

**Touring
Caravans
1994**

ABI Caravans are not only Britain's largest selling caravan manufacturer but we are one of the oldest caravan companies.

ABI was formed in 1972, by the merger of two well known names in caravans and leisure homes, into one new and dynamic company. Since then, our high standards have ensured the steady development of the company, and in 1990 the ABI Leisure Group plc. was floated on the London Stock Exchange.

Based in Humberside our 21 acres site, is a flagship for industry standards. From here ABI constantly strive to attain higher standards of reliability, quality and design.

ABI cares in the way it manufactures caravans...ABI cares for its customers.

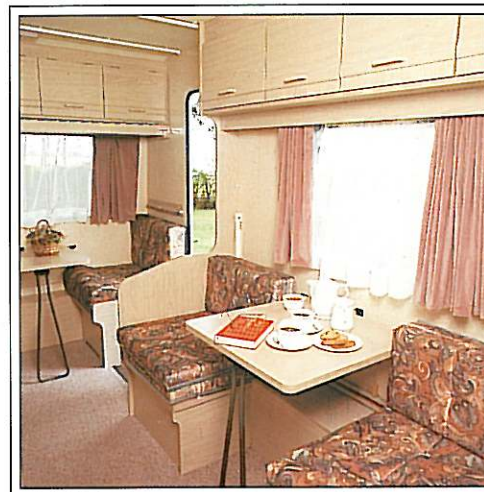

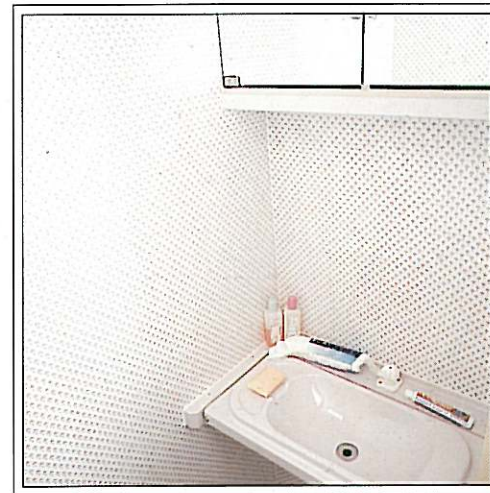

THE Monza RANGE

If you want a highly affordable caravan with a distinct character, look no further than the Monza.

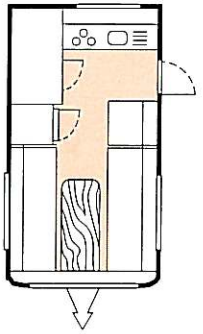

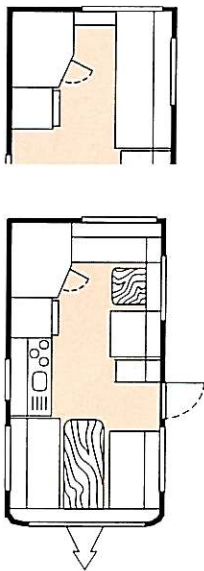

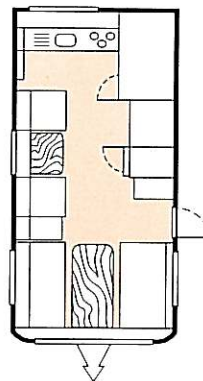

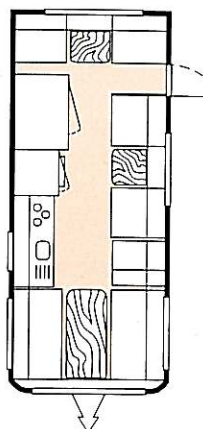

The much loved Monza is both practical and attractive. There's an impressive host of features and both interior and exterior are smart and stylish.

Take a close look at the Monza and you'll be impressed not only by the new levels of comfort but also by the high levels of equipment, with such convenient features like the eyeball reading lights.

With all the comfort and refinement this range is known for, the Monza represents outstanding caravanning quality at a price that's sure to please.

THE Jubilee RANGE

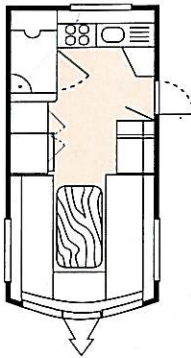

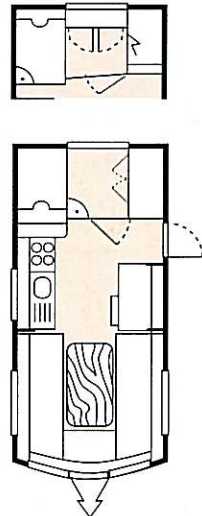

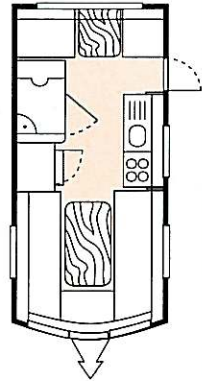

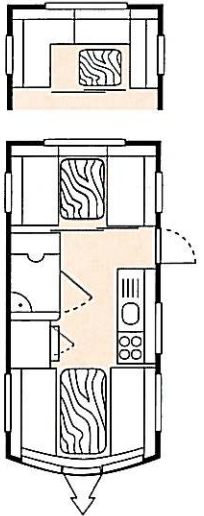

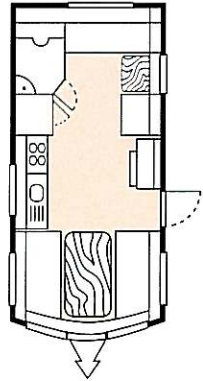

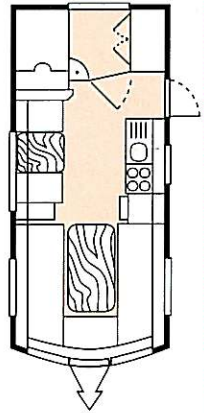

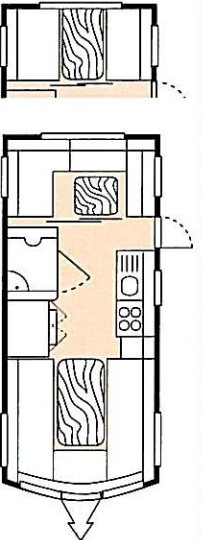

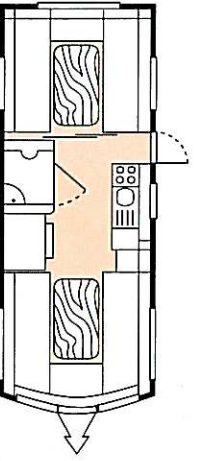

ABI's own experienced design team have created a caravan of a very special kind. The exterior design will appeal instantly to those who appreciate stunning design and styling, its single body colour exterior including a sleek rear spoiler and its contrasting graphics, most certainly look the part.

This year will see the introduction of a totally new concept in interior design, this convenient and flexible system allows you to choose any one of three alternative layouts simply by repositioning the draw unit.

The inside story is one of refined comfort, adding even more luxury to the Jubilee's special kind of caravanning individuality.

- Battery operated clock
- Gas/electric water heater (excluding Superstar Primus)
- Smoke Detector

OPTIONS

- Twin axles: Transtar, Nightstar, Tristar, Sunstar, Northstar (Standard on Superstar)
- Side mounted jacking points and jack

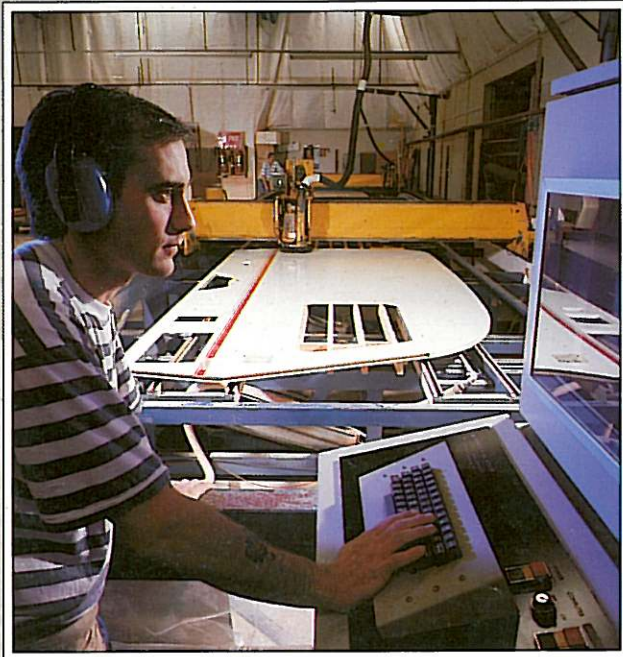

Quality by Design

ABI designers can call upon a wealth of experience and reserves of computer aided design.

ABI produce a wide range of touring caravans, ... a range that is the most comprehensive in the UK and which offers the best in caravan technology, a range that enjoys an enviable reputation for quality, style and value.

ABI is at the forefront of technical development and the use of the delta axle on the Award range is one of the most significant expressions of this research.

The Alko Delta axle uses a semi-trailing arm automatically adjusting the wheel camber and brake alignment, giving a higher roll centre when cornering. This provides for greater stability and added safety. This

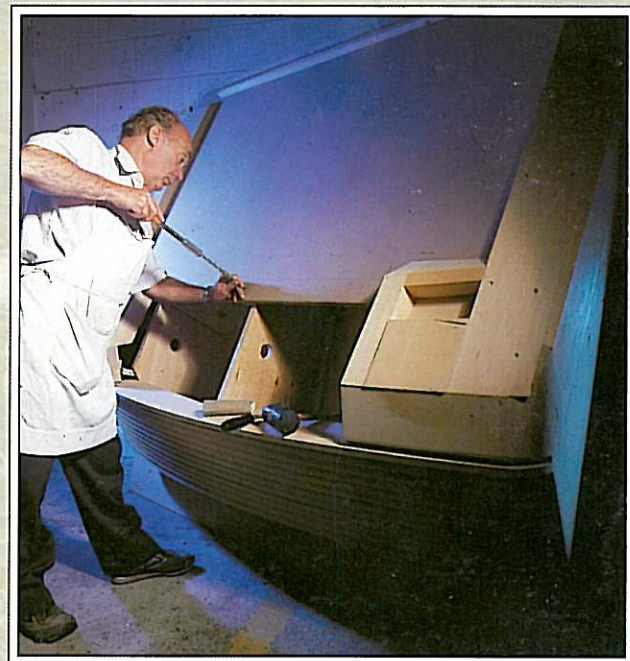

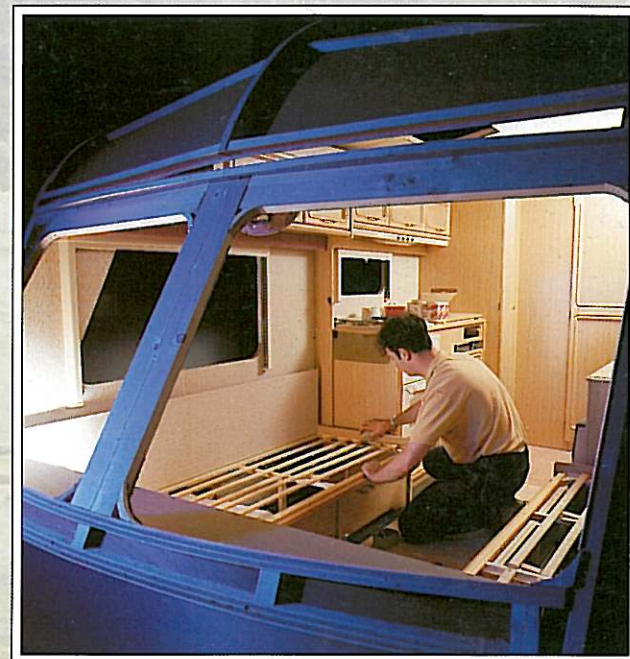

means that the wheel of the caravan doesn't rise up off the road and the caravan remains stable throughout.

Every component and material we use in manufacture is tested before it is passed for inclusion in the ABI range. Equally important is the use of non-corrosive materials such as aluminium, plastics and stainless steel.

Through extensive research we know the needs of the caravanner and we constantly strive to meet these needs.

All of our UK ranges conform to British Standard for touring caravans (BS 4626) and are approved by the industry's own governing body, the National Caravan Council.

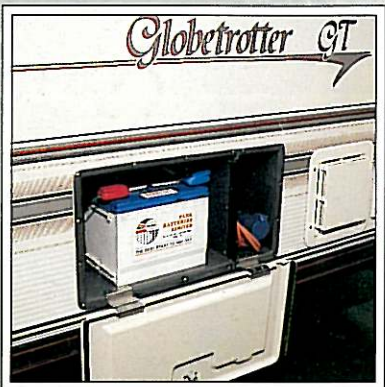

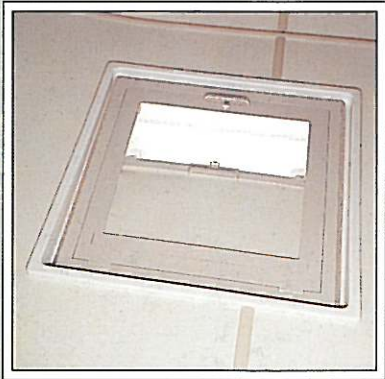

Which ever model you choose, ABI epitomizes the very best of modern caravan design and technology. Providing more style, more choice and even greater value.

Features and Options

ABI offers an extensive range of features all aimed at making life more comfortable and convenient.

The items shown are a few examples of the many features available. Please consult the individual product range page ...

ABI "Best Price" Policy

At selected ABI dealerships you'll find the whole business of buying a caravan infinitely more relaxed.

There's no need to feel threatened by a high pressure salesman instead, helpful staff will be on hand to answer any questions you may have about Britain's best selling caravans.

Most people hate haggling over price, so ABI have done away with the need to. Instead, you'll find your dealer offers you a fixed all-inclusive "best price" on every single new ABI model.

Free of all that tiresome wheeling and dealing, they simply give you their best possible price up front.

A fair and honest price is a much more civilised way of doing business.

Buying your caravan from Britain's biggest manufacturer brings great peace of mind, but it also brings a great after sales service too.

For more details of how owning an ABI caravan can be as stress free as buying one, dial 100 and ask for Freephone ABI Caravans for your nearest participating dealership.

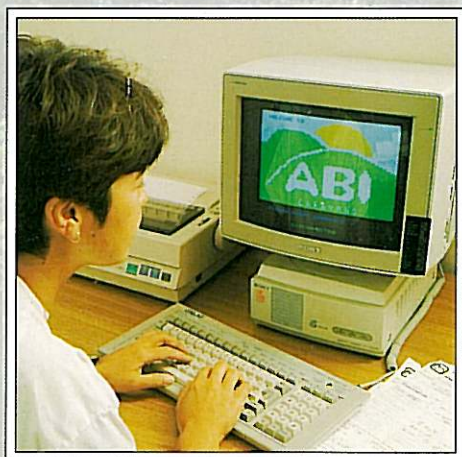

Exclusive Dealer Network

When you buy an ABI caravan you buy more than just a caravan. Behind the familiar ABI badge is a dealer network offering a wide range of services which make it easier and more enjoyable to buy, own and look after your new purchase.

ABI dealers cover the UK and Europe and are the only manufacturer that operates a solus franchise. This means that when you visit your ABI

dealer you will not only be able to see an extensive range of ABI touring caravans but the dealer will be able to advise you in complete confidence about ABI Caravans because they only sell ABI.

ABI dealers are nationwide all with trained staff, experience and above all enthusiasm.

Everyone associated with ABI has made a commitment to giving customers the best possible care and attention, both before and after purchase. Trained staff at all levels will look after your needs and we want you to build a close relationship with your ABI dealer putting names to the faces you meet when you call in, whether it's to buy your new ABI or for a service.

ABI is computer linked to its dealer network via Videotex, a first in the caravan industry. Videotex enables a dealer to sign on to ABI's computer and

deal with customers enquiries immediately. He can obtain price, availability and place an order knowing the stock has been allocated to the order.

Providing the item is in stock, the customer can expect delivery by ABI's own after sales delivery service during their weekly visit to the dealer.

ABI Owners Club

As an owner of an ABI caravan you are automatically eligible to become a member of the ABI Owners Club.

You'll receive regular Newsletters, providing useful information on caravanning, meetings and rallies.

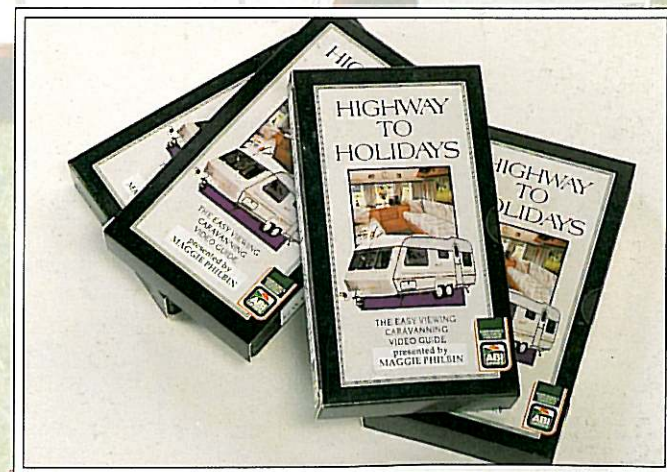

Events are organised throughout the UK and in Europe all aimed at helping you to get the most out of your ABI caravan. There's always lively information exchanged amongst ABI owners, and the opportunity to make new friends.
