do is go to your distributor.

Think about RAPIDO articles for your friends who will also appreciate their quality and good taste and give them pleasure as well!

A network of 139 sales outlets in Europe rigorously selected by RAPIDO for the quality of their service.

Furniture

A QUALITY OF MANUFACTURE WORTHY OF OUR INITIAL TRADE AS CABINET MAKERS

Historically, the company's founder, Mr Constant Rousseau, was a craftsman cabinetmaker, familiar with noble materials and working with every type of wood. Since then, the company has remained a family company, keeping this spirit of craftsmanship with genuine attention to detail. The desire to keep furniture made with elements in solid wood is still a reality, and even the design of each unit is specially conceived to last over time.

For a long time now, RAPIDO's joinery work has been a benchmark of quality, perfectly symbolising RAPIDO's values: an alliance of modernity and tradition. In fact, even from the very earliest models, the joiners have always used high quality wood. They also have at their disposal innovative technical equipment such as five numerically controlled machines. The joinery is guarantor of the quality of RAPIDO's manufacture: the same care and attention is brought to the furniture in each series, and the varnish is applied by hand. It is because of these scrupulous finishes that RAPIDO is well-known throughout the whole of Europe for the quality of its products.

HARMONY FURNITURE / Available on Series 6/6B/6FF, 8, VAN

Cilegio

Pino Varese

HARMONY SOLID WOOD FURNITURE / Available on Series 7FF, 7dF, 9dF

Cilegio

(Cilegio Ambiance with part of the woodwork in solid maple wood)

Pino Varese

(Pino Varese Ambiance with part of the woodwork in massive oak)

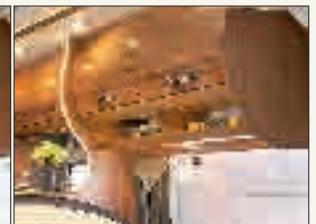

ELEGANCE FURNITURE / Available on Series 90dF, 10

Classic

Fashion

« Design Edition »
(massive maple and real wood veneer with multi-coat varnish)

MAJESTY FURNITURE / Available on Serie 9M/MH

Classic

« Design Edition »
(massive chestnut and real wood veneer with multi-coat varnish)

The classic HARMONY furniture line is presented on the VANS, low-profile Series 6/6FF models and A-Class Series 8M/8F models and comes with a choice of 2 ambiances:

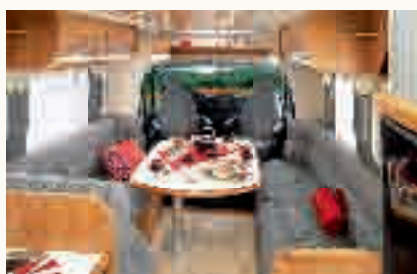

> Cilegio is a two-colour ambiance bringing a new, light, fresh, eye-pleasing atmosphere,

> or Pino Varese, which creates a very contemporary feel with its soft warm hues of brown wood and chocolate.

The Series 7FF, 7dF and 9dF are equipped with Harmony solid wood furniture:

> with solid maple wood if you choose the Cilegio ambiance,
> or solid oak if you prefer the Pino Varese ambiance.

The «Elegance» line carries its name with nobility. The style has been designed in line with our own values and incorporates lower moulding in solid maple with a brushed aluminium style insert (fitted on the 90dF, 10 series).

The hue of the Elegance furniture has been subtly lightened this year, with slightly more noticeable grooves and a brighter colour.

The line is also enhanced by a Plexiglas® panel around the kitchen window **1**, and, on the Series 10, a leather effect covering around the living room window **2**. A row of small storage compartments to complement the upper cupboards in the living areas... which, with their dual LED lighting (inside and beneath), create a soft ambiance as night begins to fall **3**.

Elegance furniture with «Fashion» finish, for more personality! A RAPIDO innovation: enjoy it! In addition to the Elegance furniture line, you can also customise your furniture with the «Fashion» finish. This finish consists of cream painted furniture with solid maplewood in the kitchen and the living room and, in the bedroom, maple colour or microfibre fabric (optional at extra cost, the precise composition depending on the model).

The «Majesty» line is a genuine creation in a luxurious contemporary style. This style has a real personality that you will find very attractive (fitted on the 9M/MH series).

As on the Elegance, a row of small storage compartments highlights the upper cabinets in the living area. Their dual LED lighting (inside and beneath), create a soft ambiance as night begins to fall...

The comfort of RAPIDO upholstery

SEATING COMFORT

Totally new seating has been developed for the new 2013 Collection, whose fluid horizontal lines provide a combination of style and comfort.

The improved seating offers an angled back with strong reinforcement to the bottom of the back to provide excellent kidney support and make you feel that you are sitting on a sofa in the lounge of a five-star hotel!

DRIVING COMFORT

All the Fiat models are fitted with special motor home seats.

In addition to their great comfort, they also adopt the ideal position (adjustable height and inclination for the back and the seat. Option/RAPIDO Pack: Series 6/8F). Designer but also practical, their ergonomic shape follows your slightest movement.

HARMONY

The original cab seats have seat covers repeating the motifs and colours in the living room. As for the horizontal lines of the living room's seats, they create an interior of character for your living room. On the Series 7FF and 7dF, depending on the model, the lounge upholstery is rounded towards the cab for a «cocooning» effect combining comfort and aestheticism. A dynamic sportiness imbues the leather seats in the A-Class models, whose headrests are now built into the seats.

FABRIC QUALITY

RAPIDO microfibre fabrics on the fixed furnishings and the Saint-Malo microfibre upholstery, have both received « Easy-Clean » stain-resistance treatment.

See Page 17.

RAPIDO pays particular attention to the quality of the upholstery. Conscious of the fact that a lot of time is spent sitting in a motor home, RAPIDO designs high quality upholstery. The choice of the foams and textiles determines the level of comfort; both are rigorously selected and tested. In your motor home, hours pass but comfort remains.

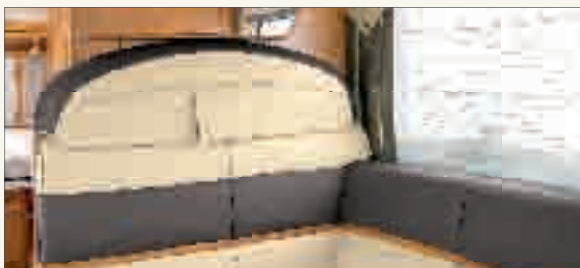

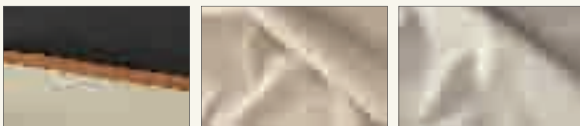

THE REFINEMENT OF ALCANTARA®

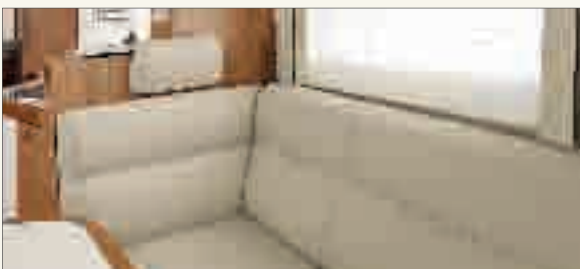

6 Geneva

Luxury

Available as an option

7 Ambiance Miami
(LEATHER/Tep* in dark/light brown)

Boston ambience
(LEATHER/Tep* in beige)

8 « Sable » Nappa leather**

1 Ipanema
Origin of the name: think of the beaches of Rio de Janeiro and the motifs on the ground leading to the beach...

2 Saint-Malo
New generation Easy-Clean stain-resistant easy-wash fabrics.

3 Modena
Standard on Serie 6/6FF ; 8M/8F.
(other fabrics at additional cost).

4 Opio
Velour and Jacquard fabric (available only with Harmony Furniture with Pino Varese trim).

4 Parma
Velour fabric very soft to the touch.

New 2013 :

5 Vienna
With its double strips of fabric in a satin finish that combine simplicity and distinction, Vienna will add a distinctive finishing touch to your motor home.

5 Malmö
A finish with a Scandinavian flavour, for a bright ambience.

6 Geneva
Available as an option on all the Series. This sophisticated, soft material from the Far East, made up in Milano, will bring great elegance to your RAPIDO interior.

7 Miami
(LEATHER/Tep* in dark/light brown)
Available as an option across the range and as standard for the «Design Edition» vehicles. The visible stitching contrasts with the brown and beige hues of the leather, to which a velvety strip of faux suede is sewn.

8 « Sable » Nappa leather
Available as an option on Series 90dF, 10, 9M/MH. This exceptionally high quality finishing leather will make your interiors even more luxurious.

* Tep: Polyamide-coated fabric

** Available as an option on Series 90dF, 9M/MH, 10

APP iPhone

RAPIDO's "R" iPhone app is available free of charge at:

RAPIDO is breaking new ground in being the first motorhome manufacturer to provide an iPhone app especially for service areas.

Wherever you are in Europe, RAPIDO's R app enables you, free of charge, to call up the nearest service areas.
